Directory of
SPECIAL DISTRICTS
In San Diego County

2011
San Diego
Local Agency Formation Commission
The 2011 Edition of the San Diego LAFCO Directory of Special Districts provides a comprehensive source of information about the significant role of special districts in San Diego County. The Directory of Special Districts is an outgrowth of the distinctive relationship between the 85 districts in the County of San Diego and the San Diego Local Agency Formation Commission. The extensive records that LAFCO maintains in its oversight function provided a base for the Directory, which was augmented by staff research and special district contributions.

Special districts are a dynamic organization of public service providers. The Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000 (C-K-H) and its antecedents have established procedures to regulate the orderly development of local public agencies, including special districts. Districts are formed, expanded, contracted, consolidated, dissolved, merged, and made subsidiary to cities according to C-K-H provisions—and the 2011 Directory captures the unique organizational history associated with each special district in San Diego County.

The Directory also includes abstracts of special district principle acts, which are generalized reviews of State Law; the reader is referred to appropriate code sections for a definitive source. A companion publication, the San Diego LAFCO Procedures Guide, provides a summary review of all enabling acts that determine the specific powers and functions of each type of special district. The Procedures Guide, which also contains information about the LAFCO processes that regulate of special district organization, may be purchased from San Diego LAFCO.

SECTION 1

INDEPENDENT and DEPENDENT DISTRICTS
DISTRICT BACKGROUND

The Alpine Fire Protection District (FPD) provides structural fire protection and advanced life support-level emergency medical service (EMS) within the unincorporated east county community of Alpine.

The District covers approximately 19 square miles including the Alpine town center and National Forest and State Park lands. The FPD was formed in 1957 to establish governmental structure for a volunteer fire organization that had provided emergency services within the Alpine area since 1947. The District is a member of the Heartland Communications Authority JPA for dispatch service and the Heartland Training Facility. Ambulance transport service in the Alpine area is provided by American Medical Response (AMR) through a county contract with the Grossmont Health Care District.

A sphere-of-influence was approved for the Alpine FPD in 1983 that was larger than the district boundary. Unincorporated territory between the Alpine, Lakeside, and Crest FPDs was designated as the McCain/Viewside Special Study Area. The special study area was resolved in 1984 and approximately two square miles were added to the Alpine FPD sphere.

DISTRICT CHARACTERISTICS

Principal Act: Health and Safety § 13800 et seq.
Services: Structural fire protection
Advanced life support EMS
Fire Station: 1364 Tavern Road; Alpine
Ambulance Transport: American Medical Response (AMR)
Population: 15,665 (2009 SANDAG)
Dispatch: Heartland Communications Authority JPA
ISO Rating: 4 and 9 by area (1998)
District Area: 18.63 square miles
Sphere of Influence: Larger than District
Sphere Adopted: April 4, 1983
Sphere Affirmed: May 7, 2007
Sphere Reaffirmed: August 6, 2007
Revenue Sources: Property tax, voter-approved assessment
Governance: Elected 5-member Board of Directors
Board Meeting: 3rd Tuesday: 5:00 p.m.
1364 Tavern Road
Alpine, CA 91909

1Crest FPD and Bostonia FPD consolidated in 1994 and emerged as the East County FPD. East County FPD subsequently consolidated with the San Miguel Consolidated FPD in 2008; the successor agency retained the name San Miguel Consolidated FPD.
DISTRICT BACKGROUND

The Bonita-Sunnyside Fire Protection District (FPD) provides structural fire protection, advanced life support-level (ALS) emergency medical service (EMS), rescue services, and hazardous materials response within the unincorporated south county community of Bonita.

The District was formed in 1950 to establish governmental structure for the Upper Sweetwater Valley Volunteer Fire Company that had provided emergency services to the unincorporated Sweetwater Valley area since 1939.

The FPD covers approximately seven square miles and includes residential and commercial development in the community of Bonita; County and Regional Parklands; and conservation areas overseen by the U.S. Fish and Wildlife Service in collaboration with the Sweetwater Unit of the San Diego National Wildlife Refuge.

Bonita-Sunnyside FPD is a member of the Heartland Communications Authority Facility JPA for dispatch and is a founding member of the Regional Cooperative Care Partnership (RCCP), a consortium of emergency service agencies, which provides administrative oversight for ALS and paramedic ambulance transport services.

LAFCO approved a sphere-of-influence for the Bonita-Sunnyside FPD in 1985 that is larger than the district boundary. The sphere is essentially coterminous to the district boundary on the west but includes significant additional territory to the east of the District. Unincorporated territory in the FPD sphere is included in an area, which has been identified as a service island, where no agency is responsible for providing emergency services.

DISTRICT CHARACTERISTICS

## DISTRICT BACKGROUND

The Borrego Springs Fire Protection District (FPD) provides structural fire protection, advanced life support-level (ALS) emergency medical service (EMS), and rescue services in the unincorporated east county community of Borrego Springs.

## DISTRICT CHARACTERISTICS

| Principal Act: | Health and Safety § 13800 et seq. |
| Services: | Structural fire protection, Advanced life support EMS |
| Ambulance Transport: | Borrego Springs FPD under contract |
| Fire Station: | 2324 Stirrup Road |
| Population: | 3,834 (2009 SANDAG) |
| Dispatch: | CAL FIRE (7-1-10) |
| ISO Rating: | 6 and 9 by area (2000) |
| District Area: | 310.6 sq. miles |
| Sphere of Influence: | Coterminal with District |
| Sphere Adopted: | May 7, 2007 |
| Sphere Affirmed: | August 6, 2007 |
| Revenue Sources: | Property tax, voter-approved assessment, County Fire Enhancement Program |
| Governance: | Elected 5-member Board of Directors |
| Board Meeting: | 2nd Tuesday: 4:00 p.m. |
| Contact: | borrego-fire.org, P.O. Box 9, Borrego Springs, CA 91902, 760/767-5436 |
| View Map: | sdlafco.org/Webpages/agency_maps_links.htm |

The District, which was formed in 1961, covers approximately 310 square miles that includes the Borrego Springs town center and significant territory within the Anza Borrego Desert State Park. The FPD has an estimated permanent population of approximately 3,800; however, the population expands by 10,000 or more seasonal residents during winter months and more than a million tourists visit the desert community each year.

The FPD participates in mutual aid with the U. S. Forest Service and the California Department of Forestry and Fire Protection (CAL FIRE). The County Fire Enhancement Program provides stipends for additional volunteer firefighters.

The County Office of Emergency Services contracts with the Borrego FPD to provide ALS ambulance transport services in the area as an Exclusive Operating Area provider.

LAFCO approved a sphere-of-influence for the Borrego Springs Fire Protection District in 2007 that is coterminal with the district boundary.
DISTRICT BACKGROUND

The Borrego (California) Water District (WD) provides groundwater replenishment, water, wastewater, flood control, vector control, solid waste, and park and recreation services within the unincorporated east county community of Borrego Springs.

The District was formed in 1962 in response to concerns that water would be exported out of the Borrego Valley groundwater basin. The formative District was authorized only to provide groundwater replenishment services; however, the district’s authority broadened over three decades as the District’s latent powers were activated.

1979 Latent powers for water service were activated district-wide.

1979 Latent powers for wastewater service activated in restricted area; service-specific sphere-of-influence approved for wastewater services.

1983 (1) Latent powers for vector control services activated district-wide; Borrego Valley Mosquito Abatement District dissolved. (2) Restricted wastewater area expanded.

1984 Latent powers for flood control service activated in restricted area.

1985 Restricted wastewater area expanded.

2009 (1) Following special legislation, latent powers for solid waste and park and recreation services activated in restricted area; Borrego Springs Park CSD dissolved. (3) Restricted wastewater area expanded.

Water service capacity has expanded through district acquisition of private water systems. The 1979 activation of latent powers for water was associated with transfer of infrastructure from the Ram’s Hill Development; the service areas of the Golden Sands and Rancho Borrego Mutual Water Companies were annexed to the District in 1987; and in 1996, the Borrego Springs Water Company was acquired and the Company’s service area annexed to the District.

DISTRICT CHARACTERISTICS

Principal Act: Water Code § 34000 et seq.

Services:
District-wide: groundwater replenishment, water, vector control
Restricted areas: wastewater, flood control, solid waste, park and recreation

Facilities:
18 wells; 5 potable and 1 reclaimed reservoir; wastewater treatment plant

Population: 3,359 permanent (2009 SANDAG)

District Area: 47.9 square miles

Spheres of Influence:
District: Coterminal with District
Wastewater service: Larger than service area

Spheres Adopted:
District: Jan. 6, 1986
Wastewater service: Oct. 5, 1987

Spheres Affirmed:
Wastewater service: Oct. 1, 2007

Revenue Sources: Property tax, fees

Governance: Elected 5-member Board of Directors; must be registered voters within District

Board Meeting:
4th Wednesday: 9:15 am
806 Palm Canyon Drive
Borrego Springs, CA 92004

Contact: borregowd.org
P. O. Box 1870
Borrego Springs, CA 92004

View Map: sdlafco.org/Webpages/agency_maps_links.htm

LAFCO approved a sphere-of-influence for the Borrego WD in 1986 that is larger than the district boundary. A service-specific sphere was approved for the wastewater service area; expansion of wastewater service is restricted to the wastewater service sphere.
**Buena (County) Sanitation District**

**District Background**

The Buena (County) Sanitation District (SD) provides wastewater collection services within the Agua Hedionda Creek Basin in north San Diego County. The District boundary includes approximately eight square miles, including a portion of the City of Vista and unincorporated territory southeast of the City.

In 1960, the District Board of Directors was restructured to accommodate one member of the Vista City Council. The Board was further modified in 1990 to increase city representation to two members and reduce county representation to a single seat. In 1998, County Supervisors totally withdrew from the District Board and designated the Vista City Council as the Buena SD Board of Directors as authorized by Health and Safety Code § 4730.

The Buena SD and the City of Vista wastewater collection systems are administered as a single system by the City of Vista Public Works Department. The City and the District are both members of the Encina Wastewater Authority; each agency has two Authority representatives; and wastewater generated in both agencies is treated at the Encina Water Pollution Control Facility (WPCF) in Carlsbad.

LAFCO approved a transitional sphere for the Buena SD in 1984 in recognition that Buena SD service responsibility should eventually be assumed by the City of Vista. The sphere approval includes provisions to allow unincorporated parcels, which need wastewater services, to annex to the District until such time as the Buena SD merges with the City of Vista.
Canebrake County Water District

District Background

The Canebrake County Water District (CWD) provides potable water service within a small high-desert community south of the unincorporated east county community of Julian.

The District was formed in 1966 to provide water service within approximately 960 acres that are developed primarily with seasonal residences; there are few permanent residents within District. The District pumps and distributes local groundwater to 82 metered connections.

The Canebrake County WD owns one well and two reservoir storage tanks with a combined capacity of approximately 67,000 gallons. The water system is maintained by district staff.

LAFCO approved a sphere-of-influence for the Canebrake County Water District in 1984 that is coterminous with the district boundary.

District Characteristics

- **Principal Act:** Water Code § 30000 et seq.
- **Service:** Water
- **Connections:** 82 metered connections
- **Facilities:** One well; two reservoirs
- **Population:** 149 (2009 SANDAG)
- **District Area:** 962 acres
- **Sphere of Influence:** Coterminous with District
- **Sphere Adopted:** November 5, 1984
- **Sphere Affirmed:** November 7, 2005
- **Sphere Reaffirmed:** August 6, 2007
- **Revenue Sources:** Property tax, fees

DISTRICT BACKGROUND

The Carlsbad Municipal Water District (MWD) provides potable water and wastewater services within approximately 85 percent of the City of Carlsbad.

DISTRICT CHARACTERISTICS

Principal Act: Government Code § 71000 et seq.
Services: Water, Wastewater, Reclaimed water
Service connections: 26,770 water connections
Population: 84,803 (2010 SANDAG)
District Area: 32.45 sq. miles
Sphere of Influence: Coterminous with District
Sphere Adopted: September 9, 1985 (larger than district)
Sphere Affirmed: November 7, 2005 (coterminous)
Sphere Reaffirmed: August 6, 2007
Revenue Sources: Property tax, fees
Governance: Subsidiary District to City of Carlsbad, Carlsbad Council presides as Carlsbad MWD Board of Directors
Board Meeting: Tuesdays: 6:00 p.m.
Council Chambers
1200 Carlsbad Village Drive
Carlsbad, CA,
Contact: carlsbadca.gov/water
950 El Camino Real
Carlsbad, CA 92008

View Map: sdlafco.org/tables/distnmaplinks.htm

The MWD became a subsidiary district to the City of Carlsbad in 1990. The District was formed as the Carlsbad MWD in 1954 and renamed the Costa Real MWD in 1979. The name was changed back to the original Carlsbad MWD when the District was made subsidiary to the City of Carlsbad.

Approximately 85 percent of the City receives water from the MWD; a small south-easterly section of the City receives water services from either the Vallecitos Water District or Olivenhain Municipal Water District.

The Carlsbad MWD is a member of the San Diego County Water Authority (SDCWA) and 100 percent the District’s supply is imported water purchased from the SDCWA.

The MWD also provides wastewater collection services within approximately 85 percent of the City. The District is a member agency of the Encina Wastewater Authority and wastewater generated within the District is transported to the Encina Water Pollution Control Facility (EWPCF) for treatment and disposed through an ocean outfall, or after further treatment, distributed as reclaimed water.

LAFCO approved a sphere of influence for the Carlsbad MWD in 1985 that was larger than the district boundary. Annexation of territory within the district sphere rendered the sphere coterminous with the district boundary and a coterminous sphere was affirmed in 2007.
NOTE: The Coachella Valley Water District includes territory in Riverside, Imperial, and San Diego Counties; less than five percent is within San Diego County.

The Coachella Valley Water District (WD) covers approximately 1,000 square miles over three counties. The majority of district territory lies in Riverside County; a small portion is in Imperial County; and only about 28,000 acres is within San Diego County.

A California Water District (CWD) was formed in Coachella Valley in 1918. Special legislation (Water Code § 33100-33106) in 1937 allowed the CWD to merge with the Coachella Valley Storm Water District and the successor Coachella Valley Water District assumed the powers and duties of both Storm Water and County Water District.

Within Riverside and Imperial Counties, the Coachella Valley WD provides domestic water, wastewater collection and treatment, regional stormwater and flood protection, irrigation water, irrigation drainage, and groundwater management services. Imported water is used for irrigation. Groundwater is pumped for domestic use and the groundwater supply is recharged with reclaimed and imported water. Territory in San Diego County was annexed to the District in 1963; however, district services have never been provided services within the annexed area.

Approximately 13 percent of the District’s operating expense is funded by property tax revenue. In 2008, district territory in Riverside and Imperial Counties had an assessed value of approximately $58.1 billion as the base for generating property tax revenue. District territory in San Diego County is entirely within the Anza-Borrego State Park; the area is uninhabited, is not assessed, and does not contribute property tax revenue to the District.

**District Characteristics**

- **Principal Act:** Water Code § 30000 et seq.
- **Services:** No service provided in San Diego County; Riverside and Imperial Counties: Water, wastewater, regional stormwater and flood protection, irrigation drainage, groundwater management
- **Service Connections:** No services in San Diego County
- **District Area:** 27,836 acres in San Diego County; 639,857 acres district-wide
- **Sphere of Influence:** San Diego County: Smaller than District
- **Sphere Affirmed:** San Diego County Sphere: August 6, 2007
- **Governance:** Elected 5-member Board of Directors
- **Revenue Source:** No revenue from San Diego County
- **Board Meeting:** 2nd and 4th Tuesday; 9:00 a.m. 85-995 Avenue 52 Coachella, CA 92236
- **Contact:** cvwd.org
  PO Box 1058
  Coachella, CA 92236
  760/398-2651
- **View Map:** sdlafco.org/Webpages/agency_maps_links.htm

Because the greatest assessed value of Coachella WD territory is in Riverside County, the role of principal county for the multi-county district is assigned to Riverside. In 2007, San Diego LAFCO affirmed a sphere-of-influence for the Coachella WD that has been approved by the LAFCO from the principal county. The district sphere within San Diego County is smaller than the district boundary.
**DISTRICT BACKGROUND**

County Service Area (CSA) No. 17 (San Dieguito Ambulance) provides advanced life support (ALS) ambulance transport services within the cities of Del Mar, Encinitas, and Solana Beach; City of San Diego communities of Del Mar Heights and Del Mar Terrace; and the unincorporated communities of Rancho Santa Fe, 4-S Ranch, and a portion of Elfin Forest. The District includes approximately 73 square miles.

CSA No. 17 was formed in 1969 to provide public ambulance transport services within an unincorporated north-coastal area and within the City of Del Mar. In 1976, two communities in the northern section of the City of San Diego annexed into the CSA. In 1986, District territory was included in the incorporations of the Cities of Encinitas and Solana Beach but remained part of CSA No. 17. In 1993, the unincorporated community of 4-S Ranch annexed to the District.

The county-dependent CSA is governed by the Board of Supervisors and the County Office of Emergency Medical Services (OES) is the administrator for ambulance transport contracts with the Rancho Santa Fe Fire Protection District.

A seven-member Advisory Committee, composed of officials from participating agencies and members of the public provide counsel to OES and the Board of Supervisors. CSA No. 17 is funded through property tax revenue, voter-approved assessments, and non-resident fees.

LAFCO approved a sphere-of-influence for CSA No. 17 in 1985 that is larger than the district boundary.
**CSA No. 26**
**Rancho San Diego**

**DISTRICT BACKGROUND**

County Service Area (CSA) No. 26 (Rancho San Diego) was formed in 1970 to provide a funding source for planning activities associated with the Rancho San Diego Development in unincorporated east county.

In 1972, the CSA was authorized to also provide landscape and open-space maintenance services as a latent power. Planning services were last performed in 1973; however, landscape and open-space maintenance services are an ongoing district function. District officials established Zone A (Cottonwood) in 1980 and Zone B (Vista Village) in 1985 as service sub-areas of the CSA. Discrete mixtures of landscape and open-space maintenance services are administered within the zones. The Special Districts Section of the County Department of Public Works administers maintenance services for local parks within the CSA.

The county-dependent CSA is governed by the Board of Supervisors. A five-member Advisory Committee provides community input to the County regarding district issues. Advisory Committee members are nominated by the District 2 Supervisor and confirmed by the Board of Supervisors; terms of office run concurrent with the District 2 Supervisor. Advisory Committee membership will increase to seven members when two-thirds of the parks planned for development have been completed. When all parks are developed, membership will increase to nine.

CSA No. 26 included approximately 6,000 acres at formation; 230 developed acres were detached from the CSA in 1983 and responsibility for maintenance services within the detached area was assumed by a homeowners association. A six-acre development was annexed to CSA No. 26 and Zone A in 2001.

**DISTRICT CHARACTERISTICS**

- **Principal Act:** Government Code § 25210 et seq.
- **Service:** Landscape and open-space maintenance
- **Population:** 18,467 (2010 SANDAG)
- **District Area:** Approximately 8.5 sq. miles
- **Sphere of Influence:** Coterminous with District
- **Sphere Adopted:** April 1, 1985
- **Sphere Affirmed:** August 6, 2007
- **Revenue Source:** Voter-approved assessment
- **Governance:** County Board of Supervisors
  
  Appointed 5-member Advisory Committee

- **View Map:** sdlafco.org/Webpages/agency_maps_links.htm

CSA No. 69 was formed in 1974 to provide ambulance transport service within approximately 63 square miles of unincorporated east county. The western portion of the CSA was included in the 1980 incorporation of the City of Santee, but remained in CSA No. 69. As part of a related Reorganization, CSA No. 115 (Pepper Drive) was established in an area adjoining Santee and the CSA No. 115 area also remained in CSA No. 69.

CSA revenues fund contracts with the Lakeside Fire Protection District (FPD) and the City of Santee Fire Department to provide ambulance transport service within the CSA boundary. The County Office of Emergency Services (OES) provides contract administration.

The county-dependent CSA is governed by the Board of Supervisors. A 10-member Advisory Committee composed of officials from the San Miguel Consolidation FPD (representing the community of Bostonia); City of Santee (2 members); Grossmont Health Care District; Lakeside Chamber of Commerce; Lakeside Community Planning Group; Lakeside FPD; Lakeside Union School District; Santee Chamber of Commerce; and Santee School District provide input to the Board of Supervisors.

LAFCO approved a sphere-of-influence for CSA No. 69 in 1990 that is larger than the district boundary.
**District Background**

County Service Area (CSA) No. 81 (Fallbrook Local Parks) was formed in 1976 to provide park maintenance services within approximately 122 square miles in the unincorporated north county communities of Fallbrook and Rainbow.

CSA No. 81 is a county-dependent district. The Board of Supervisors serves as the governing body for the District and a seven-member appointed Advisory Committee provides community input to the Supervisors. Park maintenance is provided by the County Department of Parks and Recreation under contract to the CSA.

The District assessed a property tax rate before Prop. 13 was enacted and continues to rely on an increment of the one-percent property tax revenue to fund park maintenance services. CSA No. 81 is also eligible to receive funds for capital expenses from the Parkland Dedication Ordinance Fee impound account.

LAFCO approved a sphere-of-influence for CSA No. 81 in 1987 that is coterminous with the district boundary.

**District Characteristics**

- **Principal Act:** Government Code § 25210 et seq.
- **Service:** Park maintenance
- **Population:** 48,694 (2010 SANDAG)
- **District Area:** 121.8 square miles
- **Sphere of Influence:** Coterminous with District
- **Sphere Adopted:** December 9, 1987
- **Sphere Affirmed:** August 6, 2007

DISTRICT BACKGROUND

County Service Area (CSA) No. 83 (San Dieguito Local Parks) provides park maintenance services in unincorporated communities east of the Cities of Encinitas and Solana Beach. CSA No. 83 was formed in 1976 to provide park maintenance services within approximately 86 square miles in the unincorporated north-coastal region of the County. Significant territory was detached from the District in 1985, when the Cities of Encinitas and Solana Beach incorporated and assumed responsibility for park services with their jurisdictions.

The county-dependent CSA is governed by the Board of Supervisors. An appointed seven-member Advisory Committee provides community input to the Supervisors. Park maintenance is provided by the County Department of Parks and Recreation under contract to the CSA.

The District assessed a property tax rate before Prop. 13 was enacted in 1984 and continues to receive an increment of the one-percent property tax revenue to fund park maintenance services. CSA No. 83 is also eligible to receive funds for capital expenses from the Parkland Dedication Ordinance Fee impound account.

LAFCO approved a partial sphere-of-influence for CSA No. 83 in 1985. The sphere was amended in 1986 and is currently coterminous with the district boundary.

**CSA No. 107**
*Elfin Forest/Harmony Grove*

**DISTRICT BACKGROUND**

County Service Area (CSA) No. 107 (Elfin Forest/Harmony Grove) provides structural fire protection and advanced life support-level (ALS) emergency medical services (EMS) within the unincorporated north county community of Elfin Forest/Harmony Grove.

CSA No. 107 was formed in 1982 to support the Elfin Forest/Harmony Grove Volunteer Fire Protection Department, which had provided services to the community since 1972. When the District was established, local volunteers organized into a nonprofit 501(c)(3) corporation and contracted with the County as the emergency service provider within the CSA. The nonprofit fire company is staffed with community volunteers.

The county-dependent CSA is governed by the Board of Supervisors; a seven-member elected Community Advisory Board oversees all activities associated with providing emergency services. As a post-Proposition 13 agency, CSA No. 107 is not entitled to a share of property tax revenue; nonetheless, Supervisors voluntarily transferred an increment of county property tax revenue to the District. District voters subsequently approved special assessments to fund approximately 90 percent of district operating costs.

CSA No. 107 is largely within the sphere-of-influence for the Rancho Santa Fe Fire Protection District (FPD); only a small, discontinuous portion of the CSA, which is located west of the District’s primary response area, is not within the Rancho Santa Fe FPD sphere.

**DISTRICT CHARACTERISTICS**

- **Principal Act:** Government Code § 25210 et seq.
- **Services:** Structural fire protection, Advanced life support EMS
- **Population:** 927 ([2010 SANDAG])
- **ISO Rating:** 4 and 9 by area
- **Fire Station:** 20223 Elfin Forest Road
- **Dispatch:** North County JPA
- **District Area:** 9.69 square miles
- **Ambulance Transport:** CSA No. 17 (partial coverage)
- **Sphere of Influence:** Transitional
- **Sphere Adopted:** February 6, 1984
- **Sphere Affirmed:** May 7, 2007
- **Sphere Reaffirmed:** August 6, 2007

LAFCO approved a transitional sphere-of-influence for CSA No. 107 in 1984 to reflect the District’s inclusion in the Rancho Santa Fe FPD sphere.
DISTRICT BACKGROUND

County Service Area (CSA) No. 109 (Mt. Laguna) provides structural fire protection, basic life support-level (BLS) emergency medical service (EMS), and rescue services within an unincorporated mountainous region of eastern San Diego County. The CSA is predominately within the Cleveland National Forest; there are few permanent residents in the District and approximately 98 percent of district services are provided to seasonal residents, recreational visitors, and transient users of State Highway 1.

The District was formed in 1983 to provide a governance structure and access to public funding for the Mt. Laguna Volunteer Fire and Rescue Department. Volunteers organized as a nonprofit 501 (c)(3) corporation and contracted with the CSA as emergency service provider. The Volunteer Fire and Rescue Department is staffed by community volunteers and out-of-area reserves.

The county-dependent CSA is governed by the Board of Supervisors; the Special Districts Section of the County Department of Public Works performs county oversight responsibilities. An elected five-member Advisory Board oversees all activities associated with providing emergency services.

As a post-Proposition 13 agency, CSA No. 109 was not entitled to a share of property tax revenue; nonetheless, the Board of Supervisors voluntarily transferred an increment of county property tax revenue to the new agency. District voters subsequently approved special assessments to fund increased levels of service; assessments fund approximately 50 percent of district operating costs.

LAFCO approved a sphere-of-influence for CSA No. 109 in 1984 that is coterminous with the district boundary.
**DISTRICT BACKGROUND**

County Service Area (CSA) No. 110 (Palomar Mountain) provides structural fire protection and basic life support-level (BLS) emergency medical services (EMS) within approximately 35 square miles of the Cleveland National Forest including the community on Palomar Mountain.

CSA No. 110 was formed in 1983 to provide a governance structure and access to public funding for the Palomar Volunteer Fire Department. Community volunteers who responded to local emergencies, including responses to the California Institute of Technology’s Palomar Observatory, organized into a nonprofit 501 (c)(3) corporation and contracted with the County as the emergency service provider.

As a post-Proposition 13 agency, CSA No. 110 was not entitled to a share of property tax revenue; nonetheless, the Board of Supervisors voluntarily transferred an increment of county property tax revenue to the new agency. District voters subsequently approved special assessments to fund increased levels of service; assessments fund approximately 75 percent of district operating costs.

The governing body of the county-dependent district is the Board of Supervisors; the Special Districts Section of the County Department of Public Works performs county oversight responsibilities. An elected five-member Advisory Board oversees all activities associated with providing emergency services.

LAFCO approved a sphere-of-influence for CSA No. 110 in 1983 that is coterminous with the district boundary.

**DISTRICT CHARACTERISTICS**

DISTRICT BACKGROUND

County Service Area (CSA) No. 111 (Boulevard) provides structural fire protection and basic life support-level (BLS) emergency medical services (EMS) within the unincorporated east county community of Boulevard. CSA No. 111 was formed in 1983 to provide governance structure and access to public funding for the Boulevard Volunteer Fire and Rescue Department.

The county-dependent CSA is governed by the Board of Supervisors; the Special Districts Section of the County Department of Public Works performs county oversight responsibilities. An elected five-member Advisory Board oversees all activities associated with providing emergency services.

In 2008, the Boulevard Volunteer Fire and Rescue Department, which had been the contract emergency service provider within the district’s approximate 78 square mile service area, was reorganized under the San Diego County Fire Enhancement Program. The CSA operation was positioned within a CAL FIRE Battalion and is managed by a CAL FIRE Officer.

As a post-Proposition agency, CSA No. 111 was not entitled to a share of property tax revenue; nonetheless, the Board of Supervisors voluntarily transferred an increment of county property tax revenue to the new agency. The County Fire Enhancement Program subsidizes CAL FIRE presence in the District.

LAFCO approved a transitional sphere-of-influence for CSA No. 111 in 2007 to acknowledges a county plan to integrate the District into the fire service area of CSA No 135.
**CSA No. 112 Campo**

**DISTRICT BACKGROUND**

County Service Area (CSA) No. 112 (Campo) provides structural fire protection and basic life support-level (BLS) emergency medical services (EMS) within the unincorporated east county community of Campo.

CSA No. 112 was formed in 1983 to provide governance structure and access to public funding for the Campo Volunteer Fire and Rescue Department. The county-dependent CSA is governed by the Board of Supervisors; the Special Districts Section of the County Department of Public Works performs county oversight responsibilities. An appointed five-member Advisory Board oversees all activities associated with providing emergency services.

In 2008, the Campo Volunteer Fire and Rescue Department, which had been the contract emergency service provider within the district’s approximate 50 square mile service area, was reorganized under the San Diego County Fire Enhancement Program. The CSA volunteer operation was positioned within a CAL FIRE Battalion and is managed by a CAL FIRE Officer.

As a post-Proposition 13 agency, CSA No. 112 was not entitled to a share of property tax revenue; nonetheless, the Board of Supervisors voluntarily transferred an increment of county property tax revenue to the new agency. The County Fire Enhancement Program subsidizes CAL FIRE presence in the District.

LAFCO approved a transitional sphere-of-influence for CSA No. 112 in 2007. The transitional sphere acknowledges a county plan to integrate the District into the fire service area of CSA No 135.

DISTRICT BACKGROUND

County Service Area (CSA) No. 113 (San Pasqual) provides structural fire protection and basic life support-level (BLS) emergency medical services (EMS) within the unincorporated north county community of San Pasqual Valley. The District is bisected by City of San Diego territory.

CSA No. 113 was formed in 1983 to provide public governance structure and access to public funds for the San Pasqual Volunteer Fire Department. The volunteer operation was organized in the early 1970s by staff from a private boarding academy at the east end of San Pasqual Valley; over time, volunteer responsibilities expanded to include the surrounding community.

The county-dependent CSA is governed by the Board of Supervisors; the Special Districts Section of the County Department of Public Works performs county oversight responsibilities. An appointed-six-member Advisory Board oversees all activities associated with providing emergency services.

As a post-Proposition 13 agency, CSA No. 113 was not entitled to a share of property tax revenue; nonetheless, the Board of Supervisors voluntarily transferred an increment of county property tax revenue to the new agency. District voters subsequently approved special assessments to fund increased levels of service; assessments fund approximately 70 percent of district operating costs. The District also receives funds from the County Fire Enhancement Program.

LAFCO approved a sphere-of-influence for CSA No. 113 in 1983 that is coterminous with the district boundary.

**CSA No. 115**
**Pepper Drive**

**District Background**

County Service Area (CSA) No. 115 (Pepper Drive) is responsible for structural fire protection and emergency medical services (EMS) within approximately 0.7 square mile of unincorporated territory that is adjacent to the City of Santee. The area is generally developed with single-family residences.

CSA No. 115 was formed as a component of the 1985 reorganization, which merged the Santee Fire Protection District (FPD) with the City of Santee. The Santee FPD was a subsidiary district of the City and governed by the Santee City Council; however, approximately 0.6 square mile of FPD territory, which contained the Pepper Drive area, was outside the City boundary.

A proposed merger of the Santee FPD with the City of Santee required that all district territory be within the City boundary; accordingly, the unincorporated area of the district was detached from the FPD and formed into county-dependent CSA No. 115.

The CSA provides a governance structure that is able to contract with the City of Santee for fire protection and advanced life support level EMS services. An increment of the one percent property tax, which the CSA collects, funds the City contract. Ambulance transport services are provided by CSA No. 69 (Heartland Paramedic).

CSA No. 115 occupies unincorporated territory between the City of El Cajon and the City of Santee. The special study area sphere-of-influence designation for the City of El Cajon includes CSA No. 115.

**District Characteristics**

- **Principal Act:** Government Code § 25210 et seq.

LAFCO approved a transitional sphere-of-influence for the District in 1984 based on the district’s proximity to potential successor agencies.
DISTRICT BACKGROUND

County Service Area (CSA) No. 122 (Otay Mesa East) provides a county-dependent structure to fund planning activities for approximately eight square miles of unincorporated territory adjacent to the U.S./Mexico International Border in the East Otay Mesa area.

The County of San Diego adopted the Otay Mesa East Public Facilities Financing Plan in 1986. The Plan examines infrastructure needs and outlines strategies to provide public services for future development.

CSA No. 122 was established in 1987 so that planning costs would be distributed across all benefiting property owners. The District includes all properties that are expected to benefit from coordinated planning of the area’s infrastructure. Property owners were assessed a proportionate one-time fee to fund planning activities. When planning studies are complete and the fund is depleted, the CSA will be dissolved.

San Diego LAFCO approved a transitional sphere-of-influence for CSA No. 122 in 1987 to acknowledge the District’s planned dissolution.

DISTRICT CHARACTERISTICS

Principal Act: Government Code § 25210 et seq
Services: Infrastructure planning

**CSA No. 128**  
**San Miguel**

**DISTRICT BACKGROUND**

County Service Area (CSA) No. 128 (San Miguel) provides school-based recreation programs and maintains local parks within the unincorporated east county Spring Valley Community Plan area.

In 1991, Spring Valley voters submitted a qualifying petition to LAFCO, which sought to reorganize the county-dependent Spring Valley Recreation and Park District (SVRPD) into a significantly larger District. The SVRPD had been formed in 1963 to maintain a community center in Spring Valley and to provide youth recreation programs at local public schools through agreements with local school districts.

Proponents of an expanded district selected a CSA as the form of governance because State Law allowed CSAs to impose benefit fees on properties within the district boundary to fund expanded recreational programs. The proposed CSA boundary was modified by LAFCO to strengthen the nexus between assessed properties and users of the school-based programs. The reorganization, which dissolved the SVRPD and formed CSA No. 128 as successor agency, was approved in 1991. Program users, who reside outside the district boundary and are not assessed benefit fees, are charged non-residency program fees.

The larger district boundary enclosed several local parks. Park maintenance—previously a county responsibility—was shifted to the CSA. The County transferred an increment of county property tax revenue to the CSA to fund maintenance costs and the District contracts with the County Department of Parks and Recreation to provide maintenance services. A seven-member appointed CSA Advisory Board provides community input and recommendations to the Parks and Recreation Director.

LAFCO approved a sphere-of-influence for CSA No. 128 in 1991 that is coterminous with the district boundary.

**DISTRICT CHARACTERISTICS**

- **Principal Act:** Government Code § 25210 et seq.
- **Services:** School-based recreational programs, Local parks maintenance
- **District Area:** 9.85 square miles

* San Diego Regional Communications System

CSA No. 135 was formed in 1994 to support an 800 MHz communications system for public safety personnel in San Diego County. The Regional Communications System (RCS) interfaces with a similar system in Imperial County. The CSA boundary includes unincorporated San Diego County and 10 cities; additional cities and organizations contract for RCS services. Fiscal and operational oversight has been delegated to a member-agency Advisory Board. The RCS is staffed by the Sheriff’s Department.

** Fire Protection and EMS services

The San Diego County Regional Fire Authority (SDCFA) was established by county ordinance in July 2008 to cover approximately 1.5 million acres in unincorporated San Diego County. In October 2008, CSA No. 135 was authorized to provide fire protection services as a latent power within a restricted area of the CSA that represented approximately 60 percent of the SDCFA. Activation of latent powers fulfilled Step I of a three-part county plan to extend fire protection services throughout the SDCFA. Proposals to expand the latent powers area and authorize fire protection service within the remaining 40 percent of the SDCFA are to be initiated by the County in 2011 and 2012. Services in the latent powers area are provided through contracts with CALFIRE and volunteer fire companies and funded through the County Fire Enhancement Program.

LAFCO approved a sphere-of-influence for the latent powers area in 2008 that is coterminal with the restricted fire protection service area.
**CSA No. 136**

**Sundance Detention Basin**

**District Background**

County Service Area No. 136 (Sundance Detention Basin) provides a mechanism to fund maintenance services for a flood control detention basin in the unincorporated east county community of Lakeside.

The flood control basin was constructed as a condition of approval for a 171-residential development on approximately 100 acres. A flood control basin was required because the development creates large areas of impervious surfaces, which inhibit rainwater infiltration and increase surface water run-off. Downstream flooding is reduced because the basin diverts surface water run-off.

CSA No. 136 was formed in 1987 to fund on-going maintenance of the basin. Annual assessments are levied equally between the 171 parcels within the CSA boundary.

LAFCO approved a sphere-of-influence for CSA No. 136 in 1996 that is coterminous with the district boundary.

**District Characteristics**

- **Principal Act:** Government Code § 25210 et seq
- **Service:** Flood control detention basin
- **District Area:** 101.66 acres
- **Population:** 575 ([2010 SANDAG](http://sdlafco.org/Webpages/agency_links.htm))
- **Sphere of Influence:** Coterminous with District
- **Sphere Adopted:** November 7, 1996
- **Sphere Affirmed:** August 6, 2007

**District Background**

The Cuyamaca (California) Water District (WD) provides potable water service in an unincorporated area southeast of the community of Julian and adjacent to Lake Cuyamaca.

The Cuyamaca WD was formed in 1982 to assume ownership of a private water utility. The District maintains four wells and two potable reservoir tanks and distributes local groundwater to approximately 300 permanent and seasonal residents.

LAFCO approved a sphere-of-influence for the Cuyamaca Water District in 1984 that is coterminal with the district boundary.
DISTRICT BACKGROUND

The Deer Springs Fire Protection District (FPD) provides structural fire protection and advanced life support-level (ALS) emergency medical services (EMS) within approximately 44 square miles in unincorporated north county. The District is located generally north of the City of Escondido and northeast of the City of San Marcos.

The Deer Springs FPD was formed in 1981 to provide a volunteer fire protection operation with public governance and access to public funding. As a post-Proposition 13 agency, the Deer Springs FPD was not entitled to a share of property tax revenue; nonetheless, the Board of Supervisors voluntarily transferred an increment of county property tax revenue to the new agency. District voters subsequently approved special assessments to fund increased levels of service and assessments funded approximately 90 percent of district operations.

Deer Spring FPD stations were staffed by a combination of career and volunteer personnel until the late 1990s when the district implemented a Schedule A contract with CAL FIRE. The FPD operation is currently staffed by CAL FIRE personnel. District residents receive additional service from CAL FIRE through an Amador Contract that extends the service season for the CAL FIRE Station on West Lilac Road. CAL FIRE services in Deer Springs FPD are subsidized with County Fire Enhancement Program funds.

LAFCO approved a sphere-of-influence for the Deer Springs FPD in 1983 that is smaller than the district boundary. The smaller than district sphere acknowledges that some district territory is contained in the spheres for the City of San Marcos and City of Escondido.

DISTRICT BACKGROUND

The Descanso Community Services District (CSD), which does business as the Descanso Community Water District (WD), distributes potable water from local groundwater wells within approximately 0.66 square mile in the unincorporated east county community of Descanso.

The District was formed in 1982 to provide governance and to provide a source of public funding to purchase and operate the private Descanso Park Water Company system. Acquisition of the Water Company was finalized in 1985. The water system includes 315 metered connections, three wells, and approximately 105,400 feet of distribution lines.

In 2000, the District began contracting with the Cal-American Water Company to manage and operate the District services.

LAFCO approved a sphere of influence for the Descanso Community Water District in 1984 that is coterminous with the district boundary.

FAIRBANKS RANCH
COMMUNITY SERVICES DISTRICT

DISTRICT BACKGROUND

The Fairbanks Ranch Community Services District (CSD) provides wastewater treatment, street light maintenance, and roadside landscape maintenance services within the unincorporated community of Fairbanks Ranch.

The CSD was formed in 1987 as part of a reorganization that: (1) dissolved the Whispering Palms Sanitation District; (2) dissolved County Service Area No. 1 (Whispering Palms), which provided landscape and street lighting services; and (3) formed the Fairbanks Ranch CSD to assume responsibility for providing the services of both former districts. The Fairbanks Ranch Water Pollution Control Facility (WPCF) has a capacity of 0.28 million gallons per day; treated water is discharged into percolation ponds.

The CSD includes approximately 1,200 acres. It is projected that the area will include 618 residential and 55 commercial lots at build-out. The Fairbanks Ranch CSD is governed by an elected five-member board of directors. District operations are managed by the engineering firm of Dudek & Associates, Inc.

LAFCO approved a sphere-of-influence for the Fairbanks Ranch Community Services District in 1987 that is coterminous with the district boundary.

DISTRICT BACKGROUND

The Fallbrook Health Care District provides hospital and skilled nursing facility-based services to approximately 56,000 residents in the unincorporated north county communities of Fallbrook, Rainbow, De Luz, and Bonsall.

The Health Care District was established in 1950 as a 10-bed Community Hospital District. After Health and Safety Codes were amended in 1998 to change the Local Hospital District Law (Health and Safety Code § 32000 et seq.) to the Local Health Care District Law, the Fallbrook Hospital District transitioned into a Health Care District.

In 1998, the District also entered into a 30-year agreement with the for-profit Community Health Systems to lease the district’s healthcare operation. The District’s elected five-member Board of Directors is responsible for hospital maintenance and for compliance with licensing and regulation requirements.

LAFCO approved a sphere-of-influence for the Fallbrook Health Care District in 1986 that is coterminous with the district boundary.
DISTRICT BACKGROUND

The Fallbrook Public Utility District (PUD) provides water and wastewater services within the unincorporated north county communities of Fallbrook and De Luz.

The Fallbrook PUD was formed in 1922 to provide residential and agricultural customers with water from the Santa Marguerite and San Luis Rey River Basins. The PUD was a charter member of the San Diego County Water Authority (SDCWA) and entitled to Colorado River water when it arrived in San Diego County in 1948; approximately 97 percent of the PUD water supply is imported.

The Fallbrook PUD was included in 1981 and 1987 reorganizations that proposed to incorporate the community of Fallbrook and establish the PUD as a subsidiary agency of the new city. Both proposals were rejected by voters.

The District expanded significantly in 1990 when the DeLuz Heights Municipal Water District was dissolved and the 12,000-acre service area was annexed to the Fallbrook PUD. In 1994, voters approved dissolution of the 4,500-acre Fallbrook Sanitary District (SD), which was located entirely within the Fallbrook PUD. The PUD was authorized to provide wastewater services as a latent power and became successor to the SD.

Wastewater service within the PUD is restricted to territory of the former SD. The District produces Title 22 reclaimed water. The District retains 2.4 million gallons per day (mgd) capacity in the Oceanside ocean outfall.

City of San Diego; and unincorporated communities of Alpine, Blossom Valley, Bostonia, Campo, Crest, Descanso, Dulzura, Eucalyptus Hills, Jamul, Lakeside, Moreno, Pine Valley, Potrero, and Spring Valley. The District covers approximately 760 square miles and has a population of almost 500,000.

The Grossmont HCD was formed in 1952 as a Community Hospital District. In 1994, when Health and Safety Codes were amended to change Local Hospital District Law (Health and Safety Code § 32000 et seq.) to Local Health Care District Law, the District transitioned from a Hospital District to a Health Care District.

In 1991, the District’s major asset, the Grossmont Hospital located in the City of La Mesa, was leased to the non-profit Sharp Hospital Corporation (doing business as the Grossmont Hospital Corporation).

The District is governed by an elected five-member Board of Directors. Directors establish policy and administer programs funded by property tax revenue; the non-profit corporation operates the hospital on a fee for service basis.

LAFCO approved a sphere-of-influence for the Grossmont Health Care District in 1986 that is coterminous with the district boundary.
**Helix (Irrigation) Water District**

**District Background**

The Helix (Irrigation) Water District (WD) provides potable water and water facility-related park and recreation services within the Cities of El Cajon, La Mesa, and Lemon Grove; and the unincorporated community of Spring Valley and surrounding unincorporated areas.

The District was established in 1913 as the La Mesa, Lemon Grove, and Spring Valley Irrigation District (ID). In 1926, the ID purchased the Cuyamaca Water Company and acquired an operating water system of wells, flumes, dams, and reservoirs. In 1954, the ID absorbed the El Cajon Valley Irrigation District and in 1956 began doing business as the Helix Water District. In 1980, the Crest Public Utility District (PUD) was dissolved and responsibility for providing water service within the boundary of the former PUD was transferred to the Helix WD.

Territory within the Helix WD is highly urbanized; 98 percent of district customers are residential or industrial users. The District was a founding member of the San Diego County Water Authority (SDCWA) and more than 80 percent of the district water supply is imported through the SDCWA. The Helix WD has an agreement with SDCWA, Padre Dam Municipal Water District, Otay Water District, and Lakeside Water District to reduce demand on SDCWA facilities by providing regional water treatment at the Helix WD R. M. Levy Water Treatment Plant.

The Helix WD owns Lake Jennings and Lake Cuyamaca. The District administers extensive recreational facilities at Lake Jennings. Lake Cuyamaca was developed as a storage reservoir for the Helix WD and recreational facilities associated with the Lake are operated by the Lake Cuyamaca Recreation and Park District under a lease agreement.

The Helix WD cooperates with the County of San Diego, Grossmont Union High School District, and the Cities of La Mesa and El Cajon in the Harry Griffen Park Joint Powers Agency (JPA). The WD’s 30-million gallon Grossmont Reservoir lies beneath the 50-acre park site; the WD maintains the reservoir and the JPA maintains all park infrastructure.

LAFCO approved a sphere-of-influence for the Helix WD in 1983 that is generally coterminous with the district boundary.
District Background

The Jacumba Community Services District (CSD) provides potable water and park and recreation services within the unincorporated east-county community of Jacumba. The Jacumba CSD was formed in 1985 to assume ownership of a private water company. The CSD was also authorized to provide park and recreation services within the district’s approximate 423-acre boundary.

The CSD pumps local groundwater from two district-owned wells for distribution to 230 residential connections. The water system includes two treated-water reservoirs with an aggregate capacity of 638,000 gallons.

The Jacumba CSD does not receive property tax revenue. Operating costs for water services are funded entirely by water fees. Park and recreation services are provided by community volunteers and funded by donations and volunteer fundraising efforts.

LAFCO approved a sphere-of-influence for the Jacumba CSD in 1985 that is coterminous with the district boundary.

JULIAN COMMUNITY SERVICES DISTRICT

DISTRICT BACKGROUND

The Julian Community Services District (CSD) provides potable water service within the unincorporated east county community of Julian. Local groundwater from district wells is distributed to the Julian business district and adjacent residential areas.

The Julian CSD was formed in 1965 to provide public governance and to create a public funding source to purchase and operate the privately-owned Julian Mutual Water Company.

The mutual water company, which had operated a water system in Julian since 1948, was unable to provide an adequate water supply for the community. The State Board of Corporations had revoked the company’s permit to issue additional stock, which obstructed the company’s ability to raise funds to construct additional facilities. Formation of a CSD was proposed because a public entity would have access to State and Federal loans and grants.

Administrators for the CSD developed new wells and water filtration and storage facilities; however, the system continued to be troubled. In the late 1980s, benzene was detected in the water supply. Underground fuel storage tanks, believed to be the source of contamination, were removed; nevertheless, pollution continued to present issues for the District.

In the early 1990s, the District was able to secure State Bond loans to fund needed improvements. Because property tax revenue has not been adequate to cover bond repayment and revenue from water sales cannot be used to discharge the debt, the District sells EDUs to generate revenue for loan repayment. The Julian CSD boundary was expanded in 2001 to include territory containing district wells.

DISTRICT CHARACTERISTICS

Principal Act: Government Code § 61000 et seq.
Service: Water
Facilities: 6 wells; 2 potable water reservoirs
Connections: 188 residential, commercial, or public
District Area: 287.3 acres
Population: 279 (2009 SANDAG)

LAFCO approved a sphere-of-influence for the Julian CSD in 1988 that is coterminal with the district boundary.
DISTRICT BACKGROUND

The Julian-Cuyamaca Fire Protection District (FPD) provides structural fire protection and advanced life support-level (ALS) emergency medical services (EMS) within the unincorporated east-county communities of Julian and Lake Cuyamaca.

The Julian-Cuyamaca FPD was formed in 1983 when a county program, which supported volunteer fire protection companies, was replaced with a county policy that conveyed a share of property tax revenue to volunteer operations that evolved into public fire protection agencies.

The Julian-Cuyamaca FPD provided a governance structure for two separate volunteer fire operations that had operated in the Julian and the Lake Cuyamaca area since 1975. As a post-Proposition 13 agency, the new FPD was not entitled to a share of property tax revenue; nonetheless, the Board of Supervisors voluntarily transferred an increment of county property tax revenue to the new agency.

District voters subsequently approved special assessments to fund increased levels of service; assessments fund approximately 50 percent of district operating costs. The County Fire Enhancement Program also contributes revenue to the FPD.

The County Office of Emergency Services contracts with the District to provide ALS ambulance transport services as an Exclusive Operating Area (EOA) provider.

LAFCO approved a sphere-of-influence for the Julian-Cuyamaca FPD in 1983 that is larger than the district boundary.
LAKE CUYAMACA
RECREATION AND PARK DISTRICT

DISTRICT BACKGROUND

The Lake Cuyamaca Recreation and Park District provides recreational services associated with Lake Cuyamaca. The District includes more than 12 square miles located south of the unincorporated community of Julian and substantially surrounds Lake Cuyamaca.

Lake Cuyamaca is owned by the Helix Water District and operated as a water storage reservoir. In the late 1950’s, owners of property surrounding Lake Cuyamaca were concerned about declining levels of lake water and proposed formation of a Recreation and Park District to protect the Lake’s recreational assets. Special Legislation—which empowered landowners to join registered voters as district electors—authorized formation of the Lake Cuyamaca Recreation and Park District in July 1961. Formation of the District was approved by district voters on November 13, 1961.

The Lake Cuyamaca Recreation and Park District Act (Chapter 1654 of Statutes of 1961) established a five-member District Board of Directors appointed by the Board of Supervisors. The Act was amended in 1978 to increase board membership to seven.

The District is authorized to oversee water recharge activities that preserve recreational areas and to develop the Lake’s recreational potential. Recreational facilities associated with Lake Cuyamaca are operated by the Recreation and Park District under a lease agreement with the Helix Water District. The Park and Recreation District annually stocks the lake with trout, maintains campground and boating facilities, and leases restaurant facilities to a private concessionaire. District activities are funded with user fees and lease revenue.

LAFCO approved a sphere-of-influence for the Lake Cuyamaca Recreation and Park District in 2007 that is coterminous with the district boundary.
DISTRICT BACKGROUND

The Lakeside Fire Protection District (FPD) provides structural fire protection and advanced life support-level (ALS) emergency medical services (EMS) within the unincorporated east-county community of Lakeside. The FPD covers approximately 45 square miles northeast of the cities of Santee and El Cajon and contains significant wildland interface.

The District was formed in 1963 and levied a property tax increment prior to Prop. 13 tax limitations. Property tax revenue provides approximately 80 percent of district operating funds; voter-approved assessments contribute another 16 percent.

Lakeside FPD is a member of the Heartland Communications Authority JPA for dispatch services and a founding member of the Regional Cooperative Care Partnership (RCCP), a consortium of emergency service agencies, which provides administrative oversight for ALS services and paramedic ambulance transport.

Ambulance transport services within the Lakeside FPD are authorized and funded by County Service Area (CSA) No. 69 (Heartland Paramedic). The Lakeside FPD and the City of Santee are contract providers for the transport services within the CSA.

LAFCO approved a sphere-of-influence for the Lakeside FPD in 1983 that includes a net area that is larger than the district boundary.

DISTRICT CHARACTERISTICS

**Lakeside (Irrigation) Water District**

**District Background**

The Lakeside (Irrigation) Water District (WD) provides water service within approximately 10 square miles of east county, including the unincorporated communities of Lakeside, Eucalyptus Hills, Moreno Valley, Muth Valley, and Wintergardens.

The District was formed as the Lakeside Irrigation District (ID) in 1924. As a founding member of the San Diego County Water Authority (SDCWA), the District was entitled to imported SDCWA water when it arrived in San Diego county in 1948.

In 1955, the ID relinquished its SDCWA membership to the Rio San Diego Municipal Water District (MWD) and the MWD became a wholesale supplier of imported water for the Lakeside ID and the Riverview and Santee County Water Districts (CWD).\(^1\)

In 2006, a component of the Upper San Diego River Reorganization dissolved the Riverview CWD; transferred Riverview CWD responsibility to the Lakeside WD; and detached Lakeside WD territory from its water wholesaler—the Padre Dam MWD (formerly Rio San Diego MWD). Coming full circle, Lakeside WD rejoined SDCWA and currently receives imported water directly from SDCWA.

The Lakeside WD receives an allocation of property tax revenue; however, the district’s principal source of revenue is user fees.

**District Characteristics**

- **Principal Act:** Water Code § 20500 et seq.
- **Service:** Water service
- **Service Connections:** 4,700 meters
- **Population:** 32,867 (2009 SANDAG)
- **District Area:** 9.85 sq. miles
- **Sphere of Influence:** Larger than District
- **Sphere Adopted:** December 2, 1985

LAFCO approved a sphere-of-influence for the Lakeside WD in 1985 that is larger than the district boundary.

---

\(^1\) Rio San Diego MWD and Santee County WD were reorganized in 1976 and emerged as the Padre Dam MWD.
**DISTRICT BACKGROUND**

The Lemon Grove (County) Sanitation District (SD) provides wastewater collection services within the City of Lemon Grove; only a very limited amount of city territory is not within the District.

The reorganization did not convert the Lemon Grove SD into a subsidiary agency of the City; nevertheless, the Lemon Grove City Council was designated the District Board of Directors under provisions in County Sanitation District law, which permits County Supervisors to designate a city council as a district board of directors if city population accounts for more than one-half of the total district population.

Wastewater flow generated within the SD is transported to the San Diego METRO Wastewater JPA facilities at Pt. Loma for treatment and disposal through the ocean outfall. Transferring oversight to the City Council without establishing the SD as a city subsidiary allowed the METRO rates that were considered favorable at the time to be retained. The County relinquished all SD operational responsibility to the City of Lemon Grove in 1989.

Lemon Grove SD services extend beyond the district boundary and outside the City of Lemon Grove. District services have been provided to residential properties within the adjoining City of San Diego since 1947; contracts for wastewater service within the City of La Mesa were initiated in 1983 and again in 2004.

LAFCO approved a sphere-of-influence for the SD in 1987 that was larger than the district boundary. The district sphere was amended to a transitional sphere in 2005 to facilitate a City and District reorganization.

LEUCADIA
(COUNTY WATER) WASTEWATER DISTRICT

DISTRICT BACKGROUND

The Leucadia (County Water) Wastewater District (WWD) provides wastewater services within a 15-square mile area that includes the northern portion of the City of Encinitas and the south easterly portion of the City of Carlsbad.

The District was formed in 1959 as a County Water District and originally included the unincorporated community of Leucadia and surrounding unincorporated areas.

The community of Leucadia was included in the 1986 incorporation of the City of Encinitas. Over time, all district territory has annexed to either the City of Encinitas or the City of Carlsbad.

Leucadia WWD joined the Encina Joint Powers Authority in 1971 and is a co-owner of the Encina Water Pollution Control Facility (EWPCF) located in the city of Carlsbad. Approximately 20 percent of EWPCF capacity is controlled by the Leucadia WWD. Treated secondary effluent from the EWPCF is transported back to the Leucadia WWD water filtration facility for further processing and then sold for landscape irrigation use.

In 2003, the Leucadia County Water District was renamed the Leucadia Wastewater District.

DISTRICT CHARACTERISTICS

| Principal Act: | Water Code § 30000 et seq. |
| Service: | Wastewater |
| Treatment Capacity: | 7.1 mgd in EWPCF |
| Population: | 59,734 (2009 SANDAG) |

LAFCO approved a sphere-of-influence for the Leucadia WWD in 1984 that is larger than the district boundary.
**District Background**

The Lower Sweetwater Fire Protection District (FPD) is responsible for structural fire protection and emergency medical services (EMS) within the unincorporated south county community of Lincoln Acres. The Lower Sweetwater FPD was formed in 1944 to provide emergency services in unincorporated territory between the Cities of San Diego, National City, and Chula Vista. As unincorporated parcels annexed to the surrounding cities and concurrently detached from the Lower Sweetwater FPD, district territory diminished. In 1982, with only 298 acres of service territory remaining, the District began contracting with the City of National City Fire Department to provide service within the FPD; the contract between the District and the City has run uninterrupted since inception.

LAFCO approved a transitional sphere of influence for the Lower Sweetwater FPD in 1985. In a related action, the FPD service area was placed within the sphere of influence for the City of National City. The district and city spheres reflect the position that the City would be the most efficient service provider for the Lincoln Acres area.

District voters defeated a ballot measure in 2002 that proposed dissolution of the Lower Sweetwater FPD and concurrent formation of a County Service Area (CSA) to assume the FPD’s service responsibility.

The 298-acre Lincoln Acres area—and the FPD—are surrounded by the Cities of Chula Vista and National City. The FPD contracts with the City of National City to provide fire protection and EMS within the District.
DISTRICT BACKGROUND

The Majestic Pines Community Services District (CSD) provides potable water service to two residential developments near the unincorporated east-county community of Julian. The CSD pumps local groundwater for distribution within the communities of Kentwood-in-the-Pines and Whispering Pines; both communities are primarily developed with seasonal residences.

The Majestic Pines CSD was formed as a component of the 1993 Majestic Pines Reorganization, which dissolved the county-dependent County Service Area (CSA) No. 4 (Majestic Pines) and transferred water system assets and responsibilities to the independent Majestic Pines CSD.

CSA No. 4 had been formed in 1966 to take over a privately-owned water system with failing infrastructure. Placing the water system under public ownership allowed CSA voters to approve bonds to fund system upgrades.

The county-dependent CSA No.4 was administered by the County Department of Public Works and costs to recover county labor and overhead charges were added to the CSA No. 4 water rate structure. The resulting rates in CSA No. 4, while similar to other small, groundwater dependent agencies, represented some of the highest domestic water rates in San Diego County. The desire to reduce overhead costs and lower water rates inspired district voters to propose dissolution of the dependent CSA No. 4 and formation of an independent Majestic Pines CSD.

LAFCO approved a sphere-of-influence for the Majestic Pines CSD in 1993 that is coterminous with the district boundary.

**District Background**

The Mission Resource Conservation District (RCD) provides resource conservation programs within the San Luis Rey and Santa Margarita watershed areas in northwestern San Diego County.

The Mission RCD was established in 1944 to assist local property owners in implementing soil, water, and other natural resource conservation practices. The District works in conjunction with the U.S. Department of Agriculture Natural Resources Conservation Service (NRCS) and coordinates programs, activities, and services with other resource conservation districts and related local, state, and federal agencies.

The District is governed by a five-member Board of Directors. Directors are appointed to four-year terms by the County Board of Supervisors from a list of eligible candidates proposed by the RCD according to Board Policy A-134, *Procedures for Appointment to Resource Conservation District Boards of Directors*.

LAFCO approved a sphere-of-influence for the Mission RCD in 1986 that is coterminous with the district boundary.

**District Characteristics**

- **Principal Act:** Public Resources Code § 9150 et seq.
- **Services:** Water and soil conservation programs
- **Population:** 117,610 (2009 SANDAG)

The RCD includes approximately 185 square miles including the unincorporated communities of Fallbrook, Bonsall, and Rainbow; and the northern portion of the City of Oceanside.
DISTRICT BACKGROUND

The Mootamai Municipal Water District (MWD) was formed in 1962 specifically to protect the water rights of district property owners. The District includes two discontiguous areas within the San Luis Rey River watershed with aggregate territory of approximately one square mile.

Mootamai MWD is empowered to provide public water and structural fire protection services; however, neither service is directly provided by the District. The District does not operate a water system and is not a member of the San Diego County Water Authority (SDCWA). District operations are limited to protecting groundwater and riparian water sources within the District boundary.

The privately-owned Pauma Valley Water Company operates a storage and distribution system for residential and irrigation water users within sections of the Mootamai MWD; other areas within the District rely on private wells.

Structural fire protection and emergency medical services (EMS) within the Mootamai MWD are provided by contract with the California Department of Forestry and Fire Protection (CAL FIRE). Mootamai, Pauma, and Yuima MWDs maintain a Joint Powers Agreement (JPA) to underwrite a CAL FIRE contract for structural fire protection service within all three MWDs. Yuima MWD provides contract administration for the JPA. The responding CAL FIRE operation is based at the CAL FIRE Rincon Station. The County of San Diego, through the County Fire Enhancement Program, subsidizes an upgrade of the services provided by CAL FIRE.

LAFCO approved a sphere-of-influence for the Mootamai MWD in 1984 that is coterminal with the district boundary.
DISTRICT BACKGROUND

The Morro Hills Community Services District (CSD) provides road maintenance services within approximately two square miles of unincorporated territory north of the City of Oceanside. There are 420 parcels within the District.

The CSD was formed in 1961 to build and maintain approximately 6 miles of roadway and associated 60-foot right-of-way. Services are funded by an increment of the one-percent property tax. The District is governed by a five-member Board of Directors; Directors must be registered voters within the CSD service area.

The CSD retains no permanent staff; all construction and maintenance is accomplished by contractors; administrative functions are performed by the Board of Directors.

LAFCO approved a sphere-of-influence for the Morro Hills CSD in 1984 that is coterminous with the district boundary.

DISTRICT BACKGROUND

The North County Cemetery District (CD) maintains two cemeteries and provides internment services for district residents and district property owners and their families.

The District covers approximately 95 square miles in north-central San Diego County including the Cities of Escondido and San Marcos and surrounding unincorporated areas. The North County CD operates Oak Hill Memorial Park in the City of Escondido and the San Marcos Cemetery in the City of San Marcos.

The North County CD emerged from a 1984 consolidation of the Escondido and San Marcos Cemetery Districts. The parent districts were formed in 1930 to establish public structure and provide access to public funding for two privately-owned cemetery operations associations.

The District is governed by a five-member Board of Trustees. Trustees, who must be registered voters living within the District, are appointed to four-year terms of office by the Board of Supervisors under Board Policy A-74, Citizen Participation in County Boards, Commissions, and Committees.

LAFCO approved a sphere-of-influence for the North County Cemetery District in 1986 that is larger than the District boundary.

sdlafco.org
DISTRICT BACKGROUND

The North County Fire Protection District (NCFPD) provides structural fire protection, and advanced life support-level (ALS) emergency medical services (EMS) within the unincorporated north county communities of Fallbrook, Bonsall, and Rainbow. The District includes approximately 86 square miles and incorporates a volunteer operation in the community of Rainbow.

NCFPD emerged from a 1987 reorganization that dissolved the Fallbrook FPD and County Service Area No. 7 (Rainbow) and concurrently formed the NCFPD to assume the service responsibilities of both dissolved agencies.

The dissolved Fallbrook FPD had been formed in 1961 to establish public governance and provide access to public funding for a volunteer fire protection company, which had provided services to the area since 1947. CSA No. 7, which had formed in 1967 to establish public governance for a volunteer operation in Rainbow, had essentially remained a volunteer-based operation.

The County Office of Emergency Services contracts with the NCFPD to provide ALS ambulance transport services as an Exclusive Operating Area (EOA) provider.

LAFCO approved a sphere-of-influence for the North County FPD in 1986 that is larger than the district boundary.
DISTRICT BACKGROUND

The Oceanside Small Craft Harbor District (SCHD) is responsible for public marine facilities and leasehold improvements associated with the north and south basins of Oceanside Harbor and adjacent shoreline within the City of Oceanside.

The Oceanside SCHD was formed in 1960 to provide access to public funding to construct and operate facilities and services related to small marine craft activity. The SCHD boundary is coterminous with the City of Oceanside; however, district operations are confined to approximately 100 acres associated with Oceanside Harbor and leased from the City of Oceanside.

District facilities include permanent and transient moorings, fueling dock, fishing pier, launching ramp, yacht club, and public clubhouse facilities. The SCHD is also responsible for administering leases for the tourist and restaurant facilities, which surround the harbor.

The Oceanside SCHD is dependent to the City of Oceanside; the Oceanside City Council acts as the District Board of Directors. A permanent Harbor and Beaches Advisory Committee advises the Board of Directors. District operations are overseen by city personnel. Slip rental, lifeguard, and club house functions are located within the City Department of Harbor and Beaches. The Harbor Unit of the Oceanside Police Department provides law enforcement, boating rescue, marine fire suppression and salvaging activities within the SCHD.

LAFCO approved a sphere-of-influence for the Oceanside SCHD in 1986 that is larger than the District.
The Olivenhain Municipal Water District (MWD) provides water service, hydroelectric generation, wastewater collection and treatment, reclaimed water, and park and recreation services within portions of the Cities of Carlsbad, Encinitas, San Diego, and Solana Beach; and the unincorporated communities of 4S Ranch, Elfin Forest, Rancho Cielo, and Rancho Santa Fe Valley. Wastewater services are restricted to the 4-S Ranch and Rancho Cielo areas.

The Olivenhain MWD was formed in 1959 to develop an adequate water supply for district residents. The District joined the San Diego County Water Authority (SDCWA) in 1962 and imported SDCWA water provides 97 percent of the district's potable supply. The MWD and SDCWA jointly constructed the 24,000 acre-foot Olivenhain Regional Storage Project.

In 1985, the MWD was authorized to provide park and recreation services as a latent power and the District cooperates with the SDCWA, U.S. Bureau of Land Management, State Department of Forestry, and the California Conservation Corps in a multi-agency project to develop and maintain the 750-acre Elfin Forest Recreational Reserve.

In 1998, the Olivenhain MWD was authorized to provide wastewater services as a latent power. In concurrent actions, the 4S Ranch and Rancho Cielo Sanitation Districts—both located within the boundary of the Olivenhain MWD—were dissolved and the MWD was named successor to provide wastewater service within areas that replicate the boundaries of the former sanitation districts. The MWD sells reclaimed water for irrigation uses in the San Dieguito Valley and La Costa areas.

LAFCO approved a sphere-of-influence for the Olivenhain MWD in 1984 that is larger than the district boundary.
OTAY
(MUNICIPAL) WATER DISTRICT

DISTRICT BACKGROUND
The Otay (Municipal) Water District (WD) provides potable water, wastewater collection and treatment, and reclaimed wastewater services within approximately 125 square miles in southern San Diego County. The District covers portions of the Cities of Chula Vista and San Diego and the unincorporated communities of Spring Valley, Otay Mesa, Jamul-Dulzura, Sweetwater, and East Otay Mesa.

The Otay WD was formed as a Municipal Water District in 1956. Following twenty-five years of operating as the Otay Municipal Water District, the District was renamed the Otay Water District in 1981.

The Otay WD is a member of the San Diego County Water Authority (SDCWA) and imported water purchased from the SDCWA provides the District’s potable water supply.

District wastewater services are available in approximately 6.8 square miles of the unincorporated communities of Rancho San Diego, Hillsdale, and Calavo. The Otay WD is a member of the San Diego METRO Wastewater JPA and most wastewater flow originating within the Otay WD is transmitted to the METRO facility at Pt. Loma for treatment and disposal.

Approximately 1.5 million gallons per day (mgd) of wastewater is treated to Title 22 tertiary levels at two Otay WD wastewater reclamation facilities and distributed to reclaimed water customers in areas defined by the Regional Water Quality Control Board.

LAFCO approved a sphere-of-influence for the Otay WD in 1983. The sphere has been amended several times to facilitate annexations into the District and once to exclude a parcel that would be better served by another agency. The Otay WD sphere is essentially coterminal with the district boundary—except for the excluded parcel, where the Otay sphere was amended to less-than the district boundary.

DISTRICT CHARACTERISTICS

**DISTRICT BACKGROUND**

The Padre Dam Municipal Water District (MWD) provides water, wastewater, reclaimed water, and park and recreation services within the City of Santee, a portion of the City of El Cajon, and the surrounding unincorporated communities of Lakeside, Crest, Harbison Canyon, Blossom Valley, and Alpine.

In 1985, the Crest Public Utility District was dissolved and the District’s service responsibility transferred to the Padre Dam MWD. In 1986, service responsibilities for the dissolved Alpine Highlands Water District was also transferred to the MWD.

The District is a member agency of the San Diego County Water Authority (SDCWA) and imported SDCWA water is the sole source of the MWD’s water supply. Prior to 2006, the District served as wholesale water supplier for the Lakeside and Riverview Water Districts. The 2006 Upper San Diego River Reorganization: (1) dissolved the Riverview WD; (2) transferred service responsibility to the Lakeside WD; and (3) detached Lakeside WD territory from the Padre Dam MWD. Lakeside WD subsequently joined SDCWA and Padre Dam MWD ceased its wholesale activity.

Padre Dam MWD has operated a wastewater collection and treatment system since 1960. The District is a member of the San Diego Metropolitan Wastewater JPA (METRO) and approximately 60 percent of district wastewater is transferred to METRO for treatment at the Pt. Loma facility. The remaining 40 percent is treated to tertiary levels and discharged into the district-owned and developed Santee Lakes. The Santee Lakes recreational area offers camping, fishing, and related recreational activities.

LAFCO approved a sphere-of-influence for the Padre Dam MWD in 1985 that is larger than the district boundary.

The antecedent to the Padre Dam MWD—the Rio San Diego MWD—was formed in 1955. In 1976 the Santee County Water District was dissolved, service responsibility transferred to the Rio San Diego MWD, and Rio San Diego renamed Padre Dam MWD.
Palomar-Pomerado (Health Care District) Health (PPH) provides hospital-based health services within an 843-square mile area in northern San Diego County.

Approximately three-fourths of PPH territory is unincorporated; however, a southwestern portion of the District includes the Cities of Poway and Escondido and covers portions of the Cities of San Diego, San Marcos, and Vista.

Palomar-Pomerado Health was formed in 1948 as the Northern San Diego County Hospital District. The District has variously operated as the Palomar-Pomerado Hospital District; Palomar Health System; and—beginning in 2001—as Palomar-Pomerado Health.

The District transitioned from a Hospital District to a Health Care District in 1994, when Health and Safety Codes were amended to change Local Hospital District Law (Health and Safety Code § 32000 et seq.) to Local Health Care District Law.

The District has two primary facilities: the Palomar Medical Center in the City of Escondido, and the Pomerado Hospital in the City of Poway. In 2004, Palomar-Pomerado Health voters approved a $496 million bond measure to fund construction of a new hospital.

The District is governed by an elected seven-member board of directors. District operations are administered by a 501(c)(3) corporation, the Palomar-Pomerado North County Health Development, Inc. “The primary purpose of the Corporation is to support, perform the functions of, and carry out the charitable, scientific, and educational purposes of Palomar-Pomerado Health, a local California health care district.”

Three seats on the corporation’s five-member Board are held by PPH board members and two seats are held by the corporation’s Chief Executive and Chief Financial Officers. LAFCO approved a sphere of influence for Palomar-Pomerado Health in 1986 that is coterminous with the district boundary.

1 Section 1.03: By-Laws of Palomar Pomerado North County Health Development, Inc.
DISTRICT BACKGROUND

The Pauma Municipal Water District (MWD) manages water rights protection efforts on behalf of district property owners by coordinating legal and engineering activities related to water supply issues.

DISTRICT CHARACTERISTICS

The MWD, which includes eight discontiguous areas in the San Luis Rey River Watershed, was formed in August 1960. The District is empowered to provide public water and structural fire protection services; however, neither service is directly provided by the District. The District does not operate a water system and is not a member of the San Diego County Water Authority (SDCWA). All water within the Pauma MWD is obtained from local groundwater wells.

Structural fire protection and emergency medical services (EMS) within the District are provided by the California Department of Forestry and Fire Protection (CAL FIRE) through a contract for CAL FIRE service. The Pauma, Mootamai, and Yuima MWDs have established a Joint Powers Agreement (JPA), which underwrites a contract for fire protection services within all three MWDs. The Yuima MWD is contract administrator for the JPA.

The CAL FIRE operation that responds to the MWD is based at the CAL FIRE Rincon Station. The County of San Diego, through its Fire Enhancement Program, subsidizes an upgrade of the fire protection services provided to Mootamai/Pauma/Yuima MWDs.

LAFCO approved a sphere of influence for the Pauma MWD in 1984 that is coterminous with the district boundary.
**DISTRICT BACKGROUND**

The Pauma Valley Community Services District (CSD) provides wastewater and security services within the unincorporated north county community of Pauma Valley.

The District, which includes approximately 1,445 acres, provides services to 314 homes, a golf center, school, small commercial area, and limited numbers of agricultural users. Approximately half of the territory within the CSD is undeveloped.

The Pauma Valley CSD was formed in 1961 to collect, treat, and dispose of locally generated wastewater. The District operates a wastewater treatment plant with a capacity of 115,000 gallons per day (gpd). An average flow of 90,000 gpd of treated effluent is percolated through district infiltration ponds.

In 1996, the Pauma Valley CSD was authorized to provide security services as a latent power; activation of the latent power was subsequently confirmed by CSD voters. Security services involve guard and patrol services, alarm system monitoring, and vehicle traffic control. Security services are funded exclusively through monthly service charges.

LAFCO approved a sphere-of-influence for the Pauma Valley CSD in 1986 that is larger than the district boundary.

**DISTRICT CHARACTERISTICS**

- **Principal Act:** Government Code § 61000 et seq.
- **Services:** Wastewater, Security services
- **Facilities:** 115,000 GPD treatment plant
- **District Area:** Approximately 1,445 acres
- **Population:** 1,013 (2009 SANDAG)
- **Sphere of Influence:** Larger than District
- **Sphere Adopted:** June 2, 1986

DISTRICT BACKGROUND

The Pine Valley Fire (Protection District) Department provides structural fire protection services and advanced life support-level (ALS) emergency medical services (EMS) within the unincorporated east county communities of Pine Valley and Guatay.

The Fire Protection District, which operates as the Pine Valley Fire Department, was formed in 1962 to provide an existing volunteer fire protection operation with public governance and access to public funding.

The Fire Department covers approximately 75 square miles including significant amount of National Forest where the U.S. Forest Service is responsible for watershed protection and wildland fire.

In 2008, the County Fire Enhancement Program began subsidizing CAL FIRE presence in the Pine Valley FPD. The District station is staffed by CAL FIRE personnel and district volunteers are supported by CAL FIRE.

Advanced Life Support ambulance transport services are provided by American Medical Response (AMR) under contract with the Grossmont Health Care District.

LAFCO approved a sphere-of-influence for the Pine Valley Fire Department in 1983 that is coterminous with the district boundary.

DISTRICT CHARACTERISTICS

Pomerado Cemetery District

District Background

The Pomerado Cemetery District (CD) provides cemetery and internment services for district property owners and district residents and their families at the district-owned Dearborn Memorial Park in the City of Poway.

The District was formed in 1950 to provide cemetery services within an approximate 98-square mile area that includes much of the City of Poway; territory in the northeastern section of the City of San Diego; and adjacent unincorporated territory.

The District is governed by a three-member Board of Trustees. Trustees, who must be registered voters living within the District, are appointed by the Board of Supervisors to four-year terms of office under Board Policy A-74, Citizen Participation in County Boards, Commissions, and Committees.

LAFCO approved a sphere-of-influence for the Pomerado Cemetery District in 1986 that was coterminous with the district boundary. The coterminous sphere was expanded in 2007 to include an additional 210 square miles.

District Characteristics

- **Principal Act:** Health and Safety § 9000 et seq.
- **Services:** Cemetery and internment services
- **District Area:** 98.06 sq. miles
- **Facilities:** Dearborn Memorial Park
- **Population:** 178,552 (2009 SANDAG)
- **Sphere of Influence:** Larger than District
- **Sphere Adopted:** October 6, 1986 (Coterminous)
- **Sphere Update:** April 2, 2007 (Larger than District)
- **Sphere Affirmed:** August 6, 2007

The District was formed in 1959 to provide a governance structure for a groundwater system associated with a private residential facility that covers approximately 630 acres. The *Questhaven Retreat* is primarily developed with guest facilities. Limited residential housing is available for an estimated population of four.

LAFCO approved a sphere-of-influence for the Questhaven Municipal Water District in 1984 that is coterminal with the district boundary.
DISTRICT BACKGROUND

The Rainbow Municipal Water District (MWD) provides potable water and wastewater collection services within portions of the unincorporated north county communities of Bonsall, Fallbrook, Pala, and Rainbow. The District was formed in 1953 to provide water and wastewater collection services within approximately 80 square miles of a predominately rural and agricultural area.

The Rainbow MWD is a member of the San Diego County Water Authority (SDCWA) and imported water purchased from the SDCWA is the District’s sole water source. The MWD annually purchases approximately 20,000 acre feet of water to distribute to 7,300 metered connections.

The Rainbow MWD serves a relatively rural area; however, district wastewater collection services are provided in limited areas. Wastewater collected in the MWD is transported to the City of Oceanside’s San Luis Rey Water Pollution Control Facility (WPCF) for treatment and disposal through the Oceanside outfall. The District contracts for 1 million gallons per day (mgd) of capacity within the WPCF.

The Rainbow MWD is governed by a five-member Board of Directors that is elected from geographic divisions of the District.

LAFCO approved a sphere-of-influence for the Rainbow MWD in 1984 that was smaller than the district boundary. In 2003, a Special Study Area designation was placed on approximately 162 acres located in the Interstate 15 and Old Highway 395 corridor.

DISTRICT CHARACTERISTICS

Principal Act: Water Code § 71000 et seq.
Services: Water, Wastewater
Population: 19,149 (2009 SANDAG)
Service Area: 79.69 sq. miles
Sphere of Influence: Smaller than District
Sphere Adopted: December 3, 1984
Special Study Area: September 8, 2003
Sphere Affirmed: August 6, 2007
Revenue Sources: Property tax; fees
Governance: Elected 5-member Board of Directors
Board Meeting: 4th Tuesday: 1:00 p.m.

The special Study Area designation acknowledges that parcels in the Rainbow MWD—as well as the Valley Center MWD and Vallecitos Water District—are separated from primary service areas by Interstate Highway 15.
DISTRICT BACKGROUND

The Ramona Cemetery District (CD) was formed in 1959 to ensure that cemetery services were available within an expansive area of unincorporated east San Diego County.

The District boundary includes approximately 169 square miles and is generally similar to the boundary of the Ramona School District.

The Ramona CD owns a 10-acre site within the Ramona town center. A portion of the site is developed with the district cemetery, Nuevo Memory Gardens, and the remaining area is reserved for future use.

The Ramona CD is governed by a three-member Board of Trustees that is appointed by the Board of Supervisors to four-year terms of office under Board Policy A-74, Citizen Participation in County Boards, Commissions and Committees. Trustees must be registered voters living within the District.

Approximately two-thirds of the District’s annual operating budget is funded by property tax revenue. Fees, charges, and sales revenue fund remaining costs.

LAFCO approved a sphere-of-influence for the Ramona Cemetery District in 1986 that is larger than the district boundary.

DISTRICT CHARACTERISTICS

Principal Act: Health and Safety § 9000 et seq.
Services: Cemetery and internment services
District Area: 168.58 sq. miles
Population: 35,361(2009 SANDAG)

The Ramona Municipal Water District (MWD) provides water, fire protection and emergency medical service, wastewater, and park and recreation services in the unincorporated east county community of Ramona.

The Ramona MWD was established in 1956 to replace the Ramona Irrigation District. The MWD is a member-agency of San Diego County Water Authority (SDCWA) and imported water provides 100 percent of the district’s water supply.

In 1971, the MWD was authorized to provide wastewater service in a restricted area as a latent power. The wastewater area was expanded in 1980 when the county-dependent Ramona Sanitation District (SD) was dissolved and service responsibility transferred to the MWD. The wastewater service area was expanded further in 1982 to include the Ramona Current Urban Development Area (CUDA); and again in 1993 to include the service area of the dissolved Mt. Woodson Ranch Sanitation District.

The District was authorized to provide park and recreation services as a latent power in 1975 and operates a 166-acre community park.

In 1981, the 32-square mile Ramona Fire Protection District (FPD), which was entirely within the boundary of the 75-square mile MWD, was dissolved and the MWD was authorized to provide fire protection services district-wide as a latent power. Volunteer fire companies outside of the FPD boundary—but within the MWD boundary—were absorbed by the MWD. CAL FIRE has been the contract fire protection provider within the District since 1993.
RANCHO SANTA FE COMMUNITY SERVICES DISTRICT

DISTRICT BACKGROUND

The Rancho Santa Fe Community Services District (CSD) provides wastewater, landscape maintenance, and utility undergrounding services within portions of the unincorporated communities of Rancho Santa Fe, Santa Fe Valley, and South Pointe Farms. The CSD emerged from a 1981 Reorganization that dissolved the county-dependent Rancho Santa Fe Sanitation District (SD) and formed the independent CSD. The CSD boundary was significantly larger than the dissolved SD to accommodate anticipated septic system failures in surrounding areas. With formation of the CSD, County Supervisors dissolved a county 1911 Improvement District that had provided county-funded landscape services in the communities of Rancho Santa Fe, Whispering Palms, and portions of Fairbanks Ranch. Maintenance responsibility for the Rancho Santa Fe area was transferred to the CSD and service was restricted to an improvement district that corresponds to the Rancho Santa Fe Covenant area. The County transferred property tax revenue, which had funded landscape maintenance within the Covenant, to the CSD. The District contracts with the Rancho Santa Fe Association for landscaping services and with Dudek and Associates for management and operational services.

In 2010, the CSD was authorized to provide utility undergrounding services as a latent power. Undergrounding is restricted to an area corresponding to the Covenant area. Undergrounding will be initiated incrementally and funded by property-owner assessments.

LAFCO approved a sphere-of-influence for the Rancho Santa Fe CSD in 1983 that was smaller than the District. The sphere was significantly expanded in 1997 to include the entire Santa Fe Valley Specific Plan Area. A service-specific sphere was approved for the utility undergrounding area in 2010.
Rancho Santa Fe Fire Protection District

District Background

The Rancho Santa Fe (FPD) provides structural fire protection, and advanced life support-level (ALS) emergency medical services (EMS) within an unincorporated area east of the City of Encinitas. The FPD includes approximately 33 square miles and covers the unincorporated communities of Rancho Santa Fe, Whispering Palms, Sun Valley, South Pointe Farms, Rancho Cielo, Del Dios, 4S-Ranch, Crosby, Santa Fe Valley, Fairbanks Ranch, and Del Mar Country Club.

An all volunteer Rancho Santa Fe FPD was established in the 1940s; the Board of Supervisors appointed the first 3-member FPD Board of Commissioners in October 1946.

In 1987, a reorganization between the Rancho Santa Fe FPD and neighboring County Service Area (CSA) No. 89 (Del Dios) dissolved both districts and formed a new district, which reclaimed the Rancho Santa Fe FPD name. The reorganized FPD was responsible for the territory of both former districts and the FPD Board was increased from three to five members.

In conjunction with the 1986 incorporation of the City of Encinitas, 2,000 acres were detached from the Rancho Santa Fe FPD and annexed to the Encinitas FPD. Seventy-eight acres were added to the Rancho Santa Fe FPD when the Solana Beach FPD was realigned with neighboring districts during the incorporation of the City of Solana Beach, also in 1986.

LAFCO approved a sphere-of-influence for the Rancho Santa Fe FPD in 1986 that is larger than the district boundary and includes CSA No. 107 (Elfin Forest).

District Characteristics

Principal Act: Health and Safety Code § 13800 et seq.

Services:
- Structural fire protection
- Advanced life support EMS

Fire Stations:
1. 16936 El Fuego, Headquarters
2. 16930 Four Gee Road
3. 6356 El Apajo
4. 18040 Calle Ambiente

Population: 27,751 (2009 SANDAG)

Dispatch: North County Dispatch JPA

Ambulance Transport: CSA No. 17

ISO Rating: 4 and 9 by area (1993)

Service Area: 32.87 sq. miles

Sphere of Influence: Larger than District

Sphere Adopted: July 1, 1987

Sphere Affirmed: May 7, 2007

Sphere Reaffirmed: August 6, 2007

Revenue Sources: Property tax, voter-approved assessment

Governance: Elected 5-member Board of Directors

DISTRICT BACKGROUND

The Resource Conservation District of Greater San Diego County (RCDGSD) provides technical help and educational programs to assist local property owners in implementing soil, water, and other natural resource conservation practices.

The RCDGSD emerged from a succession of RCD consolidations. The most recent—the 1995 consolidation of the Greater Mt. Empire RCD and the RCD of Central San Diego County—established the RCSGSD, which includes over 2,889 square miles. The District boundary includes all or portions of the Cities of Carlsbad, Del Mar, El Cajon, Encinitas, Escondido, National City, Poway, San Marcos, Solana Beach, San Diego, Santee, and Vista; and unincorporated territory extending to Imperial County.

The District works in conjunction with the U.S. Department of Agriculture (U.S.D.A) Natural Resources Conservation Service and coordinates programs, and services with other resource conservation districts and related local, state, and federal agencies.

The RCDGSD is governed by a seven-member Board of Directors. Directors are appointed to four-year terms by the County Board of Supervisors from a list of eligible candidates proposed by the RCD according to Board Policy A-134, Procedures for Appointment to Resource Conservation District Boards of Directors.

The RCDGSD administers the programs of the San Diego Fire Safe Council of San Diego County, a 501 (c)(3) non-profit corporation that is governed by a 15-member Board of Directors. The Fire Safe Council is funded through National Fire Plan State Fire Assistance grants with federal funding provided by the U.S.D.A. Forest Service, the U.S. Bureau of Land Management, and the U.S. Fish and Wildlife Service.

LAFCO approved a sphere-of-influence for the Resource Conservation District of Greater San Diego County in 1995 that is larger than the district boundary.

RESOURCES CONSERVATION DISTRICT OF GREATER SAN DIEGO COUNTY

DISTRICT CHARACTERISTICS

Principal Act: Public Resource Code § 9151 et seq.

Services:
- Water and soil conservation
- Fish and wildlife habitat programs

Service Area: 2,889 square miles

Population: 1,348,925 (2009 SANDAG)

Sphere of Influence: Larger than District

Sphere Adopted: February 6, 1995

Sphere Affirmed: August 6, 2007

Revenue Sources: Property tax, grants, fees

Governance: Appointed 7-member Board of Directors

The RCDGSD emerged from a succession of RCD consolidations. The most recent—the 1995 consolidation of the Greater Mt. Empire RCD and the RCD of Central San Diego County—established the RCSGSD, which includes over 2,889 square miles. The District boundary includes all or portions of the Cities of Carlsbad, Del Mar, El Cajon, Encinitas, Escondido, National City, Poway, San Marcos, Solana Beach, San Diego, Santee, and Vista; and unincorporated territory extending to Imperial County.

The District works in conjunction with the U.S. Department of Agriculture (U.S.D.A) Natural Resources Conservation Service and coordinates programs, and services with other resource conservation districts and related local, state, and federal agencies.

The RCDGSD is governed by a seven-member Board of Directors. Directors are appointed to four-year terms by the County Board of Supervisors from a list of eligible candidates proposed by the RCD according to Board Policy A-134, Procedures for Appointment to Resource Conservation District Boards of Directors.

The RCDGSD administers the programs of the San Diego Fire Safe Council of San Diego County, a 501 (c)(3) non-profit corporation that is governed by a 15-member Board of Directors. The Fire Safe Council is funded through National Fire Plan State Fire Assistance grants with federal funding provided by the U.S.D.A. Forest Service, the U.S. Bureau of Land Management, and the U.S. Fish and Wildlife Service.

LAFCO approved a sphere-of-influence for the Resource Conservation District of Greater San Diego County in 1995 that is larger than the district boundary.
The Rincon del Diablo Municipal Water District (MWD) provides potable and reclaimed water services and structural fire protection and advanced life support-level (ALS) emergency medical services (EMS). Water services are provided to a substantial portion of the City of Escondido and limited areas within the Cities of San Marcos and San Diego. Fire protection services are provided in the unincorporated portion of the District.

The Rincon MWD was created in 1954 specifically to join the San Diego County Water Authority (SDCWA) and access imported water. The MWD covered part of the service area of an existing private mutual water company and MWD voters would only fund district facilities in areas that did not overlay the private system. Because the private water company could not join SDCWA, the Rincon del Diablo MWD resold imported water to the water company—in addition to distributing water within two MWD improvement districts (ID). The City of Escondido eventually expanded to include the unincorporated mutual water company area and initiated proceedings to purchase the water system. The private system and city systems were integrated in 1989; however, the City continues to purchase imported water from the Rincon del Diablo MWD and to provide service within the former mutual water company area.

The District began providing fire protection and EMS services within the unincorporated portion of the District—identified as ID-E—in 1976 and levied a property tax rate within the ID to fund services. District fire protection assets were transferred to the City of Escondido in 1989 and the city fire department became the service provider within ID-E. Property tax revenue from ID-E is used to reimburse the City for providing fire protection services within the District.

LAFCO approved a sphere-of-influence for the Rincon del Diablo MWD in 1985 that is larger than the district boundary.
DISTRICT BACKGROUND

The Rincon Ranch Community Services District (CSD) provides road maintenance, improvement, and drainage services within an unincorporated community south of Palomar Mountain State Park.

The CSD was formed in 1963 and levied a property tax rate prior to limitations imposed by Proposition 13 and the District continues to receive an increment of property tax revenue to fund routine road maintenance. In 1992, district voters approved a special assessment to fund an overlay on approximately 3.5 miles of roadway. All road maintenance and improvements are performed by contractors.

LAFCO approved a transitional sphere-of-influence for the Rincon Ranch CSD in 1986, which acknowledges that district roads will be eventually accepted into the county-maintained road system.

DISTRICT CHARACTERISTICS

Principal Act: Government Code § 61000 et seq.
Service: Road maintenance
District Area: 4.42 sq. miles
Population: 168 (2009 SANDAG)
Sphere of Influence: Transitional
Sphere Adopted: June 2, 1986
Sphere Affirmed: November 7, 2005
Sphere Reaffirmed: August 6, 2007

The San Diego County Sanitation District (SD) provides wastewater services to approximately 120,000 residents in widely disbursed areas of unincorporated San Diego County.

The San Diego County SD emerged from a Reorganization effective July 1, 2011, which: (1) dissolved the Alpine, Julian, Lakeside, and Pine Valley County Sanitation Districts; (2) annexed the former districts’ territory to the Spring Valley County SD; (3) annexed territory within the East Otay Mesa, Harmony Grove, and Winter Gardens County Sewer Maintenance Districts, and the Campo Sewer and Water Maintenance District to the Spring Valley SD; and (4) renamed the Spring Valley SD as the San Diego County Sanitation District. Water service in the unincorporated community of Campo continues to be the responsibility of the Camp Maintenance District.

The County Department of Public Works administers, operates, and maintains wastewater facilities and services for the San Diego County SD. The District’s conveyance system includes approximately 450 miles of pipeline, 8 pump stations and three community-based treatment plants.

The County of San Diego is a member of the San Diego METRO Wastewater JPA and wastewater flows originating within the unincorporated Alpine, Lakeside, Spring Valley, East Otay Mesa, and Wintergardens areas are transported to the City of San Diego’s Pt. Loma facility for treatment and disposal. The District has a METRO capacity of 17.5 million gallons per day (gpd). Wastewater in the unincorporated Pine Valley, Julian, and Campo areas is treated at community-based treatment plants. A collection and treatment facility will be constructed in the Harmony Grove area in conjunction with planned development.

### District Characteristics

- **Principal Act:** Health and Safety § 4700et seq.
- **Service:** Wastewater
- **District Area:** 46.6 sq. miles
- **Population:** 158,780 ([2010 SANDAG])
- **Sphere of Influence:** Larger than District
- **Sphere Adopted:** September 2, 2010
- **Governance:** County Board of Supervisors

LAFCO approved a sphere of influence for the San Diego County Sanitation District in 2010 that is larger than the district boundary. The approximate 58.4 square mile sphere incorporates the sphere territory of the dissolved sanitation districts plus the territory of the sewer maintenance districts.
District Background

The San Diego Rural Fire Protection District (Rural FPD) provides structural fire protection and advanced life support-level (ALS) emergency medical services (EMS) within approximately 697 square miles of unincorporated southeast San Diego County.

Rural FPD was formed in 1983 following the failure of two ballot measures to create and fund an FPD over the entire unincorporated area. The Rural FPD was formed without an election because sufficient petition signatures to propose the formation were gathered and an assessment was not proposed.

The FPD consolidated 12 volunteer fire companies. The Jamul fire station emerged as district headquarters and was staffed with career firefighters. As a post-Proposition 13 agency, the District was not entitled to impose a property tax rate; however, the Board of Supervisors voluntarily transferred an increment of County property tax to the FPD and district voters subsequently approved special assessments in a number of FPD sub-areas.

In 2005, a CAL FIRE presence was initiated within the FPD under the County Fire Enhancement Program. The Jamul station was staffed with contract CAL FIRE personnel and staffing at other FPD stations was enhanced. In 2005, a new station at the George Bailey Detention Facility, on the district’s western periphery, was staffed with contract CAL FIRE personnel.

LAFCO approved a sphere-of-influence for the San Diego Rural FPD in 1983 that is generally coterminous with the district, but is larger or smaller that the district boundary, in limited areas.
DISTRICT BACKGROUND

The San Dieguito (Irrigation) Water District (WD) provides potable water treatment and distribution service within the approximate western-half of the City of Encinitas.

The San Dieguito WD was formed in 1922 as an independent Irrigation District to provide water service in the unincorporated area south of the City of Carlsbad. The District joined the San Diego County Water Authority (SDCWA) in 1948 and imported water purchased from SDCWA provides approximately 60 percent of the District’s water supply. Local water stored in City of San Diego-owned Lake Hodges is also available to the ID—and to the neighboring Santa Fe Irrigation District. The two districts jointly own and operate the R.E. Badger Water Filtration Plant, where water from Lake Hodges and raw water purchased from SDCWA is treated.

The 1986 incorporation of the City of Encinitas included the territory of the San Dieguito WD. The District became a subsidiary district of the City and is governed by the Encinitas City Council acting as the District Board of Directors. The WD service area covers approximately nine square miles in the western portion of the City—generally west of El Camino Real. The remainder of the City and adjacent unincorporated areas are served by the independent Olivenhain Municipal Water District.

In 2000, the San Dieguito WD began distributing reclaimed wastewater from the San Elijo Water Pollution Control Facility to landscape irrigation customers within approximately half of the District’s service area.

DISTRICT CHARACTERISTICS

Principal Act: Water Code § 20500 et seq.
Service: Water
Service connections: 11,530 meters
Population: 37,180 (District 2009)
District Area: 9.16 sq. miles
Sphere of Influence: Smaller than District
Sphere Adopted: June 4, 1984
Sphere Affirmed: November 7, 2005
Sphere Reaffirmed: August 6, 2007
Revenue Sources: Property tax, fees
Governance: Subsidiary district to City of Encinitas

LAFCO approved a sphere-of-influence for the San Dieguito WD in 1984 that was smaller than the district boundary. The approved sphere remained the same after the incorporation of the City of Encinitas and was affirmed by LAFCO in 2005 and 2007.
DISTRICT BACKGROUND

The San Luis Rey Municipal Water District (MWD) underwrites activities in an unincorporated north county area to protect the water rights of property owners who are dependent on local groundwater. The MWD covers approximately 5 square miles between Interstate Highway 15 on the west and the Pala Indian Reservation on the east and generally bisected by the San Luis Rey River.

The San Luis Rey MWD was formed in 1958 to assist property owners who benefit from the water resources of the San Luis Rey River and the Pala and Bonsall Drainage Basins. The District funds legal activities to protect water and water storage rights of district landowners.

The District is not authorized to provide potable or untreated water service. The MWD has neither water-related infrastructure nor access to local or imported water resources. Landowners in the District rely on private wells. The area is developed primarily with agricultural uses and the only source of water for agricultural or domestic use is the San Luis Rey River and the groundwater basins, which the River supplies.

San Luis Rey MWD levied a property tax rate before the tax limitations of Proposition 13 were imposed; however, the increment of property tax revenue is insufficient to fund MWD services and the District Board has imposed a water availability charge to generate revenue.

LAFCO approved a sphere-of-influence for the San Luis Rey MWD in 1987 that is coterminous with the district boundary.
DISTRICT BACKGROUND

The San Marcos Fire Protection District (FPD) is a subsidiary district to the City of San Marcos. The FPD provides structural fire protection and advanced life support-level (ALS) emergency medical services (EMS) within the City of San Marcos; unincorporated territory adjacent to the city’s northern boundary; discontiguous unincorporated areas between the City of San Marcos and the City of Escondido; and the community of Lake San Marcos, which is an unincorporated island within the City of San Marcos.

An all-volunteer FPD had been established in the unincorporated area in 1936. When the City of San Marcos incorporated in 1963, the FPD provided services within the City as well as surrounding unincorporated areas. Unincorporated territory within the FPD continued to annex into the City until 1987 when the percentage of FPD constituents, which were also residents of the City of San Marcos, were sufficient to meet State Law requirements for transforming the FPD into a subsidiary district of the City.

The City Council presides as the FPD Board of Directors and the San Marcos FPD continues to provide service within the approximately 25 percent of the FPD service area, which is unincorporated.

The County Office of Emergency Service contracts with the San Marcos FPD to provide ALS ambulance transport services as an Exclusive Operating Area (EOA) provider.

The current SMCFPD is the product of a series of consolidations among fire protection districts. In 1988, the Grossmont-Mt. Helix FPD and Spring Valley FPD consolidated to form the original San Miguel Consolidated FPD. In 1994, the Bostonia and Crest FPDs consolidated to form the East County FPD—which subsequently consolidated with the San Miguel Consolidated FPD in 2008. The successor of the most recent consolidation retained the name San Miguel Consolidated FPD.

The boundary of the SMCFPD reflects the territory and spheres-of-influence of each FPD that was absorbed and includes the unincorporated communities of Bostonia, Casa de Oro, Crest, Grossmont/Mt Helix, Rancho San Diego, Spring Valley, and unincorporated areas adjacent to the Cities of El Cajon, La Mesa, and Lemon Grove. The Bostonia area, which was part of the former East County FPD, is geographically separate from the principal SMCFPD service area.

The SMCFPD is a member of the Heartland Communication Facility Authority for dispatch and a founding member of the Regional Cooperative Care Partnership (RCCP)—a consortium of emergency service agencies that provides administrative oversight for ALS and paramedic ambulance transport services.

LAFCO approved a sphere-of-influence for the San Miguel Consolidation FPD in 1987 that was larger than the district boundary. The sphere was expanded in 2008 to accommodate consolidation with the East County FPD.
DISTRICT BACKGROUND

The Santa Fe Irrigation District (ID) provides potable and reclaimed water services within approximately 16 square miles in north coastal San Diego County. The District boundary includes the unincorporated community of Rancho Santa Fe; the City of Solana Beach; and limited territory within the Cities of Del Mar and Encinitas.

The District was formed in 1923 to bring water from Lake Hodges to the community of Rancho Santa Fe. The privately-owned Lake Hodges and Lake Hodges Dam were purchased by the City of San Diego in 1925; however, rights to stored water were conferred to the Rancho Santa Fe and neighboring San Dieguito Irrigation Districts. A narrow causeway, where a pipeline transports water from Lake Hodges to the Santa Fe ID, is incorporated into the eastern boundary of the Santa Fe ID and the district sphere-of-influence.

The District is a member agency of the San Diego County Water Authority (SDCWA) and approximately 70 percent of the ID’s water supply is imported water that is purchased from the SDCWA. Raw water purchased from SDCWA and untreated water from Lake Hodges is treated at the R. E. Badger Treatment Center, which is jointly owned and operated by the Santa Fe and San Dieguito IDs.

The Santa Fe ID purchases reclaimed water from the San Elijo Joint Powers Authority for resale to customers in the City of Solana Beach. Reclaimed water represents approximately four percent of district water sales.

LAFCO approved a sphere-of-influence for the Santa Fe Irrigation District in 1984 that is smaller than the district boundary.
District Background

Although empowered to provide water, hydroelectric, and park and recreation services, the South Bay Irrigation District (SBID) does not directly provide services. Water service within the SBID is provided by the Sweetwater Authority.\(^1\)

**District Characteristics**

- **Principal Act:** Water Code § 20500 et seq.
- **Service:** Conveys entitlement to imported water to Sweetwater Authority
- **District Area:** Approximately 32.29 sq. mi.
- **Population:** 121,534 (2009 SANDAG)
- **Sphere of Influence:** Larger than District
- **Sphere Adopted:** July 1, 1985
- **Sphere Affirmed:** August 6, 2007
- **Revenue Source:** Fees
- **Governance:** Elected 5-member Board of Directors
- **Board Meeting:** 3rd Monday; 3:30 p.m., Sweetwater Authority 505 Garrett Avenue Chula Vista, CA 91912
- **Contact:** sbid.us 
c/o Sweetwater Authority 505 Garrett Avenue Chula Vista, CA 91912 P.O. Box 2328 Chula Vista, CA 91912 619/4270-1413
- **View Map:** sdlafco.org/Webpages/agency_maps_links.htm

The primary functions of SBID are to: (1) uphold a joint powers agreement with the City of National City that establishes the Sweetwater Authority; and (2) convey entitlement to water imported by the San Diego County Water Authority (SDCWA) to the Sweetwater Authority.

Creation of SBID in 1951 resolved problems in distributing imported water purchased from SDCWA to unincorporated areas that were not eligible to join SDCWA as member agencies.

The local water distribution system, which included the Sweetwater Dam and Reservoir, had been developed over 80-years by private owners. Imported water purchased by the Cities of Chula Vista and National City was transported to the Sweetwater Reservoir for distribution in the private system. The private system also covered the unincorporated Sweetwater Valley and there was no practical way to exclude the unincorporated area—which was not entitled to the imported water—from the distribution system.

The SBID was formed to cover the City of Chula Vista and the unincorporated Sweetwater Valley. The City’s SDCWA membership was reassigned to SBID and the District distributed imported water to both the city and the unincorporated area. In subsequent years, SBID voters approved bonds to acquire the private water system. In 1972, the City of National City and SBID created the Sweetwater Authority to oversee water service within both agencies and in 1990, the Authority purchased the water system from SBID.

LAFCO approved a sphere-of-influence for the South Bay Irrigation District in 1985 that is larger than the district boundary.

---

\(^1\) See: Agencies with Limited or No LAFCO Review: San Diego County Water Authority.
DISTRICT BACKGROUND

The Tri-City Health Care District (HCD) operates a community hospital within a north coastal area that includes the City of Vista; substantial portions of the Cities of Carlsbad and Oceanside; and adjacent unincorporated areas, including a portion of the Camp Pendleton U.S. Marine Corps Base.

Voters approved formation of a publicly funded Tri-City Hospital District in 1957 and passed bond measures to purchase land and to construct a hospital. The Tri-City Hospital opened in the City of Oceanside in 1961.

The name of the hospital was changed to the Tri-City Medical Center in 1985 and in 1994, when Health and Safety Codes were amended to change Local Hospital District Law (Health and Safety Code § 32000 et seq.) to Local Health Care District Law, the District became the Tri-City Health Care District.

The HCD is governed by an elected, five-member board of directors. The District receives an allocation of the one-percent property tax revenue.

LAFCO approved a sphere-of-influence for the Tri-City Healthcare District in 1986 that is co-terminous with the district boundary.

DISTRICT CHARACTERISTICS

Principal Act: Health and Safety Code § 32000 et seq.
Service: Healthcare
Population: 369,695 (2009 SANDAG)
District Area: 131.96 sq. miles

UPPER SAN LUIS REY RESOURCE CONSERVATION DISTRICT

The RCD is a member of the Upper San Luis Rey Watershed Authority, which is responsible for maintaining a sustainable San Luis Rey River Basin; and in partnership with the California Integrated Waste Management Board, organizes solid waste cleanup programs throughout the district service area.

The Upper San Luis Rey RCD is governed by a five-member Board of Directors. Directors are appointed to four-year terms by the County Board of Supervisors from a list of eligible candidates proposed by the RCD according to Board Policy A-134, Procedures for Appointment to Resource conservation District Boards of Directors.

LAFCO approved a sphere-of-influence for the Upper San Luis Rey RCD in 1986 that is larger than the district boundary.
**DISTRICT BACKGROUND**

The Vallecitos (County) Water District (WD) provides potable water, wastewater, and reclamation services within approximately 45 square miles in northern San Diego County. The District boundary includes: the City of San Marcos; limited territory within the Cities of Carlsbad, Escondido, and Vista; and the unincorporated communities of Lake San Marcos and Twin Oaks.

The Vallecitos WD was formed in 1955 as the San Marcos County Water District; the district name was changed to the Vallecitos Water District in 1989.

The District is a member of the San Diego County Water Authority (SDCWA) and 100 percent of the District's potable supply is imported water purchased from SDCWA.

A wastewater system to collect, treat and dispose of wastewater within the urbanized portions of the WD was constructed in 1958. The District joined the Encina Wastewater Authority in 1969 and became a joint owner of the Encina Waster Pollution Control Facility (EWPCF); wastewater generated within the Vallecitos WD is transported to the EWPCF for treatment and disposal. The district reclamation facility was upgraded and rededicated in 1983 as the Meadowlark Water Reclamation Facility. The Facility produces up to five million gallons per day (mgd) of reclaimed water, which is sold to the City of Carlsbad for landscape irrigation.

The District covers approximately 235 square miles in unincorporated north county, extending from the San Diego and Riverside County boundary on the north, to the City of Escondido on the south. Valley Center CD includes limited territory within the City of Escondido and the unincorporated communities of Hidden Meadows, Pala, Palomar Mountain, Pauma Valley, Rincon, Twin Oaks, and Valley Center.

The Valley Center CSD was formed in 1931 to provide public governance for the Valley Center Cemetery in unincorporated Valley Center, which had provided services to the community since 1883.

The District receives an allocation of property tax revenue that provides approximately one-fourth of the district’s operating revenue.

The Valley Center CD is governed by a five-member Board of Trustees. Trustees, who must be registered voters living within the District, are appointed to four-year terms of office by the Board of Supervisors under Board Policy A-74, *Citizen Participation in County Boards, Commissions, and Committees*.

LAFCO approved a sphere-of-influence for the Valley Center CD in 1986 that is coterminal with the district boundary.
VALLEY CENTER  
(COMMUNITY SERVICES) PARKS AND RECREATION DISTRICT

DISTRICT BACKGROUND

The Valley Center (Community Services) Parks and Recreation District (VCPRD) provides park and recreation services within an approximate 66 square mile area in north county. A very small portion of the District overlies the City of Escondido; however, the District’s primary service area covers unincorporated territory.

The District, which was formed in 1966 as a Community Services District (CSD), operates as the Valley Center Parks and Recreation District. The District receives an increment of the property tax that is levied within the district boundary; property tax revenue funds approximately one-third of the district's operating cost.

The VCPRD operates the Adams Community Park on land leased from the Valley Center-Pauma Unified School District and the Cole Grade and Aerie Parks. The District also maintains a district-owned Community Hall and contracts with the County to manage county recreational facilities within the District.

LAFCO approved a sphere-of-influence for the Valley Center Park and Recreation District in 1986 that was coterminous with the district boundary. In 2005, the VCPRD sphere was amended to remove sphere territory that overlapped the City of Escondido. The current VCRPD sphere is smaller than the district boundary.

DISTRICT CHARACTERISTICS

Principal Act: Government Code § 61000 et seq.
Service: Park and Recreation
Population: 15,113 (2009 SANDAG)
District Area: 66 .28 sq. miles

DISTRICT BACKGROUND

The Valley Center Fire Protection District (VCFPD) provides structural fire protection and advanced life support-level (ALS) emergency medical services (EMS) within approximately 85 square miles in the unincorporated community of Valley Center.

The VCFPD was formed in 1982 to provide public governance and access to public funds to a volunteer fire protection organization. As a post-Proposition 13 agency, the District was not entitled to a share of property tax revenue; nonetheless, the Board of Supervisors voluntarily transferred an increment of county property tax revenue to the new agency. District voters subsequently approved special assessments to fund increased levels of service; assessments fund approximately 75 percent of district operating costs.

VCFPD stations were staffed by a combination of volunteers and district career personnel until the late 1990s when the District contracted with CAL FIRE to oversee district operations. CAL FIRE provides full-time staffing, which is supplemented by reserve firefighters. VCFPD also funds an Amador contract to extend the service season in a CAL FIRE station on Vesper Road. CAL FIRE services in VCFPD are subsidized with County Fire Enhancement Program funds.

LAFCO approved a sphere-of-influence for the Valley Center FPD in 1984 that is smaller than the district boundary in acknowledgement that some district territory is within the sphere for the City of Escondido.
**Valley Center (Municipal) Water District**

**District Background**

The Valley Center (Municipal) Water District (MWD) provides potable water and wastewater treatment and reclamation services within the unincorporated community of Valley Center. The MWD was formed in 1954 to provide potable water service within approximately 100 square miles of primarily agricultural territory. The District joined the San Diego County Water Authority (SDCWA) in 1955. Imported water purchased from the SDCWA provides 99 percent of the MWD’s water supply; reclaimed wastewater supplies the balance.

The Valley Center MWD also provides wastewater treatment and reclamation services to approximately 2,750 customers clustered in two areas of the District.

The Lower Moosa Canyon Water Reclamation Facility (WRF), which has a capacity of 0.5 million gallons per day (mgd) serves the Interstate Highway 15 corridor on the western reaches of the District. The 0.07 mgd Woods Valley Ranch WRF treats wastewater from the Woods Valley Ranch Development and returns reclaimed water to the Development for golf course irrigation.

LAFCO approved a sphere-of-influence for the Valley Center Water District in 1984 that was coterminous with the district boundary. The sphere was amended in 2003 to include approximately 650 acres. A special study area was also established in the Interstate Highway 15 corridor where service efficiencies and alternative providers will be analyzed. The larger-than-district sphere was affirmed in 2007.

**District Characteristics**

- **Principal Act:** Water Code § 71000
- **Services:** Water, Wastewater, Reclaimed wastewater
- **Service connections:** 10,170 water meters
- **Population:** 24,546 (SANDAG 2009)
- **District Area:** 100.42 sq. miles

DISTRICT BACKGROUND

The Vista Fire Protection District (FPD) provides fire protection and advanced life support-level (ALS) emergency medical service (EMS) within approximately 31 square miles of unincorporated territory adjacent to the City of Vista. Services within the FPD are provided by an organization that operated in unincorporated north county. The FPD was significantly diminished in 1963 when the City of Vista incorporated and twelve square miles were detached from the district to prevent duplication of responsibility.

In 1970, the District and the City of Vista entered into a Joint Powers Agreement (JPA) for fire protection services. Fire Protection assets were merged and proportionate City-District ownership established. The City was assigned lead agency role and the City Fire Department provided services within both jurisdictions.

In 2005, the City purchased the District’s share of JPA assets for $2.5 million and the JPA was replaced with an Agreement for Fire Suppression, Fire Prevention and Emergency Medical Services. Under the Agreement, city fire protection services are provided within the Vista FPD in the same manner and to the same extent as within the City. The District and the City are individually responsible for a proportionate share of fire protection costs. Proportionality is developed from a ratio of City or District secured assessed valuation relative to the total of combined secured assessed valuation.

LAFCO approved a sphere-of-influence for the Vista FPD in 1984 that is larger than the district boundary.
DISTRICT BACKGROUND

The Vista Irrigation District (VID) provides potable water service within approximately 33 square miles in north San Diego County. VID includes all—except a very small section—of the City of Vista; limited areas in the Cities of Escondido, Oceanside, and San Marcos; and unincorporated territory between the cities.

The approximate 66 square mile Lake Henshaw aquifer basin, which is located 50 miles northeast of the VID service area, is owned by VID and included within the district boundary.

VID was formed in 1923 primarily to support the area’s avocado growing and packing industry. The District purchased the San Diego County Water Company in 1946 and took possession of company assets, including Lake Henshaw, Lake Henshaw Dam, and the surrounding 43,000-acre Warner Ranch. Lake Henshaw and its watershed are the source of the District’s local water supply.

VID began to indirectly receive imported water from the San Diego County Water Authority (SDCWA) through the Bueno Colorado MWD in 1954. At the time, Irrigation Districts were unable to join SDCWA and the Bueno Colorado MWD was formed expressly to join SDCWA and function as a water wholesaler to VID and the neighboring Vallecitos WD.

The Vallecitos WD detached from the Bueno Colorado MWD in 1979 and became a direct SDCWA member. Buena Colorado MWD was dissolved in 1993—and with eligibility requirements now favorable—VID also became a direct member of SDCWA. Imported water purchased from the SDCWA provides approximately 80 percent of the VID supply.

DISTRICT CHARACTERISTICS

Principal Act: Water Code § 20500 et seq.
Services: Water
Service Connection: 54,989 meters
Facilities: Lake Henshaw
14 potable reservoirs
Population: 123,815 (2009 SANDAG)

LAFCO approved a sphere-of-influence for the Vista Irrigation District in 1985 that enclosed the Buena Colorado MWD. The 1993 Reorganization, which dissolved the Bueno Colorado MWD, also annexed all territory within VID’s sphere into the VID. Subsequent actions have reorganized territory and adjusted spheres between VID and the Vallecitos WD. A sphere that is smaller than the VID boundary was affirmed in 2007.
DISTRICT BACKGROUND

The Whispering Palms Community Services District (CSD) provides wastewater treatment and roadside, street sign, and lighting maintenance services within approximately 3.5 square miles of the unincorporated community of Whispering Palms.

Whispering Palms CSD emerged from a 1987 Reorganization that: (1) dissolved the Whispering Palms Sanitation District and County Service Area (CSA) No. 1 (Whispering Palms); and (2) formed the Whispering Palms CSD as a successor agency.

The CSD assumed the service responsibilities of both dissolved districts. All district services are provided by contract; the engineering and consulting firm of Dudek and Associates provides management and operational services for the district-owned Whispering Palms Water Pollution Control Facility.

LAFCO approved a sphere-of-influence for the Whispering Palms CSD in 1987 that is larger than the district boundary.

DISTRICT CHARACTERISTICS

DISTRICT BACKGROUND

The Wynola (California) Water District (WD) provides potable water service within a small residential development in unincorporated east county. Although formed as a California Water District, the District operates as the Wynola Water District.

The District was established in 1969 to support a community water system within the approximate 0.4 square mile Wynola Estates development. The District is located in an unincorporated area adjacent to the Cleveland National Forest, west of the community of Julian.

Imported water is not available in the area and the Wynola WD relies on local groundwater supplies. The District maintains a system of 10 wells and two water storage tanks that have a combined capacity of 111,000 gallons.

LAFCO approved a sphere-of-influence for the Wynola Water District in 1984 that is coterminous with the district boundary.

DISTRICT CHARACTERISTICS

Principal Act: Water Code § 34000 et seq.
Services: Water
Population: 87 (2009 SANDAG)
Connections: 63

The Yuima Municipal Water District (MWD) provides water service and structural fire protection and advanced life support-level (ALS) emergency medical services (EMS) within approximately 21 square miles in unincorporated north county.

Four mutual water companies, two private water companies, and the MWD continue to pump groundwater for distribution within the Yuima MWD. Local sources provide approximately 49 percent of the water supply for the MWD.

Structural fire protection within the Yuima MWD is provided by the California Department of Forestry and Fire Protection (CAL FIRE) through a contract for CAL FIRE service. The Yuima MWD has partnered with the Pauma and Mootamai MWDs to establish a Joint Powers Agreement (JPA), which underwrites a contract for fire protection services within all three MWDs. The Yuima MWD is contract administrator for the JPA.

The CAL FIRE operation that responds to the MWD is based at the CAL FIRE Rincon Station. The County of San Diego, through its Fire Enhancement Program, subsidizes an upgrade of the fire protection services provided to the Yuima/Mootamai/Pauma MWDs.

LAFCO approved a sphere-of-influence for the Yuima Municipal Water District in 1984 that is coterminous with the district boundary.

California Community College System

The five Community College Districts in San Diego County are part of the California Community College System (CCCS). The CCCS functions according to Division 7 of the California State Education Code. In 2008, there were 72 Community College Districts, 110 college campuses, and more than 2.5 million students in the State of California.

The CCCS evolved from an early 20th century model of higher education, which authorized California high schools to offer an extended curriculum, which was similar to the first two years of university study. The 1917 Junior College Act and the 1944 GI Bill facilitated access to education and created demand for the locally-controlled Junior College Districts. In 1967, the Legislature transferred control of the Junior College system from the State Board of Education to a new CCCS with a separate State Board of Governors and State Chancellor. The CCCS 17-member Board of Governors represents the public, faculty, students, and classified CCCS employees. The CCCS Board, which is appointed by the Governor, sets policy and provides long-range planning and guidance to the Sacramento-based Office of Chancellor. The Chancellor allocates state funding and provides leadership and technical assistance to the 72 semi-autonomous districts.

The CCCS inherited a legacy of local control from the junior college system. The State Education Code directs the CCCS Board of Governors to allow community college districts to be controlled locally to the “…maximum degree permissible.” Underlining the significance of this concept, State Law has established a formal consultation process between local districts and State officials to ensure that the Board of Chancellor’s Office is responsive to local authority. Locally elected Boards of Trustees develop policy and college presidents run individual campuses.

State Law declares that all state territory shall be included within a community college district (Education Code 74000-74001) and local districts are distributed throughout California. Interestingly, 52 of the 72 districts in California contain only a single college. The community colleges are classified with K through 12 for the purposes of funding and fall within the guarantees of Proposition 98. For FY 08-09 Prop. 98 will account for more than 68 percent of CCCS funding—44 percent from the State General Fund and 24 percent from local property tax revenues. Student fees contribute approximately 3 percent; the balance comes from Federal, State Lottery, other local funds, and bond revenues.

LAFCO does not regulate formation, change of boundary, or reorganization of Community College Districts. All Community College District boundary matters are administered under the California Education Code.

COMMUNITY COLLEGE DISTRICTS

GROSSMONT-CUYAMACA CCD

The Grossmont-Cuyamaca Community College District (GCCCD) was formed in 1961. The District covers approximately 1,138 square miles in southeastern San Diego County, stretching from the eastern boundary of the City of San Diego to Imperial County; and from the southern boundary of the City of Poway to the U.S. and Mexico International Border. The Cities of El Cajon, La Mesa, and Santee and the unincorporated communities of Alpine, Ramona, and Spring Valley are within the GCCCD.

The GCCCD oversees two campuses: Grossmont College in the City of El Cajon and Cuyamaca College in unincorporated Rancho San Diego. The two colleges provide academic coursework for an associate degree or transfer to four-year colleges and universities, vocational training, basic skills training, English as a second language (ESL), and enrichment courses to approximately 27,000 students. Both colleges are fully accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges.

The District employs 362 full-time and approximately 1,037 part-time faculty and 439 administrative and classified staff.

The District is governed by a five-member Board of Trustees, elected by district voters, plus a student trustee from each college, who is elected by students of the respective college.

MIRA COSTA CCD

Voters approved the Mira Costa Community College District (MCCCD) in 1960 to establish a discrete college district, separate from the Oceanside-Carlsbad High School District. In 1961, voters approved bonds to fund construction of a college campus, which was completed and occupied in 1964. In 1976, territory within the San Dieguito High School District was added to the MCCCD.

The MCCCD is located in north coastal San Diego County. The district boundary is coterminous with the boundaries of the Carlsbad and Oceanside Unified School Districts and the San Dieguito Union High School District and includes the Cities of Carlsbad, Del Mar, Encinitas, Oceanside, and Solana Beach as well as the unincorporated communities of Leucadia, Olivenhain, and Rancho Santa Fe.

The MCCCD operates campuses in the Cities of Oceanside and Encinitas and offers programs and services at centers on Camp Pendleton and other locations throughout the District. The MCCCD has a combined enrollment of approximately 15,000 students.

The District is governed by a seven-member Board of Trustees, elected by district voters, plus one student trustee, who is elected by students.

COMMUNITY COLLEGE DISTRICTS

PALOMAR CCD

The Palomar Community College District (PCCD) grew out of the Palomar Junior College District, which was established in northern San Diego County in 1946. The current PCCD moved from the Vista High School to its San Marcos campus in 1950. District territory extends from the coast eastward into the Anza Borrego Desert, encompassing more than 2,550 square miles. In 2008-09, the PCCD had an enrollment of approximately 30,000 students. The District offers more than 250 associate degrees and certificate programs at the San Marcos campus and 9 satellite educational centers.

The District is governed by a five-member Board of Trustees, elected by district voters, plus a student trustee elected by students as the Associated Student Government President.

SAN DIEGO CCD

The San Diego Community College District (SDCCD) was formed by voters in 1972 to assume responsibility from the San Diego Unified School District for the Mesa, Miramar, and San Diego City Colleges. The SDCCD boundary is coterminous with the City of San Diego with the exclusion of the San Ysidro area, which is included in the Southwestern CCD.

Combined annual enrollment in the District’s three colleges and six Continuing Education Centers is approximately 100,000 students. An additional 45,000 students attend military contract programs on military bases. The SDCCD is governed by an elected five-member Board of Trustees and three student members, who serve on a rotating basis.

SOUTHWESTERN CCD

The Southwestern Community College District (SWCCD) was formed in 1961 and operated in temporary quarters at the Chula Vista High School until a SWCCCD campus was completed in 1964. District territory extends south of San Diego to the United States and Mexico International border and includes the Cities of Chula Vista, Imperial Beach, and National City and the unincorporated communities of Bonita, Nestor, and Otay Mesa.

The SWCCD is governed by five-member Board of Trustees, elected by district voters, plus a student trustee elected by SWCCD students.

Heartland Communications Facility Authority

The Heartland Communications Facility Authority (HCFA) was created in 1987 by a Joint Powers Agreement (JPA) among four cities and four fire protection districts (FPD) in the eastern urbanized area of San Diego County. The JPA was subsequently amended to include additional members and to accommodate consolidations among FPD members. Currently, there are eleven HCFA members: the Cities of Coronado, El Cajon, Imperial Beach, La Mesa, Lemon Grove, National City, and Santee; and the Alpine, Bonita-Sunnyside, Lakeside, and San Miguel Consolidated FPDs. Dispatch services are also provided by contract to several volunteer or tribal fire protection organizations.

The HCFA is a public entity separate from the JPA agencies; however, JPA agencies are responsible for funding the entire operation of the Authority. Member agencies are assessed proportionate shares of HCFA costs—which may be reduced by revenue from contract services. The Authority is governed by a Commission with one seat allocated to each JPA member. A Board of Chiefs consisting of the Fire Chief—and Police Chief if police dispatch services are provided—from each JPA member agency provides administrative oversight. The HCFA dispatch center is located in the City of El Cajon.

North County Dispatch

The North County Dispatch (North Comm) was created in 2002 by a Joint Powers Agreement (JPA) to provide fire and emergency medical service dispatching for agencies in northern San Diego County. The initial five members—the cities of Carlsbad, San Marcos, Solana Beach, and Vista; and the Rancho Santa Fe Fire Protection District (FPD)—were subsequently joined by the cities of Encinitas and Oceanside and the North County FPD. In addition to JPA members, North Comm provides dispatching services by contract to County Service Area (CSA) No. 107 (Elfin Forest/Harmony Grove); CSA No. 17 (San Dieguito Paramedic); the City of Del Mar; and the private Rancho Santa Fe Patrol.

North Comm is governed by a Board of Directors appointed from the governing board of each member agency. An administrative board of fire chiefs from member agencies advises the North Comm Board. The cost of funding the North Comm operation is shared by the member agencies based on a ratio between the calls dispatched for each participating agency and total call volume. In December 2009, the North County Dispatch JPA and the Heartland Communications Facility Authority entered into an agreement to share a single command and control and increase interoperability with the City of San Diego emergency dispatch system.

Profile

The County Permanent Road Division (PRD) provides a governance structure for unincorporated area property owners who want to fund improvements and maintenance for roads that are not within the county-maintained road system. The Board of Supervisors established the PRD, which covers the entire unincorporated area, in February 2000. In compliance with Streets and Highway Code § 1162.6, the PRD was formed without reference to individual road improvement projects; when qualifying road improvement projects within the PRD are proposed, zones of benefit are created over the benefiting parcels. Property owners within a zone pay all improvement and maintenance costs through special benefit assessments or parcel charges. Funding obligations are placed against parcels, not individuals, and flow with the property if ownership changes.

Formation of a zone of benefit is initiated by a property-owner petition that contains signatures from at least 60 percent of the parcel owners. The formation process includes opportunities for property owners to protest formation; assessments must be approved by a majority of property owner-voters.

The Special Districts Section of the County of San Diego’s Department of Public Works is responsible for administering road improvements and continued maintenance in compliance with county standards for licensing, bonding, performance, quality, and warranty.

Background

Before 1999, petitions or resolutions that proposed formation of a PRD were required to identify the specific road work, materials, costs, and duration of each project. If formed, PRD boundaries were filed with the State Board of Equalization. The entire lengthy process was repeated for each proposed road improvement project.

The PRD formation process was streamlined in 1999 by Senate Bill 614 (Morrow), which authorizes counties to form PRDs as shells that do not identify or finance specific projects. When road improvement projects are proposed, zones are created, which enclose each project. A hearing process for imposing assessments in each zone is completed by the Board of Supervisors in compliance with Proposition 218. SB 614 also specifically exempts PRD zones from State Board of Equalization filing requirements.

In May, 2000—following formation of the County PRD by the Board of Supervisors—San Diego LAFCO approved dissolution of 58 separate County Service Areas that were providing authority for property owners to fund road improvements in the unincorporated area. The County PRD was named successor agency and the territory of each dissolved CSA was designated a zone of benefit within the PRD.

Neither the PRD nor the PRD zones are special districts and accordingly, are not subject to LAFCO review.

COUNTY SEWER AND WATER MAINTENANCE DISTRICT

Profile

Maintenance districts are established within cities or counties by respective officials under Sections 5820—5856 of the Streets and Highways Code (Part 2, Chapter 26 of the Improvement Act of 1911); and Sections 4860—4866 of the Health and Safety Code (Part 2, Chapter 4, of the Communities Facilities Law of 1911). Maintenance districts are authorized to impose special assessments on benefiting properties and to construct and operate facilities to provide certain public services.

The San Diego County Board of Supervisors established four County Maintenance Districts between 1964 and 2007 that supported wastewater and water treatment services in widely dispersed unincorporated areas.

In 2010, the service area of each Maintenance District was annexed into the San Diego County Sanitation District. Annexation of the territory was a component of a Reorganization that also dissolved the Alpine, Julian, Lakeside, and Pine Valley County Sanitation Districts and—together with the Maintenance Districts—consolidated the county’s wastewater responsibility under the umbrella of the Spring Valley County Sanitation District. The Spring Valley Sanitation District was renamed the San Diego County Sanitation District.

The County plans to abandon the East Otay Mesa, Harmony Grove, and Wintergardens Sewer Maintenance Districts in July 2011 when the Spring Valley County Sanitation District Reorganization will be final; however, the Campo Water and Sewer Maintenance District will be retained to support the delivery of water service in the unincorporated east county community of Campo.

* Campo Water and Sewer Maintenance District

The Campo Water and Sewer Maintenance District includes 0.72 square mile in the unincorporated east county community of Campo. Services are funded through annual charges that are approved by the Board of Supervisors and collected on the tax rolls.

The Campo water and wastewater facilities were constructed by the Federal Government during World War II to service the Army’s Camp Lockett facilities. The Federal facilities were transferred to the County of San Diego in 1950 and the County operated both systems in support of county operations and approximately 45 private customers for over 55 years.

In 2005, Supervisors established the Campo Water and Sewer Maintenance District to administer, maintain, and fund water and wastewater services to the developing 220-unit Campo Hills residential project; County operations in Campo for Probation, Parks and Recreation, Public Works, Sheriff, and General Ser-

---

1 Section I: San Diego County Sanitation District; and Section III, Index V: Alpine, Julian, Lakeside, and Pine Valley County Sanitation Districts.
vices; U.S. Border Patrol and Homeland Security facilities; and the approximate 45 Campo residents who had historically depended on services from the water supply and wastewater facilities. Services within the Maintenance District were funded through annual commodity charges.

As previously explained, the Campo Maintenance District area was annexed into the San Diego County Sanitation District and the Campo wastewater facility will be operated by the Sanitation District. Responsibility for water service, however, will remain with the Campo Maintenance District.

**Campo Water System**

The Campo water system consists of three wells with an aggregate pumping capacity of 240 gallons per minute (gpm) and 13.25 miles of distribution lines. Water is stored in two reservoir tanks with a combined capacity of 726,000 gallons.

The State issued a *Small Community Water System* permit for the Campo Hills development in 2004. Groundwater is pumped from two wells, with a combined pumping capacity of 500 gpm. Campo groundwater has been treated for uranium contamination since 2005. Groundwater is treated for high levels of uranium and manganese, stored in two above-ground tanks, transported approximately one mile to a 700,000 gallon reservoir, and distributed by gravity flow.

*LAFCO does not have purview over Maintenance Districts.*

Encina Wastewater Authority

Profile

The Encina Wastewater Authority (EWA) is authorized by a Joint Powers Agreement (JPA) among the Cities of Carlsbad, Encinitas, and Vista; and the Buena Sanitation District, Leucadia Wastewater District, and Vallecitos Water District. The EWA is governed by a 10-member Board of Directors. Each JPA member may appoint two representatives to the Board—except the City of Vista and the city-dependent Buena Sanitation District—which share two EWA Directors.

The EWA administers, operates, and maintains the Encina Water Pollution Control Facility, which provides wastewater treatment and disposal services to approximately 300,000 residents within the JPA member-cities and districts. All wastewater entering the Encina Water Pollution Control Facility is treated to at least the secondary level then pumped through a 1.5-mile ocean outfall line for discharge into the Pacific Ocean.

EWA also operates facilities owned by member agencies: the Carlsbad Water Reclamation Plant (located in the City of Carlsbad and owned by the City); the Buena Creek Pump Station (located in the City of Vista, but owned by the Buena Sanitation District); the Buena Vista and Agua Hedionda Pump Stations (both sited in the City of Carlsbad, but jointly owned by Carlsbad and the City of Vista); and the Raceway Pump Station (located in the City of Carlsbad, but owned by the City of Vista).

Background

The original JPA was created between the City of Carlsbad and the Vista Sanitation District in 1961. The City of Vista joined the JPA in 1963; the Buena Sanitation District in 1964; the Vallecitos Water District in 1965; and the Leucadia County Water District (now Leucadia Wastewater District) and the Encinitas Sanitary District in 1971. The JPA opened the Encina Water Pollution Control Facility (EWPCF) in the City of Carlsbad in 1965. The EWPCF was operated by the County of San Diego until 1979 and the Leucadia County Water District between 1979 and 1988.

One of the original JPA members, the Vista Sanitation District, merged with the City of Vista in 1983. The subsequent constellation of JPA members approved a revised Agreement in 1988 that created the Encina Administrative Agency (EAA) to operate, maintain, and administer the EWPCF and other jointly-owned facilities. The revised JPA also established the composition of the Authority’s Board of Directors.

The EAA was renamed the Encina Wastewater Authority (EWA) in 1991. Successive plant expansions and enhanced treatment technologies have expanded the original capacity to serve a growing population and meet modern treatment standards. A 1995 project increased treatment capacity to 43.3 million gallons per day (mgd); developed interim wastewater flow equalization facilities to optimize treatment and ocean outfall operations; and added odor control facilities. The EWA has purchased 37 acres adjacent to the EWPCF for future facility needs.

Profile

The Metropolitan Water District of Southern California is a consortium of public agencies that provides imported water to 19 million residents of Southern California. Metropolitan’s member agencies from Los Angeles, Orange, Riverside, San Bernardino, San Diego, and Ventura counties resell water supplied by Metropolitan directly to consumers and more than 300 retail agencies.

Background

Metropolitan was established in 1928 by a Special Act of the California Legislature. The District’s original purpose was to fund, construct, and operate the Colorado River Aqueduct. Construction began in 1933 and imported water arrived in Southern California in 1941. The San Diego County Water Authority (SDCWA) joined Metropolitan as a member agency in 1946 and imported water reached San Diego County in 1947.

Metropolitan membership is currently composed of 14 cities (Anaheim, Beverly Hills, Burbank, Compton, Fullerton, Glendale, Long Beach, Los Angeles, Pasadena, San Marino, Santa Ana, San Fernando, Santa Monica, and Torrance); 11 municipal water districts (West Basin, Inland Empire, Three Valleys, Eastern, Orange County, Foothill, Central Basin, Western, Calleguas, Las Virgenes, and Upper San Gabriel MWDs); and the SDCWA. The SDCWA—itself a collective of public water purveyors in San Diego County—is the largest single purchaser of Metropolitan water. In FY 2006-07, approximately 28 percent of all Metropolitan allocations were delivered to the SDCWA.

Metropolitan is governed by a 37-member Board of Directors; every director has an equal voting share. Each Metropolitan member agency is entitled to at least one director seat; additional seats are allocated to members according to the assessed valuation within the member agency. On this basis, the SDCWA, MWD of Orange County, and City of Los Angeles each has four representatives on the Metropolitan Board; and the Central Basin and West Basin MWDs each has two Metropolitan Directors.

Metropolitan imports water from two sources: Colorado River water is transported west through 242 miles of Metropolitan-owned-and-operated Colorado River Aqueduct and water from the Sacramento-San Joaquin Delta flows 444 miles south through the California State Water Project. Drinking water is treated to federal and state standards at five Metropolitan water treatment plants, which have a combined capacity to treat 2.6 billion gallons of water per day.

Proposals to annex territory to a member agency require concurrent approval from the appropriate LAFCO and the Metropolitan Water District. In San Diego County, proposed annexations to CWA member agencies must be approved by the San Diego LAFCO, the SDCWA and the Metropolitan Water District.

San Diego LAFCO has limited purview over the Metropolitan Water District of Southern California.

The San Diego Area Wastewater Management District was created by the San Diego Area Wastewater Management Act of 1992 (Chapter 803 of the Statutes of 1992). The Act formed a coalition of public agencies that contracted for wastewater services with the City of San Diego’s Metropolitan Wastewater System (Metro System) primarily to establish a shared oversight of the Metro System.

The Metro System has provided wastewater collection, treatment, and disposal services for the City of San Diego and other cities and special districts in San Diego County since 1963. The Metro System service area includes 450-square miles and an aggregate population of over 2.2 million residents. The City of San Diego, as sole owner, had total control over Metro System policies and operational procedures, although in 1992, contracting agencies funded more than 30 percent of System costs. The 1992 Act was designed to extend decision-making to contracting agencies by transferring ownership of the Metro System to a public entity representing all stakeholders.

The District boundary is coterminous with the boundaries of all member agencies; jurisdictional changes that affect member agencies result in corresponding changes to the Wastewater Management District boundary. The 1992 legislation implemented a weighted vote system for the District based on average wastewater flow among district members—except 50 percent of the vote was reserved for the City of San Diego regardless of average flow. Disagreement over the weighted vote inhibited full implementation of District powers. The District Board of Directors, which was established by the Act, meets periodically for grant funding purposes and to advise subsequent coalitions of Metro System users (see Metro Wastewater Commission and Metro JPA below).

METRO WASTEWATER COMMISSION

Following the failure of special legislation to resolve regional wastewater concerns, a team of managers and technical experts from the cities and special districts, which contracted for Metro System services, successfully negotiated a 52-year Regional Wastewater Disposal Agreement with the City of San Diego. The Agreement updated the 1963 contracts for wastewater collection, treatment, and disposal; defined capacity rights within the Metro System; and established a role for participating agencies for planning future capacity.

The 1998 Agreement also created a Metro Wastewater Commission composed of one representative from each contracting agency to advise the City of San Diego on Metro System matters. The Commission reviews every aspect of Metro System decision-making including waivers from EPA requirements for secondary treatment, wastewater spills and beach closures, and international wastewater treatment issues. Nevertheless, as a fundamentally volunteer organization, the Commission lacked authority to implement its advisory recommendations and a third coalition of Metro System users—one that could more effectively address regional wastewater issues—was organized in 2001.

The Metro Commission partners with the latest coalition of system users in an advisory role to the City of San Diego for wastewater issues (see Metro Wastewater JPA).
Metro Wastewater JPA

In 2001, all but three of the agencies, which contract for service with the Metro System, formed the Metro Wastewater Joint Powers Authority (Metro JPA). The JPA is an adjunct—with legal powers—to the Metro Wastewater Commission. JPA influence over policy and operational aspects of the Metro System supersedes both the Commission and the San Diego Area Wastewater Management District.

All Metro System contract users—whose aggregate funding of Metro System costs had risen to 34 percent—joined the JPA by 2007. Current JPA members are: the cities of Chula Vista, Coronado, Del Mar, El Cajon, Imperial Beach, La Mesa, National City, Poway, and Lemon Grove (representing the Lemon Grove Sanitation District); the Otay and Padre Dam Municipal Water Districts; and the County of San Diego (representing the San Diego County Sanitation District).

Unlike the voluntary character of the Metro Commission, the JPA is a legal entity that is effective in addressing regional wastewater issues. The JPA is able to retain technical consultants and to audit the Metro System. The JPA and the Commission share a Metro Technical Advisory Committee (Metro TAC) composed of public works and engineering specialists from the JPA member agencies. The Metro TAC monitors implementation of the City of San Diego Metropolitan Wastewater Plan and Metro System engineering and fiscal practices.

The Metro Commission and Metro JPA meet jointly, usually on the first Thursday of each month, and partner with the City of San Diego for planning and budget development for the Metro Wastewater System.

LAFCO does not have jurisdiction over the San Diego Area Wastewater Management District, METRO Commission, or METRO Wastewater JPA; nevertheless, San Diego LAFCO is required to notify the Wastewater Management District of all jurisdictional changes that involve the District’s member agencies.

Profile

The San Diego Association of Governments (SANDAG) is a voluntary Council of Governments (COG). The region’s 18 cities and the County of San Diego cooperate as SANDAG to provide comprehensive, coordinated planning for the San Diego region. SANDAG prepares area-wide plans for transportation, open space, housing, water quality, air quality, and energy together with development policies and regional growth forecasts.

The 21-member SANDAG Board of Directors is composed of one mayor or one council member from each city and two county supervisors. The City of San Diego, as the jurisdiction with the largest population, has two members on the SANDAG Board.

The Board also includes non-voting advisory representatives from Imperial County, the U.S. Department of Defense, Caltrans, San Diego Unified Port District, Metropolitan Transit System, North County Transit District, San Diego County Water Authority, Southern California Tribal Chairmen’s Association, and Mexico.

The Board is assisted by a professional staff of planners, engineers, and research specialists who maintain an extensive demographic data base that is used for area-wide planning and special projects for member agencies. SANDAG also serves as the area-wide clearinghouse for federal and state grant applications; the Regional Criminal Justice Clearinghouse; and the Airport Land Use Commission.

SANDAG is the designated Regional Transportation Planning Agency and has responsibility for administering a one-half percent local transportation sales tax (TransNet), which was approved by voters in 1987 and extended in 2004.

Background

SANDAG’s precursor, the Comprehensive Planning Organization (CPO), was created as a JPA in 1966 and functioned as a long-range planning department within San Diego County government. In 1970, the State designated CPO as the Metropolitan Planning Organization to assure area-wide coordination and to serve as the technical and informational resource for local governments. In 1971, the State designated CPO as the Regional Transportation Planning Agency; Airport Land Use Commission; and Area-wide Clearinghouse for federal/state grant reviews. The CPO JPA was modified in 1972 to secure financing from member agencies and establish CPO as an independent Agency. In 1975, CPO adopted its first comprehensive Regional Transportation Plan. CPO was renamed SANDAG in 1980.

On January 1, 2003, State Law (SB 1703) consolidated the functions of the Metropolitan Transit Development Board and the North San Diego County Transit Development Board with the roles and responsibilities of SANDAG. The consolidation allows SANDAG to assume transit planning, funding allocation, project development, and eventually construction for the entire region.

*LAFCO does not have purview over SANDAG.*

The San Diego County Board of Education is responsible for coordinating educational programs within K-thru-12 and Community College Districts in San Diego County. The elected six-member Board, which is authorized by State Law, State Board of Education regulations, and the County of San Diego Charter, is the governing body for the San Diego County Office of Education/Office of County Superintendent of Schools. The Board of Education provides professional and financial assistance to school districts and is charged with enforcing minimum standards; improving educational programs; and promoting order and reasonable uniformity in educational programs according to Education Code § 1700 et seq. The San Diego County Board of Education oversees 47 districts:

- **Elementary School Districts**
  1. Alpine Union School District
  2. Bonsall Union School District
  3. Cajon Valley Union School District
  4. Cardiff School District
  5. Chula Vista Elementary School District
  6. Dehesa School District
  7. Del Mar Union School District
  8. Encinitas Union School District
  9. Escondido Union School District
  10. Fallbrook Union Elementary School District
  11. Jamul-Dulzura Union School District
  12. Julian Union School District
  13. Lakeside Union School District
  14. La Mesa-Spring Valley School District
  15. Lemon Grove School District
  17. Rancho Santa Fe School District
  18. San Pasqual Union School District
  19. San Ysidro School District
  20. Solana Beach School District
  21. South Bay Union School District
  22. Spencer Valley School District
  23. Vallecitos School District

- **High School Districts**
  1. Escondido Union High School District
  2. Fallbrook Union High School District
  3. Grossmont Union High School District
  4. Julian Union High School District
  5. San Dieguito Union High School District
  6. Sweetwater Union High School District

- **Unified School Districts**
  1. Borrego Springs Unified School District
  2. Carlsbad Unified School District
  3. Coronado Unified School District
  4. Mountain Empire Unified School District
  5. Oceanside Unified School District
  6. Poway Unified School District
  7. Ramona Unified School District
  8. San Diego Unified School District
  9. San Marcos Unified School District
  10. Valley Center-Pauma Unified District
  11. Vista Unified School District
  12. Warner Unified School District

- **Community College Districts**
  1. Grossmont-Cuyamaca Community College District
  2. Miracosta Community College District
  3. Palomar Community College District
  4. San Diego Community College District
  5. Southwestern Community College District

LAFCO has limited purview over the County Board of Education or school districts. LAFCO may initiate a school district unification or reorganization and is required to provide mailed notice regarding applications for proposed jurisdictional changes to agencies that do come under LAFCO purview, to superintendents of school districts that overlay subject areas, and to the county committee on school district organization (Govt. Code § 56658(b) and Education Code § 35721(e)).

**Profile**

The San Diego County Regional Fire Authority (SDCFA) was created by the County Board of Supervisors, …to unify the administrative support, communications, and training of 15 rural fire agencies and extend “around-the-clock” protection to 1.5 million acres of the unincorporated county that previously had either limited, or part-time on-call protection, by 2012.

The SDCFA was established in July 2008 as a 1.56 million-acre zone of unincorporated territory within County Service Area (CSA) No. 135 (Regional Communications). The CSA, which includes the entire unincorporated area and 10 of the county’s 18 cities was authorized to support a regional communication system. The Board of Supervisors had authority to create the SDCFA zone within the county-dependent CSA; however, activating the district’s unexercised latent powers for fire protection and emergency medical service (EMS) required approval from LAFCO (see CSA No. 135). A county proposal to implement the first step of a three-step county plan to provide fire protection services within the SDCFA zone was approved by LAFCO in October 2008.

Latent powers for fire protection and EMS were activated within 942,818 acres—approximately 60 percent of the SDCFA zone—including unincorporated territory where the De Luz, Intermountain, Ocotillo Wells, Ranchita, Shelter Valley, Sunshine Summit, and Warner Springs Volunteer Fire Departments provided emergency services. The Volunteer operations were integrated into the SDCFA as contract-providers.

Contract for volunteer services and contracts with the California Department of Forestry and Fire Protection (CAL FIRE) for increased CAL FIRE presence within the SDCFA are funded with County discretionary funds through the **County Fire Enhancement Program.** The Program has distributed new fire equipment and apparatus to the volunteer operations and to fire protection agencies in the unincorporated area, which are outside of the SDCFA.

The SDCFA is administered by the Executive Office of the County Public Safety Group; the Public Safety Group Deputy Chief Administrative Officer (DCAO) is the County Fire Warden. The San Diego Unit Chief for CAL FIRE was appointed SDCFA Fire Chief and reports directly to the DCAO. The Fire chief is responsible for SDCFA operational control, administration, and leadership.

Per the published SDCFA plan, a second proposal to expand the latent powers area from approximately 60 percent to 70 percent of the SDCFA and reorganize CSA No. 109 (Mt. Laguna); CSA No. 110 (Palomar Mtn.); CSA No. 111 (Boulevard); and CSA No. 112 (Campo) under the latent powers area of CSA No. 135 will be proposed in 2011. A third proposal, to expand the latent powers area to include the remaining zone and reorganize the Pine Valley and San Diego Rural FPDs into the SDCFA, will be submitted to LAFCO in 2011 or 2012.

LAFCO has discretionary authority over activation and expansion of latent powers within CSA No. 135. LAFCO has no purview over the SDCFA zone.

Profile

The San Diego Flood Control District was created by the San Diego Flood Control District Act of 1966. The special legislation established a district with a boundary, which was coterminal with the 1966 unincorporated area of San Diego County. New legislation in 1985 amended the 1966 Act and created a San Diego Flood Control District over a contemporary unincorporated area, which had decreased in size since 1966 through incorporation and annexation.\(^1\)

The 1985 legislation stipulated that unincorporated territory, which subsequently incorporated or annexed to a city, would automatically detach from the Flood Control District and relevant property tax revenue would transfer to the city. Cities, which are automatically detached from the Flood Control District, may rejoin the Flood Control District for special purposes and subsequently disengage from the District at the city’s discretion.

The San Diego County Board of Supervisors functions as the Board of Directors for the District. A seven-member Advisory Commission, which is appointed by the Board of Supervisors (one member each from: Supervisory Districts 1, 3, and 4; two members each from: Supervisory Districts 2 and 5) advises the Board on district issues.

The San Diego Flood Control District is empowered to establish facilities for controlling and conserving flood and storm waters; to protect harbors, waterways, highways, property, and life from flood and storm waters; and to protect beaches and shorelines from erosion. The District maintains approximately 60 miles of pipes, channels, and boxes at approximately 1,600 locations in the unincorporated area.

Prior to 1985, San Diego LAFCO was responsible for approving boundary changes to the San Diego County Flood Control District. LAFCO oversight was removed when the Flood Control District Act of 1985 implemented automatic detachment provisions.

Profile

The San Diego County Regional Airport Authority Act of 2001 established the San Diego Regional Airport Authority as a local governmental entity with jurisdiction extending throughout the County of San Diego.¹ Ownership and operational responsibility for the San Diego International Airport was transferred from the San Diego Unified Port District to the Airport Authority on January 1, 2003.

Legislation creating the Airport Authority directs the Authority in three responsibility areas: (1) operating the San Diego International Airport; (2) planning for the region’s future air transportation needs; and (3) serving as the region’s Airport Land Use Commission.

The Regional Airport Authority is governed by an appointed nine-member Board of Directors and three ex-officio members. Board members represent elected officials from the City of San Diego and cities from four geographic regions in San Diego County. Public members are appointed by the City of San Diego Mayor, the San Diego County Sheriff (Sheriff appointees must be confirmed by the Board of Supervisors), and the Governor (gubernatorial nominees must be confirmed by the Senate). Ex-officio members represent the United States Navy; CALTRANS, District 11; and the California Department of Finance. Board members serve three-year terms and they may be reappointed.

The Airport Land Use Commission, which meets separately from the Authority Board, is responsible for ensuring that plans for land uses in areas surrounding the County’s 16 airports contain elements to minimize the public’s exposure to safety hazards and excessive noise.

The Airport Authority is funded exclusively through user fees and does not receive local tax revenues. The Authority’s operating expense for Fiscal Year 2007 was $138 million. The Authority has approximately 367 employees.

LAFCO does not have purview over The San Diego County Regional Airport Authority.

¹ Public Utility Code § 170000 et seq.
Profile

The San Diego County Water Authority (SDCWA) was organized in 1944 by five San Diego cities and four special districts and confirmed by the agencies’ voters. The SDCWA was created to administer the region’s Colorado River water rights, to import water, and to assume future operational responsibility for a Navy-built pipeline that would transport imported water into San Diego County. SDCWA joined the Metropolitan Water District of Southern California (MWD) in 1946 and Colorado River water that was purchased from MWD reached the San Diego region in 1947 via a 71-mile pipeline from the Colorado River Aqueduct in Riverside County. Four additional pipelines were constructed between 1954 and 1982 and SDCWA membership increased to 24 member agencies.

SDCWA is a regional water wholesaler; the Authority has no retail customers. Approximately 90 percent of the region’s water supply is purchased from MWD and resold to SDCWA’s member agencies for retail distribution. Remaining water supplies come from local sources including groundwater, local surface water, recycled water, seawater desalination, and conservation programs.

SDCWA is governed by a board of directors that consists of appointed representatives from member agencies. Voting entitlement is based on the member agency’s...total financial contribution... to the Authority since 1944. Each board member may cast one vote for each $5 million of financial contribution. Under this formula, the City of San Diego has a voting entitlement of approximately 42 percent; the next highest contributor has a voting entitlement of approximately eight percent.

2010 SDCWA member agencies:
1. Carlsbad Municipal Water District
2. City of Del Mar
3. City of Escondido
4. Fallbrook Public Utility District
5. Helix Water District
6. Lakeside Water District
7. City of National City **
8. City of Oceanside
9. Olivenhain Municipal Water District
10. Otay Water District
11. Padre Dam Municipal Water District
12. Camp Pendleton Marine Corps Base
13. City of Poway
14. Rainbow Municipal Water District
15. Ramona Municipal Water District
16. Rincon del Diablo Municipal Water District
17. City of San Diego
18. San Dieguito Water District
19. Santa Fe Irrigation District
20. South Bay Irrigation District **
21. Vallecitos Water District
22. Valley Center Municipal Water District
23. Vista Irrigation District
24. Yuima Municipal Water District

A member of the San Diego County Board of Supervisors serves as ex-officio member

** JPA member of the Sweetwater Authority

LAFCO has purview over some aspects of SDCWA boundary change; however, SDCWA is exempt from conducting authority proceedings (commencing with Government Code § 57000).

1 Formed under, County Water Authority Act: (Stats. 1943: Water Code Appendix, Chapter 45)
SAN ELIJO JOINT POWERS AUTHORITY

Profile

The San Elijo Joint Powers Authority was created by a 1986 Joint Powers Agreement (JPA) between the City of Solana Beach and the City of Encinitas. The Authority owns and operates the San Elijo Water Reclamation Facility (SEWRF) in the City of Encinitas.

The Reclamation Facility was constructed in 1965 and originally operated by the County of San Diego as the San Elijo Water Pollution Control Facility. The Facility served the unincorporated communities of Solana Beach and Cardiff-by-the Sea. When the cities of Encinitas and Solana Beach incorporated in 1986, the facility was transferred from the County to the San Elijo JPA.

The facility’s service area covers approximately 19 square miles and includes a population of approximately 32,000 residents. Wastewater from the City of Solana Beach, an area of the City of Encinitas, and an area of the unincorporated community of Rancho Santa Fe is transported to the SEWRF for treatment and recycling or disposal via the San Elijo Ocean Outfall. The San Elijo Joint Powers Authority and the City of Escondido co-own the ocean outfall line.

The Authority opened a 2.48 million gallon per day (mgd) tertiary treatment system in 2000 and subsequently has annually produced more than 1,200 acre-feet of reclaimed water for landscape, golf course, and industrial uses within the City of Del Mar, the San Dieguito Water District, and the Santa Fe Irrigation District.

The San Elijo Joint Powers Authority is governed by a four-member Board of Directors. Directors are appointed annually; two from the City of Encinitas and two from the City of Solana Beach.

LAFCO does not have purview over Joint Powers Authorities.

Profile

The Sweetwater Authority was established in 1972 by a Joint Powers Agreement (JPA) between the City of National City and the South Bay Irrigation District (SBID). The Authority owns and operates a water system that includes the Sweetwater and Loveland Dams and a distribution network covering the City of National City, the western portion of the City of Chula Vista, and the unincorporated Sweetwater Valley. The Authority also provides recreational services in association with the Sweetwater Reservoir.

The Sweetwater Authority is a discrete entity, independent from the City of National City and the SBID; however, the Authority’s access to imported water is secured by National City and SBID memberships in the San Diego County Water Authority (SDCWA). The Sweetwater Authority’s seven-member governing board consists of the five SBID Directors and two National City registered voters, who are appointed at large by the National City Mayor and confirmed by the Council.

BACKGROUND

The California-American Water Company and antecedent owners operated a private water storage and distribution system, which had supplied National City, Chula Vista, and adjacent unincorporated areas with local water since the 1860s. When the SDCWA brought Colorado River water to San Diego County in 1947, the private water enterprise was not entitled to the publicly funded imported water. National City and Chula Vista had entitlement to imported water as members of the SDCWA; however, there was no practical way to distribute water to the two cities and exclude the adjacent unincorporated areas from the private distribution system.

Voters formed the SBID in 1951 with a boundary that included Chula Vista and the adjacent unincorporated territory. Chula Vista relinquished its SDCWA membership to the SBID and the SBID in turn awarded a franchise to the private water company to distribute imported SDCWA water.

In successive years, concerns about water quality led the SBID to pursue acquisition of the private system through eminent domain and the Sweetwater Authority was created in 1972 in anticipation of public ownership. Following a favorable judgment in 1977, SBID voters approved $22.5 million in revenue bonds to purchase the private California-American Water Company and to finance needed system improvements. Although National City had participated in the legal actions, National City voters did not approve bonds to partner in the purchase. SBID took title and subsequently leased the water system to the Sweetwater Authority. Authority voters—inclusive of National City voters—approved bonds to assume the outstanding SBID bond debt in 1990 and title passed to the Sweetwater Authority.

LAFCO does not have purview over the Sweetwater Authority; however, reorganizations involving the City of National City and SBID generally must be approved by San Diego LAFCO, SDCWA, and the Metropolitan Water District of Southern California.

UNIFIED PORT DISTRICT OF SAN DIEGO

Profile

The Unified Port District of San Diego was established in 1962 by special legislation (San Diego Unified Port District Act of 1962; Stats. 1962, 1st Ex. Sess., c. 67) to oversee all navigable waters, tidelands, and submerged lands surrounding San Diego Bay and to operate Lindberg Field (San Diego International Airport). Formation of the Port District was subsequently confirmed by local voters. Responsibility for the San Diego International Airport was transferred to the San Diego County Regional Airport Authority in January 2003.

The Unified Port District of San Diego is responsible for managing and improving harbors and ports within 33 miles of tide and submerged lands within San Diego Bay and surrounding waterfront lands belonging to the cities of Chula Vista; Coronado; Imperial Beach; National City; and San Diego. The Port District does not administer all San Diego Bay tidelands; the U. S. Navy, Coast Guard, and Marine Corps occupy significant bay area.

The Port District is governed by a seven-member Board of Port Commissioners who are appointed to four-year terms of office. The city councils of Chula Vista, Coronado, Imperial Beach and National City each appoint one commissioner to the Port District; the City of San Diego council appoints three commissioners.

Waterfront areas that are managed by the Port District are classified as state public trust lands and, accordingly, must serve a state-wide public purpose, which generally is related to water dependent uses. The District oversees two maritime cargo terminals, a cruise ship terminal, 17 public parks, and numerous wildlife reserves, and administers tenant-leases for more than 600 businesses on Port District land.

The Port District is the law enforcement authority within Port District territory; jurisdiction of the Port District Harbor Police extends into the District’s five member cities and includes the San Diego International Airport.

Between 1963 and 1969, the Port District imposed a property tax rate to fund capital improvement projects. Since 1970, management and lease revenues have funded district operations and provided $1.5 billion in public improvements within the five member cities.

LAFCO does not have purview over the Unified Port District of San Diego; however, reorganizations involving the Cities of Chula Vista, Coronado, Imperial Beach, National City and San Diego, including tidelands within those jurisdictions generally must be approved by LAFCO.

California Water Districts are empowered to acquire and operate works for production, storage, transmission, and distribution of water for irrigation, domestic, industrial, and municipal purposes, and to acquire and operate drainage or reclamation works connected with such undertakings; to acquire and operate facilities and services for collection, treatment, and disposal of sewage, waste, and storm waters; and to perform all acts necessary or proper to fully implement provisions of California Water District statutes.

1. Borrego (California) Water District
2. Cuyamaca (California) Water District
3. Wynola (California) Water District

**LP** Service authorized as *latent power* (see Index U).

**LP** Service authorized as *latent power* exclusively within the Borrego Water District (WD). The State Legislature authorized that services beyond the range of services provided by Water Code § 34000 et seq., be available to the Borrego WD. LAPCO approved activation of each service within the Borrego WD subsequent to each special act of the Legislature.
Cemetery Districts are empowered to own, operate, improve, and maintain cemeteries within the
district boundary and to provide internment services. A legislative body of at least three members,
known as the Board of Trustees, govern Cemetery Districts. Trustees are appointed by the County
Board of Supervisors; the Board of Supervisors may appoint itself as the Board of Trustees.
The Community Services District principal act enumerates more than 30 separate and distinct types of services that Community Services Districts (CSD) are entitled to provide. Generally, Community Services Districts are authorized to provide one, two—or uncommonly, more—separate services. From the numerous services authorized, Community Services Districts in San Diego County provide the eight services listed below.

LP  Service authorized as latent power (see Index U).
County Sanitation Districts (SD) may acquire, construct, and operate facilities for wastewater treatment and disposal and refuse transfer and disposal; provide services for cleaning and sweeping roads and streets within the boundaries of the district; and acquire and operate facilities for production, treatment, storage, and distribution of water supplies.

County Sanitation Districts, which contain only unincorporated territory and do not overlay a sanitary district, are governed by county boards of supervisors. Only one County Sanitation District in San Diego County—the San Diego County Sanitation District—meets this criteria. The Buena (County) Sanitation District, which was established in unincorporated territory in 1960, was originally governed by the Board of Supervisors; however, the 1963 incorporation of the City of Vista included Buena SD territory and additional district territory has annexed to the City until a substantial amount of district territory was within the City of Vista. In 1998, County Supervisors withdrew from the Buena SD Board and designated the Vista City Council as the District Board of Directors as authorized by Health and Safety Code § 4730.

Similarly, the Lemon Grove (County) Sanitation District primarily overlays the City of Lemon Grove and contains minimal unincorporated territory. The District is governed by the Lemon Grove City Council under provisions in County Sanitation District law that permit county supervisors to designate a city council as a district board of directors if city population accounts for more than one-half of the total district population [see Lemon Grove (County) and Buena (County) Sanitation Districts].

1. Buena (County) Sanitation District
2. Lemon Grove (County) Sanitation District
3. San Diego County Sanitation District
County Service Areas (CSA) are governed by county boards of supervisors. County Service Areas (CSA) may be established to provide one or more of the following types of extended services within an unincorporated area: (1) extended police protection; (2) structural fire protection; (3) local park, recreation, or parkway facilities and services; (4) extended library facilities and services; (5) television translator station facilities and services; (6) low-power television services; and (7) any other governmental services, referred to as miscellaneous extended services, that the county is authorized by law to perform, and which the county does not also perform to the same extent on a county-wide basis, both within and beyond city boundaries. Sixteen CSAs in San Diego County provide seven services.

**LP** Service authorized as latent power (see Index U).
County Water Districts are empowered to store and conserve water, protect water rights, and to operate waterworks in efforts to furnish sufficient water for present or future beneficial use throughout a county water district. County Water Districts may also: (1) generate and sell electric power; (2) acquire and operate facilities related to wastewater and storm water treatment and disposal; (3) drain and reclaim land; (4) provide fire protection services; and (5) acquire and operate facilities ancillary to recreational use of water.

1. Canebrake County Water District
2. Coachella Valley (County) Water District
3. Leucadia (County Water) Wastewater District
4. Vallecitos (County) Water District
Fire Protection Districts are specifically empowered to provide: (1) fire protection services; (2) emergency medical services; (3) rescue services; (4) hazardous material emergency response services; (5) ambulance services pursuant to Division 2.5 of the Health and Safety Code; and (6) any other services relating to the protection of lives and property.

See Index E: County Service Area, and Index J: Municipal Water District for special districts created under alternative principal acts, which provide fire protection and EMS services in San Diego County.

---

1 California Department of Forestry and Fire Protection (CAL FIRE) under contract; subsidized by County of San Diego Fire Enhancement Program.

2 Contract with City of National City fire department.

3 San Marcos FPD is a subsidiary of the City of San Marcos.

4 Vista FPD and City of Vista fire department maintain a JPA; the City provides services in both areas.

5 FPD provides ambulance transport under a exclusive operating area (EOA) contract administered by County Office of Emergency Services (OES).
Health Care Districts may establish, maintain, and operate or provide assistance in operating health facilities or services, including but not limited to: outpatient programs, services, and facilities; retirement programs; chemical dependency programs, services, and facilities; or other healthcare programs, services, or facilities. Health Care Districts may also provide activities at any location inside and outside the district to benefit the District and people served by the District; acquire, maintain, and operate ambulances and ambulance services in-and-outside the District; and to establish nurse training schools and childcare facilities for the benefit of hospital employees and residents of the District.

* Health and Safety Codes were amended in 1994 to change Local Hospital District Law to Local Health Care District Law.
Irrigation Districts may act to: (1) furnish sufficient water within the district for any beneficial use; (2) put water under district control to any beneficial use; (3) provide drainage for district irrigation; (3) acquire and operate electric generation and transmission plants; (4) acquire and operate airports or aviation schools; (5) maintain or operate recreational facilities in connection with dams, reservoirs, or other district works owned or controlled by the district; and (6) reclaim wastewater for beneficial use. If approved by district voters irrigations districts may provide sewage disposal; districts of 200,000 or more acres may operate flood control works.

1 Distribution of reclaimed wastewater purchased from the San Elijo Water Pollution Control Facility (see San Elijo Joint Powers Authority).
2 South Bay Irrigation District provides no direct service. Although empowered to provide water, hydroelectric, and park and recreation services the District’s primary functions are to (1) uphold a joint powers agreement with the City of National City, which establishes the Sweetwater Authority; and (2) convey entitlement to imported water to the Sweetwater Authority (see Sweetwater Authority).
Municipal Water Districts may: (1) acquire, control, distribute, store, treat, recycle, recapture and salvage any water, including wastewater and storm waters for the beneficial use of the district, district inhabitants, or owners of rights-to-water within the district; (2) construct and operate recreational facilities appurtenant to district facilities; (3) construct and operate hydroelectric facilities and services; (4) exercise all powers pursuant to the Fire Protection District Law of 1987 (Health and Safety § 13800 et seq.); (5) provide for collection, treatment, and disposal of sewage, waste, and storm water; and (6) engage in collection and disposal of garbage, waste, and trash. A Municipal Water District may contain any combination of unincorporated and city territory.

1. Carlsbad Municipal Water District
2. Mootamai Municipal Water District
3. Olivenhain Municipal Water District
4. Otay (Municipal) Water District
5. Padre Dam Municipal Water District
6. Pauma Municipal Water District
7. Questhaven Municipal Water District
8. Rainbow Municipal Water District
9. Ramona Municipal Water District
10. Rincon del Diablo Municipal Water District
11. San Luis Rey Municipal Water District
12. Valley Center (Municipal) Water District
13. Yuima Municipal Water District

1 Water rights protection only
Public Utility Districts may construct and operate works for supplying district inhabitants with light, water, power, heat, and transportation services; telephone or other means of communication services; and for disposal of garbage, sewage, and refuse. Public Utility Districts may also provide park and recreation facilities and services including golf courses and swimming pools; and provide for fire protection services, street lighting, and paving and drainage of roads, streets, and public places.

---

**Index K**

**Public Utility District**

**Public Utility Code § 15501—18055**

---

LP  Service authorized as latent power (see Index U).
Recreation and Park Districts may: (1) organize, promote, conduct, and advertise programs of community recreation, including, but not limited to, parks and open space, parking, transportation, and other related services that improve the community’s quality of life; (2) establish systems of recreation and recreation facilities, including but not limited to, parks and open space; and (3) acquire, construct, improve, maintain, and operate recreation facilities, including, but not limited to, parks and open space, both inside and beyond the district’s boundaries.

The Lake Cuyamaca Recreation and Park District is specifically authorized by special legislation to oversee water recharge activities that preserve recreational areas and to develop the recreational potential of Lake Cuyamaca (Chapter 1654 of the Statutes of 1961, as amended by Chapter 1982 of the Statutes of 1963, as amended by Chapter 328 of the Statutes of 1978, as amended by Chapter 354 of the Statutes of 1979 and as amended by Section 3 of Chapter 96 of the Statutes of 1999) (see Section I: Lake Cuyamaca Recreation and Park District).
Resource Conservation Districts may be formed for the control of runoff; prevention or control of soil erosion; development and distribution of water; and improvement of land capabilities. With consent directors may make improvements or conduct operations on public and private lands for: further prevention or control of soil erosion; water conservation and distribution; agricultural and wildlife enhancement; and stabilization of erosion. Directors may disseminate information relating to soil and water conservation and erosion stabilization; conduct demonstration projects; and provide technical assistance to private landowners or occupants.

1. Mission Resource Conservation District
2. RCD of Greater San Diego County
3. Upper San Luis Rey Resource Conservation District
Small Craft Harbor Districts may establish, maintain, and operate harbors and all facilities appurtenant, connected or incidental thereto, including, but not limited to: (1) dredging of channels, shipways, and basins etc.; (2) acquisition and maintenance of jetties, breakwaters, bulkheads, seawalls, parkways, marinas, beach parks, and other recreational facilities; (3) acquisition, operation, and regulation of fueling, loading, repair, warehouse, and other facilities, equipment, or property necessary or incidental to operating a harbor; and (5) acquisition and operation of fireboats, sanitary, and other facilities necessary for the proper protection of the harbor.

30. Yuima Municipal Water District
Independent special districts have legislative bodies with members elected by registered or landowner voters within the district. Alternatively, members may be appointed to fixed terms (Govt. Code § 56044).

Dependent special districts have legislative bodies consisting, in whole or in part, of ex officio members who are officers of a county or other local agency or appointees to non-fixed terms (Govt. Code § 56044).

A subsidiary district of a city may be established if at least 70 percent of district territory and 70 percent of district registered voters are within the subject city (Govt. Code § 57105).

LAFCO oversight of special district formation was established by the Knox-Nisbet Local Agency Formation Commission Act of 1963. The Knox-Nisbet Act, which was passed by the biennial State Legislature during the 1963 six-month general session, established local agency formation commissions (LAFCO) in each county. The Knox-Nisbet Act was sequentially revised over 37 years and comprehensively reworked in 2000 to emerge as the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000.

Date reflects LAFCO-approved reorganization that changed the jurisdictional status of an established district. Antecedent agencies of the reorganized district, which were consolidated or otherwise reorganized by the LAFCO approval, were generally formed prior to 1963 legislation establishing LAFCO oversight.

a San Diego County Water Authority (see Section II: Agencies With Limited or No LAFCO Review)
b May also store imported water.
Latent powers are unexercised functions or classes of services, which are authorized by the district principal act. LAFCOs regulate activation and divestiture of the power to provide functions or classes of service within all or part of a special district. Commission proceedings for activation or divestiture are initiated by a resolution of application from a special district according to Govt. Code § 56824.12.

INTRODUCTION Special districts are part of the dynamic organization of governmental agencies that changes over time; the roster of special districts in San Diego County must be continually updated to reflect current circumstances.

Many districts cease to exist because they are dissolved—either as discrete actions or as part of reorganizations that transfer a dissolved district’s powers to a successor agency. In other situations, the identity of an individual special district is obscured by consolidation. Consolidated agencies may adopt the name of one of the parent districts or take on an entirely new name. When a special district is merged with a city, the district forfeits its identity and district responsibilities become a city function. Finally, in a few instances a special district operates under a name that is different than the name authorized at formation. Some districts informally drop part of their name such as the word Municipal from Municipal Water District; while others have adopted entirely new district names.

- **Consolidation**: Uniting or joining two or more special districts into a single new successor district. The consolidating districts do not need to be formed under the same principal act (Government Code § 56030).
- **Dissolution**: Dissolution, disincorporation, extinguishment, and termination of the existence of a special district, and the cessation of all its corporate powers, except for the purpose of concluding the district’s affairs (Government Code § 56035).
- **Merger**: Extinguishment, termination, and cessation of the existence of a district of limited powers by merger of the district with a city (Government Code § 56056).
- **Renamed**: Altering the original name of a special district without a jurisdictional change (see Index W: Special Districts Operating Under Alternative Name).

### 4S Ranch Sanitation District
Dissolved; Function assumed by Olivenhain MWD, 1998

The 4S Ranch Sanitation District was formed in 1987 to provide wastewater services within 640 acres of unincorporated territory south of Lake Hodges. The county-dependent 4S Ranch SD and Rancho Cielo SD were both located within the boundary of the Olivenhain Municipal Water District (MWD). Both Sanitation Districts were dissolved in 1998 and the Olivenhain MWD was concurrently authorized to provide wastewater services as a latent power. Wastewater service is restricted to two areas that replicate the boundaries of the former sanitation districts. (see Rancho Cielo Sanitation District)

### Alpine County Sanitation District
Dissolved; Function assumed by San Diego County Sanitation District, 2011

The Alpine County Sanitation District (SD) was formed in 1952 as a county-dependent district to provide wastewater services within approximately 1.5 square miles of the unincorporated east-county community of Alpine. The County of San Diego is a member of the San Diego METRO Wastewater JPA and wastewater flows originating with the SD were transported to the City of San Diego Pt. Loma facility for treatment and disposal in the ocean outfall. In 2011, the Alpine, Julian, Lakeside, and Pine County SDs were dissolved and the service area of each district was annexed to the Spring Valley County SD. The Spring Valley SD was subsequently renamed the San Diego County Sanitation District (see San Diego County SD).
INDEX V
CONSOLIDATED, DISSOLVED, OR Merged SPECIAL DISTRICTS

ALPINE HIGHLANDS WATER DISTRICT
Dissolved; Function assumed by Padre Dam MWD, 1986

The Alpine Highlands Water District (WD) was formed as a California Water District in 1957 to distribute groundwater to residents within 204 acres in the unincorporated community of Alpine. As groundwater levels in the area declined, territory within the Alpine Highlands WD annexed to the Rio San Diego Municipal Water District (MWD) creating overlapping water agencies. The Rio San Diego MWD was subsequently reorganized with and emerged as the Padre Dam MWD. In 1986, the Alpine Highland WD was dissolved and responsibility transferred to the Padre Dam MWD (see Index V: Rio San Diego MWD).

BORREGO SPRINGS PARK COMMUNITY SERVICES DISTRICT
Consolidated with Borrego Water District; 2009

The Borrego Springs Park Community Services District (CSD) was formed in 1965 to provide domestic water service, wastewater treatment, and trash collection services within a 1,210-acre resort/residential development in the unincorporated community of Borrego Springs. In 1981, the Borrego Springs Park County Water District (CWD) was dissolved and service responsibility transferred to the CSD. The CSD consolidated with the Borrego Water District in 2009; the successor agency operates as the Borrego Water District (see Index V: Borrego Springs Park CWD).

BORREGO SPRINGS PARK COUNTY WATER DISTRICT
Dissolved; Function assumed by Borrego Springs Park CSD, 1981

The Borrego Springs Park County Water District (CWD) was formed in 1963, by unanimous vote of the six registered voters who resided within the boundary of the proposed district. The CWD, which contained 1,200 acres located east of the unincorporated community of Borrego Springs, provided domestic water from local ground water sources and wastewater collection and treatment services. District boundaries were contiguous with the Borrego Springs Park Community Services District (CSD). In 1981, the Borrego Springs Park CWD was dissolved and service responsibility transferred to the Borrego Springs Park CSD. (see Index V: Borrego Springs Park CSD).

BORREGO VALLEY MOSQUITO ABATEMENT DISTRICT
Dissolved; Function assumed by Borrego Water District, 1985

The Borrego Valley Mosquito Abatement District was formed in 1961 to provide vector control services to the unincorporated communities of Borrego Springs, Borrego Wells, and Ocotillo. The District’s primary responsibility was to control gnat and mosquito populations in recreational facilities; when special legislation in 1982 empowered the Borrego Water District to provide pest abatement services, the Mosquito Abatement District was dissolved and responsibility transferred to the Borrego Water District. Dissolution of the Mosquito Abatement District was not completed until 1985.

BOSTONIA FIRE PROTECTION DISTRICT
Consolidated with Crest FPD, 1994

The Bostonia Fire Protection District (FPD) was formed in 1949 to provide structural fire protection and emergency medical services within approximately 490 acres of unincorporated territory on the northern boundary of the
City of El Cajon. The Boards of Directors of the Bostonia and Crest FPDs adopted unanimous resolutions to consolidate the discontiguous agencies in 1994. The successor district took the name of East County FPD (see Index V: Crest FPD).

**Bueno Colorado Municipal Water District**
Dissolved; 1993

The Bueno Colorado Municipal Water District (MWD) was formed in 1954 to secure rights to imported water from the San Diego County Water Authority (SDCWA) and functioned as a wholesaler of imported water to the Vista Irrigation District (VID) and Vallecitos WD (formerly named the San Marcos County Water District). When Irrigation Districts became eligible to join SDCWA, the Bueno Colorado CWD became obsolete. The 1993 Bueno Colorado Municipal Water District/Vista Irrigation District Reorganization: dissolved the Bueno Colorado MWD; and annexed portions of the former MWD territory to either Carlsbad MWD, Vallecitos WD, or VID.

**Cardiff Sanitation District**
Dissolved; Function assumed by City of Encinitas, 2001

The Cardiff Sanitation District (SD) was established in 1953 as a county-dependent district to provide wastewater services within the unincorporated communities of Cardiff-by-the-Sea, Olivenhain, and Solana Beach. When significant portions of these communities were incorporated as the City of Encinitas in 1986, administration of the SD was assumed by the City; however, the SD continued to provide services to limited unincorporated territory. The Cardiff SD was dissolved in 2001 and wastewater service became a city function. The district parcels that were outside the City boundary continue to receive wastewater service from the City through irrevocable contracts with the City.

**Costa Real Municipal Water District**
Renamed Carlsbad Municipal Water District, 1990

The Carlsbad Municipal Water District was formed in 1954 and renamed the Costa Real MWD in 1979. The name was changed back to the original Carlsbad Municipal Water District in 1990 when the District was made subsidiary to the City of Carlsbad.

**County Service Area No. 1 (Whispering Palms)**
Dissolved; Function assumed by Whispering Palms CSD, 1987

CSA No. 1 (Whispering Palms) was formed in 1965 to provide landscape and maintenance services for street medians and to fund street lighting within an unincorporated area north of the City of San Diego. The CSA was dissolved in 1987 as a component of the Whispering Palms Reorganization, which also dissolved the Whispering Palms Sanitation District and formed the Whispering Palms Community Services District (see Index V: Whispering Palms Sanitation District).

**County Service Area No. 2 (La Costa)**
Dissolved; Function assumed by City of Carlsbad, 1986

CSA No. 2 (La Costa) was formed in 1965 to fund police protection, structural fire protection, local park and recreation facilities, and
street lighting facilities. The CSA was located adjacent to the City of Carlsbad. The District was dissolved in 1972 when the CSA territory was annexed to the City of Carlsbad and the City assumed responsibility for district services.

**County Service Area No. 3 (North Carlsbad)**
Dissolved; Function assumed by City of Oceanside, 1969

CSA No. 3 (North Carlsbad) was formed in 1966 to provide structural fire protection in an unincorporated area adjacent to the City of Oceanside. The CSA territory was annexed to Oceanside in 1967; however, CSA No. 3 was not dissolved until 1969.

**County Service Area No. 4 (Majestic Pines)**
Dissolved; Reorganized as Majestic Pines CSD, 1993

CSA No. 4 (Majestic Pines) was formed in 1966 to take over operation of a private water company. As a public agency, district voters were able to approve bonds to finance system upgrades. The 1,000-acre CSA provided potable water services with two developments near the unincorporated community of Julian. The CSA provided groundwater from two district wells. All administrative, operational, maintenance, and county overhead costs for the county-dependent district were funded by user fees. The 1993 Majestic Pines Reorganization dissolved the CSA with concurrent formation of the Majestic Pines Community Services District (CSD). CSA responsibility was transferred to the independent district and the CSD absorbed all operational costs.

**County Service Area No. 5 (High Valley)**
Dissolved; Function assumed by City of Poway, 1996

CSA No. 5 (High Valley) was formed in 1966 to assume road maintenance responsibility in an unincorporated area when the High Valley Mutual Water Company, which had built and maintained the roads, disincorporated. CSA territory was included in the 1980 incorporation of the City of Poway; however, CSA No. 5 was retained as the only practical way to provide maintenance for roads, which were not accepted in the City road system. The CSA was dissolved in 1996 when a city improvement district was created to continue road maintenance.

**County Service Area No. 6 (Pauma Valley)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 6 (Pauma Valley) was formed in 1966 to fund repair and maintenance of 0.5 mile of roadway in the unincorporated community of Rancho Pauma. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**County Service Area No. 7 (Rainbow Valley)**
Dissolved; Reorganized as North County FPD, 1987

CSA No. 7 (Rainbow Valley) was formed in 1967 to support a volunteer fire protection company that operated in the unincorporated area east of the community of Fullbrook and
south of the Riverside and San Diego County line. The CSA provided fire protection and emergency medical services to approximately 1,500 residents. A 1987 reorganization dissolved both the Rainbow Valley CSA and the Fallbrook Fire Protection District (FPD) and formed the North County FPD as successor agency.

**COUNTY SERVICE AREA NO. 8 (MAGEE ROAD)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 8 (Magee Road) was formed in 1967 to fund construction and maintenance for 3 miles of roadway in the unincorporated community of Pala. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 9 (SANTA FE)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 9 (Santa Fe) was formed in 1968 to provide road maintenance services and street lighting services within in an unincorporated area that incorporated as the City of Solana Beach in 1986. Responsibility for road maintenance transferred to the City; however, CSA No. 9 continued to provide street lighting in a restricted area until 2000 when the CSA was dissolved as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 10 (DAVIS DRIVE)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 10 (Davis Drive) was formed in 1968 to repair and maintain 0.3 mile of roadway. The CSA included approximately 21 acres in the northeastern portion of the unincorporated community of Fallbrook. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 11 (BERNARDO LANE)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 11 (Bernardo Lane) was formed in 1968 to repair and maintain 1.5 miles of roadway located southwest of the City of Escondido. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 12 (LOMAIR)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 12 (Lomair) was formed in 1968 to repair and maintain 1.3 miles of roadway located north of the City of Escondido and west of the unincorporated community of Valley Center. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road mainte-
INDEX V
CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS

The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 13 (PALA MESA AND STEWART CANYON ROAD)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 13 (Pala Mesa and Stewart Canyon Road) was formed in 1970 to repair and maintain 6.5 miles of roads within an area southeast of the unincorporated community of Fallbrook. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 14 (RANCHO SAN DIEGO)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 14 (Rancho San Diego) was formed in 1968 to repair and maintain 1.5 miles of roadway located southeast of the unincorporated community of Fallbrook, and southwest of CSA No. 13 (Pala Mesa and Stewart Canyon Road). The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 15 (VIA PUERTA DEL SOL)
Dissolved, 1978

CSA No. 15 (Via Puerta Del Sol) was formed in 1969 to finance one-time repairs to a roadway within the County-maintained road system. The CSA was dissolved in 1978 when the outstanding County loan to fund road improvements was satisfied.

COUNTY SERVICE AREA NO. 16 (WYNOLA)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 16 (Wynola) was formed in 1969 to repair and maintain 2.5 miles of roadway in the unincorporated community west of Julian. The CSA also funded the installation of streetlights within a self-contained subdivision. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 18 (HARRISON PARK)
Dissolved, Function assumed by County of San Diego, 2000

CSA No. 18 (Harrison Park) was formed in 1969 to repair and maintain 2.75 miles of roadway north of Lake Cuyamaca and west of the unincorporated community of Julian. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.
CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS

**COUNTY SERVICE AREA NO. 19 (RIO MONTE PARK)**
Dissolved, 1972

CSA No. 19 (Rio Monte Park) was formed in 1970 to provide maintenance and irrigation services for a proposed park that was to be developed in the unincorporated community of Lakeside. The park was not developed and CSA No. 19 was dissolved in 1972.

**COUNTY SERVICE AREA NO. 20 (DAILY ROAD)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 20 (Daily Road) was formed in 1970 to repair and maintain 19.5 miles of roadway and maintain streetlights within an area east of the unincorporated community of De Luz, between Camp Pendleton and the Riverside/San Diego County line. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 21 (PAUMA HEIGHTS)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 21 (Pauma Heights) was formed in 1970 to repair and maintain three miles of roadway in the unincorporated community of Valley Center, north of the City of Escondido. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 22 (WEST DOUGHERTY ST.)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 22 (West Dougherty Street) was formed in 1970 to repair and maintain 0.2 of a mile of roadway in the unincorporated community of Fallbrook. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 23 (ROCK TERRACE ROAD)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 23 (Rock Terrace) was formed in 1970 to maintain 0.14 mile of roadway in the unincorporated community of Alpine. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs that provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 24 (MT. WHITNEY ROAD)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 24 (Mt. Whitney Road) was formed in 1970 to repair and maintain 0.25 of a mile of roadway in the unincorporated area west of the City of Escondido. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs that provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.
INDEX V

CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS

COUNTY SERVICE AREA NO. 25 (JACUMBA)
Dissolved; Function assumed by San Diego Rural Fire Protection District, 1984
CSA No. 25 (Jacumba) was formed in 1970 to provide structural fire protection services to approximately 6,320 acres in the unincorporated community of Jacumba. In 1984, the District was dissolved and its service area annexed to the San Diego Rural Fire Protection District.

COUNTY SERVICE AREA NO. 27 (GLASGOW AVENUE)
Dissolved; Function assumed by County of San Diego, 1978
CSA No. 27 (Glasgow Avenue) was formed in 1970 to fund a one-time repair of roadway within the county-maintained road system. The CSA included approximately four acres within the unincorporated community of Cardiff-by-the-Sea. The CSA was dissolved in 1978 when an outstanding county loan for roadwork was satisfied and responsibility for maintenance was assumed by the County.

COUNTY SERVICE AREA NO. 28 (DATE STREET)
Dissolved; Function assumed by County of San Diego, 1978
CSA No. 28 (Date Street) was formed in 1971 to provide a one-time repair of roadway within the county-maintained road system. The CSA included approximately 9.3 acres in the unincorporated area bordering the City of Chula Vista in the community of Broderick Acres. The CSA was dissolved in 1978 when an outstanding county loan for roadwork was satisfied and responsibility for road maintenance was assumed by the County.

COUNTY SERVICE AREA NO. 29 (CORTEZ WAY)
Dissolved; Function assumed by County of San Diego, 1978
CSA No. 29 (Cortez Way) was formed in 1971 to provide a one-time repair of roadway within the county-maintained road system. The CSA included approximately 5.25 acres located in the unincorporated community of Casa de Oro. The CSA was dissolved in 1978 when an outstanding county loan for roadwork was satisfied and responsibility for maintenance was assumed by the County.

COUNTY SERVICE AREA NO. 30 (ROYAL OAK/CARROLL LN.)
Dissolved; Function assumed by County of San Diego, 2000
CSA No. 30 (Royal Oak and Carroll Lane) was formed in 1971 to repair and maintain 0.75 mile of roadway in the unincorporated area southeast of the City of Escondido. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 31 (ELTINGE DR.)
Dissolved; Function assumed by County San Diego, 1978
CSA No. 31 (Eltinge Drive) was formed in 1971 to provide a one-time repair of roadway within the county-maintained road system. The CSA included approximately 16 acres located in the unincorporated community of Alpine. The CSA was dissolved in 1978 when an outstanding loan for roadwork was satisfied and responsibility for maintenance was assumed by the County.
COUNTY SERVICE AREA NO. 32 (CARLTON HILLS)
Dissolved; Function assumed by City of Santee, 1980

CSA No. 32 was formed in 1971 to provide landscape improvement and maintenance services within an unincorporated area that was included in the 1980 incorporation of the City of Santee. As a component of incorporation, the CSA was dissolved and the City assumed responsibility.

COUNTY SERVICE AREA NO. 33 (SOLANA BEACH)
Dissolved; Function assumed by City of Solana Beach, 1986

CSA No. 33 (Solana Beach) was formed in 1971 to provide landscape maintenance services to the unincorporated community of Solana Beach. The CSA was dissolved as a component of the 1986 incorporation of the City of Solana Beach and responsibility for district services were transferred to the City.

COUNTY SERVICE AREA NO. 34 (EIGHTH STREET)
Dissolved; Function assumed by City of Encinitas, 1986

CSA No. 34 (Eighth Street) was formed in 1971 to provide road improvement and maintenance to Whisper Wind Drive in the unincorporated community of Olivenhain. The CSA was dissolved as a component of the 1986 incorporation of the City of Encinitas and responsibility for district services were transferred to the City.

COUNTY SERVICE AREA NO. 35 (LENTO LANE)
Not Formed

LAFCO approved the formation of CSA No. 35 (Lento Lane) in 1971; however, formation proceedings were not completed by the County and the CSA was not formed. The proposed CSA would have provided funding for improvements to 0.1 mile of Lento Lane in the unincorporated community of Crest.

COUNTY SERVICE AREA NO. 36 (VIA DEL ALBA)
Dissolved, 1978

CSA No. 36 (Via Del Alba) was formed in 1971 to fund a one-time repair of roadway within the county-maintained road system. The CSA included approximately 193 acres located in the unincorporated community of Rancho Santa Fe. The CSA was dissolved in 1978 when an outstanding county loan for roadwork was satisfied and responsibility for continued maintenance was assumed by the County.

COUNTY SERVICE AREA NO. 37 (ARCADIA STREET)
Dissolved; Function assumed by City of Lemon Grove, 1977

CSA No. 37 (Arcadia Street) was formed in 1972 to provide road improvements within the unincorporated community of Lemon Grove. The CSA was dissolved as a component of the 1977 incorporation of the City of Lemon Grove and responsibility for district services were transferred to the City.

COUNTY SERVICE AREA NO. 38 (GAY RIO TERRACE)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 38 (Gay Rio Terrance) was formed in 1972 to repair and maintain 0.5 of a mile of roadway in the unincorporated community of Lakeside. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58
county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 39 (SUNBEAM LANE)**
Dissolved; Function assumed by County of San Diego, 2000
CSA No. 39 (Sunbeam Lane) was formed in 1972 to provide repair and maintenance of 0.5 mile of roadway in the unincorporated community of Fallbrook. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 40 (MONTGOMERY STREET)**
Dissolved; Function assumed by County of San Diego, 1978
CSA No. 40 (Montgomery Street) was formed in 1972 to provide for repair to county-maintained roads in the unincorporated community of Otay, southeast of the City of Chula Vista. The CSA was dissolved in 1978 when an outstanding county loan to fund roadwork was satisfied and responsibility for continued maintenance was assumed by the County.

**COUNTY SERVICE AREA NO. 41 (KNOB HILL DRIVE)**
Dissolved, 1990
CSA No. 41 (Knob Hill Drive) was formed in 1972 to provide improvement and maintenance to 0.2 mile of roadway in the unincorporated community of Spring Valley. The CSA was dissolved in 1990 by petition of the affected property owners. Future repairs will be financed by area property owners.

**COUNTY SERVICE AREA NO. 42 (WOODLAWN PARK)**
Dissolved; Function assumed by City of Chula Vista, 1985
CSA No. 42 (Woodlawn Park) was formed in 1972 to provide improvements and maintenance to one mile of roadway in the unincorporated community of Montgomery adjacent to the City of Chula Vista. The CSA was dissolved in 1985 in conjunction with the Montgomery Reorganization, which annexed approximately 2,200 acres to the City of Chula Vista. As successor agency, the City assumed responsibility for district services.

**COUNTY SERVICE AREA NO. 43 (VISTA CIELO)**
Dissolved, 1985
CSA No. 43 (Vista Cielo) was formed in 1972 to provide fuel-break maintenance in a 30-acre area west of the unincorporated community of Jamul. The CSA was dissolved in 1985 for non-use of corporate powers.

**COUNTY SERVICE AREA NO. 44 (HIDDEN MEADOWS)**
Dissolved, 1985
CSA No. 44 (Hidden Meadows) was formed in 1972 to provide fuel break maintenance in a 665-acre unincorporated area north of the City of Escondido. The CSA was dissolved in 1985 for non-use of corporate powers.
INDEX V
CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS

COUNTY SERVICE AREA NO. 45 (RINCON SPRINGS RD.)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 45 (Rincon Springs Road) was formed in 1972 to provide for maintenance to 0.6 mile of roadway in the unincorporated community of Rincon Springs. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 46 (ROCOSO ROAD)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 46 (Rocoso Road) was formed in 1972 to repair and maintain 0.5 mile of roadway northwest of the unincorporated community of Lakeside. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 47 (ALTA VISTA ACRES)
Dissolved; Function assumed by City of Escondido, 1984

CSA No. 47 (Alta Vista Acres) was formed in 1972 to provide structural fire protection, fuel-break maintenance, and road maintenance services within a 107-acre unincorporated area adjacent to the City of Escondido. The CSA was dissolved in 1984 concurrent with annexation of the area to the City of Escondido.

COUNTY SERVICE AREA NO. 48 (POWAY PARK)
Dissolved; Function assumed by City of Poway, 1980

CSA No. 48 (Poway Park) was formed in 1972 to acquire, develop, and maintain local parks and provide recreational facilities maintenance within a 38-square mile unincorporated area. The District had an estimated population of approximately 14,000 residents. The CSA was dissolved as a component of the 1980 incorporation of the City of Poway; the City assumed service responsibility

COUNTY SERVICE AREA NO. 49 (SUNSET KNOLLS ROAD)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 49 (Sunset Knolls Road) was formed in 1973 to provide improvement and maintenance for 0.5 mile of roadway in the unincorporated community of Lakeside. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 50 (KNOLL PARK LANE)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 50 (Knoll Park Lane) was formed in 1973 to provide improvement and maintenance for 0.25 mile of roadway located north of the unincorporated community of Fallbrook. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.
INDEX V

CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS

COUNTY SERVICE AREA NO. 51 (SALTON VIEW DRIVE)
Dissolved; Function assumed by County of San Diego, 1985

CSA No. 51 (Salton View Drive) was formed in 1973 to provide road improvement services within a 12-acre area near the unincorporated communities of Julian and Whispering Pines. The CSA was dissolved in 1985 for non-use of corporate powers. Service responsibility was assumed by the County of San Diego.

COUNTY SERVICE AREA NO. 52 (LEMON GROVE)
Dissolved; Function assumed by City of Lemon Grove, 1977

CSA No. 52 (Lemon Grove) was formed in 1973 to provide parkland acquisition, development and maintenance services in the unincorporated community of Lemon Grove. The CSA was dissolved as a component of the 1977 incorporation of the City of Lemon Grove and the City assumed responsibility for CSA services.

COUNTY SERVICE AREA NO. 53 (KNOLL PARK LANE )
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 53 (Knoll Park Lane Extension) was formed in 1973 to provide improvements and maintenance for a one-mile section of roadway north of the unincorporated community of Fallbrook. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 54 (MT. HELIX)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 54 (Mt. Helix) was formed in 1973 to provide improvement and maintenance for a one-mile section of a roadway in an unincorporated area south of the City of El Cajon. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 55 (RAINBOW CREST ROAD)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 55 (Rainbow Crest Road) was formed in 1973 to provide improvement and maintenance for 4.75 miles of roadway in an area east of the unincorporated community of Rainbow. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 56 (ALTON PLACE)
Dissolved; Function assumed by City of Lemon Grove, 1977

CSA No. 56 (Alton Place) was formed in 1973 to provide road improvement and maintenance and street lighting services in an unincorporated area east of the City of San Diego. The CSA was dissolved as a component of the 1977 incorporation of the City of Lemon Grove and the City assumed service responsibility.
**COUNTY SERVICE AREA NO. 57 (SINGING HILLS ESTATES)**
Dissolved; Function assumed by County of San Diego, 1984

CSA No. 57 (Singing Hills Estates) was formed in 1973 to provide road improvements within a 56-acre area in the unincorporated community of Singing Hills. The CSA was dissolved in 1984 and service responsibility assumed by the County.

**COUNTY SERVICE AREA NO. 58 (SANTA TERESA ESTATES)**
Not Formed

Formation of CSA No. 58 (Santa Teresa Estates) was proposed in 1978 to provide structural fire protection, erosion control, and fuel-break maintenance services within a 350-acre area east of the unincorporated community of Ramona. LAFCO approved a CSA that was restricted to providing fuel break maintenance since the other proposed services were already present in the area. The County of San Diego did not complete required formation proceedings and CSA No. 58 was not formed.

**COUNTY SERVICE AREA NO. 59 (GOLDEN ROAD)**
Dissolved; Function assumed by County of San Diego, 1985

CSA No. 59 (Golden Road) was formed in 1973 to provide road improvement and maintenance service within a 37.5-acre area in the unincorporated community of Fallbrook. The CSA was dissolved in 1985 for non-use of corporate powers and service responsibility assumed by the County.

**COUNTY SERVICE AREA NO. 60 (RIVER DRIVE)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 60 (River Drive) was formed in 1973 to provide improvements and maintenance for a one-mile section of roadway in the unincorporated community of Descanso. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 61 (GREEN MEADOW WAY)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 61 (Green Meadow Way) was formed in 1973 to provide improvements and maintenance for 0.15 mile of roadway in an unincorporated area between the Cities of Vista and San Marcos. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 62 (MONTGOMERY PARKS)**
Dissolved; Function assumed by City of Chula Vista, 1985

CSA No. 62 (Montgomery Parks) was formed in 1973 to fund acquisition, development, and maintenance of local parks and recreational facilities in an unincorporated area south of the City of Chula Vista. The CSA was dissolved in
INDEX V

CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS

conjunction with the 1985 Montgomery Reorganization, which annexed approximately 2,200 unincorporated acres to the City of Chula Vista; the City assumed responsibility for providing district services.

COUNTY SERVICE AREA NO. 63 (HILLVIEW ROAD)
Dissolved; Function assumed by County of San Diego, 1977

CSA No. 63 (Hillview Road) was formed in 1973 to provide improvement and maintenance to 0.75 mile of roadway in the unincorporated community of Valley Center. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 64 (LILA LANE)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 64 (Lila Lane) was formed in 1974 to provide improvement and maintenance for 0.08 mile of roadway in the unincorporated community of La Cresta. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 65 (LOUIS LANE)
Not Formed

CSA No. 65 (Louis Lane) was approved by LAFCO in 1974 to provide road improvement and maintenance to approximately 0.16 mile of roadway in an unincorporated area in east county. Formation was conditioned upon an approval by district property owner-voters. The election failed and CSA No. 65 was not formed.

COUNTY SERVICE AREA NO. 66 (VALLEY AVENUE)
Dissolved; Function assumed by City of Chula Vista, 1985

CSA No. 66 (Valley Avenue) was formed in 1974 to provide maintenance for roadway in unincorporated territory adjacent to the City of Chula Vista. The CSA dissolved as a component of the 1985 Montgomery Reorganization, which annexed approximately 2,200 unincorporated acres to the City of Chula Vista.

COUNTY SERVICE AREA NO. 67 (AVOCADO STREET)
Dissolved; Function assumed by County of San Diego, 1985

CSA No. 67 (Avocado Street) was formed in 1974 to provide improvements to roadway in the unincorporated Spring Valley area. The CSA was dissolved in 1985 for the non-use of corporate powers and service responsibility was assumed by the County.

COUNTY SERVICE AREA NO. 68 (SAN LUIS REY DOWNS)
Not Formed

CSA No. 68 (San Luis Rey Downs) was approved by LAFCO in 1974 to provide landscape maintenance for two street medians in the unincorporated community of Bonsall. Proceedings were not completed by the County of San Diego and CSA No. 68 was not formed.
COUNTY SERVICE AREA NO. 70 (EL CAMINO CORTO)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 70 (El Camino Corto) was formed in 1975 to provide improvement and maintenance for 0.25 mile of roadway in the unincorporated community of La Cresta. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 71 (LINDA STREET)
Dissolved; Function assumed by County of San Diego, 1985

CSA No. 71 (Linda Street) was formed in 1974 to provide improvements to roadways in the unincorporated community of Fallbrook. The CSA was dissolved in 1984 and service responsibility assumed by the County.

COUNTY SERVICE AREA NO. 72 (RANCHO SANTA FE POLICE PROTECTION)
Not Formed

CSA No. 72 (Rancho Santa Fe Police Protection) was approved by LAFCO in 1975 to provide extended police protection within approximately 6,700 acres in the unincorporated community of Rancho Santa Fe. CSA formation and proposed CSA funding were placed on a scheduled ballot but subsequently removed when the proposed funding was determined to be insufficient. The issue was not replaced on the ballot for voter approval and CSA No. 72 was not formed.

COUNTY SERVICE AREA NO. 73 (LOMAS SANTA FE POLICE PROTECTION)
Not Formed

CSA No. 73 (Lomas Santa Fe Police Protection) was approved by LAFCO in 1975 to provide police protection within the unincorporated community of Lomas Santa Fe. LAFCO modified the boundary to include additional territory before granting approval. Protest terminated proceedings and LAFCO subsequently approved an amended resolution to exclude the area where protest had been gathered. Final proceedings were not completed by the County of San Diego and the CSA was not formed.

COUNTY SERVICE AREA NO. 74 (HOLDEN ROAD)
Dissolved, 1990

CSA No. 74 (Holden Road) was formed in 1975 to provide maintenance for approximately 1,000 feet of roadway in the unincorporated community of Santee. CSA-funded improvements were insufficient for the roadway to be accepted into the County road system and when the surrounding area incorporated as the City of Santee, the City was not required to assume responsibility for Holden Road. CSA No. 74 was dissolved in 1990 per property owner request and responsibility for maintenance was passed to adjacent property owners.

COUNTY SERVICE AREA NO. 75 (GAY RIO DRIVE)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 75 (Gay Rio Drive) was formed in 1975 to provide improvements and mainte-
nance for one mile of roadway in an unincorporated area northeast of the City of El Cajon. The CSA was dissolved in 2000 as part of a reorganization, that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 76 (KINGFORD COURT)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 76 (Kingsford Court) was formed in 1975 to provide improvements and maintenance for 0.15 mile of roadway in an unincorporated area northeast of the City of El Cajon. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 77 (MONTIEL TRUCK TRAIL)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 77 (Montiel Truck Trail) was formed in 1976 to provide improvements and maintenance for 2 miles of roadway in the unincorporated community of Fallbrook. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 78 (GARDENA WAY)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 78 (Gardena Way) was formed in 1976 to provide improvements and maintenance for 0.2 mile of roadway in the unincorporated community of Lakeside. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 79**
No Record of a CSA No. 79

**COUNTY SERVICE AREA NO. 80 (HARRIS TRUCK TRAIL)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 80 (Harris Truck Trail) was formed in 1976 to provide improvements and maintenance for 2 miles of roadway in the unincorporated community of Fallbrook. The CSA was dissolved in 2000 as part of a reorganization, that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 82 (LAKESIDE LOCAL PARKS)**
Not Formed

The Board of Supervisors proposed formation of CSA No. 82 (Lakeside Local Parks) in 1976 to maintain parks in the unincorporated community of Lakeside. Formation of the CSA re-
sulted from a County policy, which stated that maintenance of local parks be funded through special districts rather than from the County General Fund. The proposed CSA boundary included approximately 80 square miles. An approving resolution was not issued and the CSA was not formed.

**COUNTY SERVICE AREA NO. 84 (Santee Local Parks)**
Dissolved; Function assumed by City of Santee, 1980

CSA No. 84 (Santee Local Parks) was formed in 1976 to provide local park maintenance within the unincorporated 12,000-acre Santee Local Park Planning Area. Formation of the CSA resulted from a County policy, which stated that maintenance of local parks be funded through special districts rather than from the County General Fund. The CSA was dissolved as a component of the 1980 incorporation of the City of Santee. The City assumed service responsibility.

**COUNTY SERVICE AREA NO. 85 (Spring Valley Parks)**
Not Formed

The Board of Supervisors proposed formation of CSA No. 85 (Spring Valley Local Parks) in 1976 to maintain parks in the unincorporated community of Spring Valley. Formation of the CSA resulted from a County policy, which stated that maintenance of local parks be funded through special districts rather than from the County General Fund. The proposed CSA boundary included approximately 18,200 acres. An approving resolution was not issued and the CSA was not formed.

**COUNTY SERVICE AREA NO. 86 (Watson Place)**
Dissolved, 2007

CSA No. 86 (Watson Place) was formed in 1976, to provide improvement and maintenance for 0.15 mile of roadway in the unincorporated community of Santee. CSA-funded improvements were insufficient for the roadway to be accepted into the County road system and when the surrounding area incorporated as the City of Santee, the City was not required to assume maintenance responsibility for Holden Road. The CSA was dissolved in 2007, and residents assumed responsibility for maintenance of Watson Place.

**COUNTY SERVICE AREA NO. 87 (Tone Lane)**
Dissolved; Function assumed by County of San Diego, 1985

CSA No. 87 (Tone Lane) was formed in 1976 to provide improvements and maintenance to 0.5 mile of roadway in an unincorporated area north of the City of El Cajon. The CSA was dissolved in 1985 for non-use of corporate powers Responsibility for service was assumed by the County.

**COUNTY SERVICE AREA NO. 88 (East Fifth Street)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 88 (East Fifth Street) was formed in 1976 to provide maintenance for 0.25 mile of roadway in the unincorporated community of Rainbow. The CSA was dissolved in 2000 as part of a Reorganization, that dissolved 58 county-dependent CSAs, which provided road
maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 89 (DEL DIOS)
Dissolved; Function assumed by Rancho Santa Fe Fire Protection District, 1987
CSA No. 89 (Del Dios) was formed in 1976 to support the Del Dios Volunteer Fire Protection Company. The CSA included three square miles in the unincorporated community of Del Dios. The 1987 Rancho Santa Fe Fire Protection District (FPD)/CSA No. 89 (Del Dios) Reorganization: (1) dissolved the Rancho Santa Fe FPD and CSA No. 89; and (2) formed a successor FPD. The successor FPD retained the name Rancho Santa Fe FPD (see Index V: Rancho Santa Fe FPD).

COUNTY SERVICE AREA NO. 90 (SOUTH CORDOBA)
Dissolved; Function assumed by County of San Diego, 2000
CSA No. 90 (South Cordoba) was formed in 1976 to provide maintenance for 0.15 mile of roadway in the unincorporated community of Spring Valley. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 91 (VILLANITAS)
Dissolved; Function assumed by City of Encinitas, 1986
CSA No. 91 (Villanitas) was formed in 1976 to provide landscape maintenance for roadway in the unincorporated community of Encinitas. As a component of the 1986 incorporation of the City of Encinitas the CSA was dissolved and service responsibility transferred to the City.

COUNTY SERVICE AREA NO. 92 (CERRO STREET)
Dissolved; Function assumed by City of Encinitas, 1986
CSA No. 92 (Cerro Street) was formed in 1976 to provide landscape maintenance for highway medians in the unincorporated community of Encinitas. The CSA was dissolved as a component of the 1986 incorporation of the City of Encinitas and the City assumed responsibility.

COUNTY SERVICE AREA NO. 93 (VESPER/SUNSET RDS.)
Dissolved; Function assumed by County of San Diego, 1984
CSA No. 93 (Vesper and Sunset Roads) was formed in 1977 to provide road improvements in the unincorporated community of Valley Center. The CSA was dissolved in 1984 and the County assumed responsibility for continuing road improvement services.

COUNTY SERVICE AREA NO. 94 (ROBLE GRANDE)
Dissolved; Function assumed by County of San Diego, 2000
CSA No. 94 (Roble Grande) was formed in 1977 to provide road improvements and maintenance for 0.3 mile of roadway southwest of the unincorporated community of Alpine. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.
INDEX V

CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS

COUNTY SERVICE AREA NO. 95 (VALLE DEL SOL)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 95 (Valle Del Sol) was formed in 1977 to provide road improvements and maintenance for one mile of roadway in an unincorporated area between the City of Oceanside and Camp Pendleton. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 96 (SANTEE RECREATION)
Dissolved; Function assumed by City of Santee, 1980

CSA No. 96 (Santee Recreation District) was formed in 1977 to provide recreational programs for residents in the unincorporated community of Santee. The CSA was dissolved as a component of the 1980 incorporation of the City of Santee and the City assumed service responsibility.

COUNTY SERVICE AREA NO. 97 (MILLER ROAD)
Dissolved; Function assumed by County of San Diego, 1984

CSA No. 97 (Miller Road) was formed in 1978 to provide road improvements in the unincorporated community of Valley Center. The CSA was dissolved in 1984 and the County assumed responsibility for road improvement services.

COUNTY SERVICE AREA NO. 98 (DATE COURT)
Dissolved; Function assumed by City of Chula Vista, 1984

CSA No. 98 (Date Court) was formed in 1979 to provide road improvements to 300 feet of roadway in the unincorporated community of Otay Mesa. The CSA was dissolved in conjunction with the 1984 Montgomery Reorganization and the City of Chula Vista assumed responsibility for continued service.

COUNTY SERVICE AREA NO. 99 (VIA ALLONDRA/VIA CORVO)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 99 (Via Allondra/Via Corvo) was formed in 1980 to provide road and street light improvements and maintenance to one mile of roadway within unincorporated territory southwest of the City of San Marcos. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 100 (VIEJAS VIEW LANE)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 100 (Viejas View Lane) was formed in 1980 to provide road improvements and maintenance for 0.2 mile of roadway in the unincorporated community of Alpine. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 106 (GARRISON WAY)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 106 (Garrison Way) was formed in 1981 to provide road improvements and maintenance for 1.25 miles of roadway in an unincorporated area adjacent to the City of El Cajon. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 108 (RANCHO CANADA)
Dissolved, 1994

CSA No. 108 (Rancho Canada) was formed in 1983 to provide governance for a planned groundwater delivery system and for road maintenance services within a proposed residential development in the unincorporated Ramona area. Formation of the CSA was a condition of development for a proposed 313-acre subdivision map. Map conditions were not met, CSA services were never activated, and the CSA was dissolved in 1994.

COUNTY SERVICE AREA NO. 114 (RAINBOW GLEN ROAD)
Dissolved; Function assumed by County of San Diego, 1990

CSA No. 114 (Rainbow Glen Road) was formed in 1984 to provide road improvements for 1.5 miles of roadway in the unincorporated community of Rainbow. When the county loan for road improvements was repaid in 1990, the CSA was dissolved and maintenance responsibility reverted to the County.

COUNTY SERVICE AREA NO. 116 (LUX CANYON)
Dissolved; Function assumed by City of Encinitas, 1986

CSA No. 116 (Lux Canyon) was formed in 1985 to fund maintenance of surface water drainage structures associated with a residential development located north of the unincorporated San Elijo Lagoon area. The CSA was dissolved in 1986 as a component of the incorporation of the City of Encinitas; the City assumed maintenance responsibility.

COUNTY SERVICE AREA NO. 117 (LEgend ROCK)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 117 (Legend Rock) was formed in 1986 to provide road maintenance for 1.5 miles of roadway in the unincorporated community of Hidden Meadows adjacent to the City of Escondido. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 118 (POTRERO)
Dissolved; Function assumed by County of San Diego, 1995

CSA No. 118 (Potrero) was formed in 1986 to fund construction of drainage facilities and improvements for 1.5 miles of roadway in the unincorporated community of Potrero. The CSA was dissolved in 1995 and responsibility for road maintenance was assumed by the County.
INDEX V
CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS

COUNTY SERVICE AREA NO. 119 (JESMOND DENE)
Dissolved; Function assumed by County of San Diego, 1994

CSA No. 119 (Jesmond Dene) was formed in 1987 to provide maintenance for 2 miles of roadway in an unincorporated area adjacent to the City of Escondido. The CSA was dissolved in 1994 and responsibility for road maintenance was assumed by the County.

COUNTY SERVICE AREA NO. 120 (BROOKHOLLOW)
Dissolved, 1995

CSA No. 120 (Brookhollow) was formed in 1987 to provide maintenance for 0.3 mile of roadway in the unincorporated community of Lakeside. The CSA was formed to meet tentative map requirements and provide a mechanism to finance maintenance for roadway not in the County-maintained road system. CSA No. 120 was dissolved in 1995 because the tentative map was not finalized and proposed development did not occur.

COUNTY SERVICE AREA NO. 121 (BONITA MESA SEWER)
Dissolved; Function assumed by County of San Diego, 2002

CSA No. 121 (Bonita Mesa Sewer) was formed in 1987 to provide a funding mechanism to construct a sewer collection system in the unincorporated community of Bonita. All CSA territory was within the Spring Valley Sanitation District. When the sewer collection system was completed and a construction loan repaid in 2002, the CSA was dissolved and sewer service responsibility assumed by the county-dependent Spring Valley (County) Sanitation District.

COUNTY SERVICE AREA NO. 123 (MIZPAH LANE)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 123 (Mizpah Lane) was formed in 1988 to fund improvements and maintenance of 0.6 mile of the roadway northeast of the unincorporated community of Descanso. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 124 (OLIVE DRIVE)
Dissolved; Function assumed by County of San Diego, 1996

CSA No. 124 (Olive Drive) was formed in 1989 to provide for improvements to roadway in an industrial unincorporated area of Spring Valley. Improvements, which included paving Olive Drive, installing gutters and sidewalks, removing trees, and relocating specific utilities, was financed with a County loan. When the CSA property owners repaid the loan in 1996, the District was dissolved and service responsibility assumed by the County.

COUNTY SERVICE AREA NO. 125 (WRIGHTWOOD ROAD)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 125 (Wrightwood Road) was formed in 1990 to provide road improvement and maintenance for 0.75 mile of roadway in an unincorporated area of Bonsall. The CSA was dissolved in 2000 as part of a reorganization, that dissolved 58 county-dependent CSAs, which
provided road maintenance. The District’s responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 126 (SANDHURST WAY)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 126 (Sandhurst Way) was formed in 1990 to fund road improvement and maintenance for 0.05 mile of roadway in an unincorporated territory located north of the City of Escondido. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District's service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 127 (SINGING TRAILS DRIVE)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 127 (Singing Trails Drive) was formed in 1991 to fund road improvement and maintenance for 0.05 mile of roadway in an unincorporated area of Crest-Dehesa. The CSA was dissolved in 2000 as part of a reorganization that dissolved 58 county-dependent CSAs, which provide road maintenance. The District's service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 129 (BIRCH STREET)**
Dissolved; Function assumed by County of San Diego, 2005

CSA No. 129 (Birch Street) was formed in 1992 to provide maintenance for 0.05 mile of roadway in an unincorporated area of Spring Valley. The CSA was dissolved in 2005 and responsibility for road maintenance was assumed by the County.

**COUNTY SERVICE AREA NO. 130 (WILKES ROAD)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 130 (Wilkes Road) was formed in 1992 to fund road improvements to 1.2 miles of roadway of Wilkes Road and Sierra Roja Road in the unincorporated area of Valley Center. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provide road maintenance. The District's service responsibility was transferred to the County Permanent Road Division.

**COUNTY SERVICE AREA NO. 131 (MARLYNN COURT)**
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 131 (Marlynn Court) was formed in 1993 to fund road improvements and maintenance for about 700 feet of roadway in an unincorporated territory located southeast of the City of Escondido. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provide road maintenance. The District's service responsibility was transferred to the County Permanent Road Division.
INDEX V

CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS

COUNTY SERVICE AREA NO. 132 (CIRCO DIEGUENO)
Dissolved, 1995

CSA No. 132 (Circo Diegueno) was formed in 1993 to fund road improvements to 0.03 mile of Circo Diegueno Road and 0.25 mile of Circo Diegueno Court in unincorporated territory located north of the City of San Diego. Subsequent to formation, property owners chose to self-fund road improvements and to assume responsibility for on-going road maintenance. The CSA was dissolved in 1995.

COUNTY SERVICE AREA NO. 133 (RANCH CREEK RD.)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 133 (Ranch Creek Road) was formed in 1993 to fund repairs to 0.7 mile of roadway in the unincorporated community of Valley Center. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

COUNTY SERVICE AREA NO. 134 (KENORA LANE)
Dissolved; Function assumed by County of San Diego, 2000

CSA No. 134 (Kenora Lane) was formed in 1994 to fund repairs to 0.25 mile of Kenora Lane and 0.08 of Mandy Lane in the unincorporated community of Spring Valley. The CSA was dissolved in 2000 as part of a Reorganization that dissolved 58 county-dependent CSAs, which provided road maintenance. The District’s service responsibility was transferred to the County Permanent Road Division.

CREST FIRE PROTECTION DISTRICT
Consolidated with Bostonia Fire Protection District, 1994

The Crest Fire Protection District (FPD) was formed in 1948 to provide structural fire protection services within the unincorporated east-county community of Crest. In 1978, the District began providing emergency medical services. In 1994, the Boards of Directors of the Bostonia FPD and the Crest FPD proposed a consolidation of the two geographically separate agencies. LAFCO approval was dictated by State law because consolidation was proposed by a unanimous resolution from each district. The consolidated agency emerged as the East County FPD (see Index V: Bostonia FPD).

CREST PUBLIC UTILITY DISTRICT
Dissolved; Function assumed by the Padre Dam Municipal Water District, 1985

The Crest Public Utility District (PUD) was formed in 1944 to provide domestic water to 386 acres within the unincorporated communities of La Cresta and Suncrest. The PUD retailed water purchased wholesale from the Helix Irrigation (Water) District. The PUD’s service area diminished to 52 acres and was dissolved in 1985. Responsibility for water service was transferred to the Helix Water District.

CUYAMACA CALIFORNIA WATER DISTRICT
Operates as Cuyamaca Water District

The Cuyamaca California Water District has operated as the Cuyamaca Water District since district formation in 1982.
**Decanso Community Services District**  
Operates as Descanso Community Water District  
The Descanso Community Waster District was formed as a Community Services District in 1982 to provide public governance and public funding to buy-out the privately-owned Descanso Park Water Company. The District, which distributes groundwater within approximately 0.66 square mile in the unincorporated east-county community of Descanso, has always operated as the Descanso Community Water District [see Section I: Descanso Community (Services) Water District].

**De Luz Heights Municipal Water District**  
Dissolved; Function assumed by the Fallbrook Public Utility District, 1990  
The De Luz Heights Municipal Water District (MWD) was formed in 1967 to provide water primarily for agricultural uses in the unincorporated community of De Luz. The MWD purchased water from the adjacent Fallbrook Public Utility District (PUD). In 1988, De Luz MWD began contracting for management and operational services with the much larger Fallbrook PUD. The 1990 De Luz Heights Municipal Water District Reorganization dissolved the MWD and annexed the former district’s territory to the Fallbrook PUD.

**East County Fire Protection District**  
Consolidated with San Miguel Consolidated Fire Protection District, 2008  
The East County Fire Protection District (FPD) was the successor agency to the 1994 consolidation of the Boston and Crest Fire Protection Districts; the 6.5 square miles of the East County FPD included the geographically separate areas of the former FPDs. The Consolidation of the San Miguel Consolidated and East County Fire Protection Districts was approved in June 2008. The successor District retained the name San Miguel Consolidated FPD (see Index V: Bostonia; Crest; Grossmont-Mt Helix; and Spring Valley FPDs).

**Encinitas Fire Protection District**  
Merged with the City of Encinitas, 1995  
The Encinitas Fire Protection District (FPD) was formed in 1945 to provide structural and watershed fire protection to the unincorporated communities of Cardiff, Encinitas, and Leucadia. The FPD became a subsidiary district of the City of Encinitas as a component of the 1986 incorporation of the City. The FPD served approximately 26 square miles, mostly within the city boundary; however, the FPD also included the unincorporated Ecke Ranch area that was adjacent to the City’s northern boundary. The 1995 Encinitas Ranch Annexation and Encinitas Municipal Services Reorganization: (1) annexed unincorporated Ecke Ranch territory to the City; (2) adjusted the FPD boundary to be coterminous with the City boundary; and (3) merged the subsidiary Fire Protection District with the City of Encinitas.

**Encinitas Sanitary District**  
Merged with the City of Encinitas, 1995  
The Encinitas Sanitary District (SD) was formed in 1946 to provide wastewater collection services to approximately 520 acres in the unincorporated communities of Encinitas and
Leucadia; wastewater was transported to the Encina Water Pollution Control Facility for treatment and disposal. The SD’s service area, which had grown to nearly three square miles by 1986, was within the City of Encinitas when the City incorporated in 1986 and the District became a subsidiary district of the City as a component of the incorporation. The 1995 Encinitas Ranch Annexation and Encinitas Municipal Services Reorganization: (1) annexed unincorporated territory within the SD to the City; and (2) merged the Encinitas SD with the City of Encinitas.

**Fairbanks Ranch Sanitation District**
Dissolved; Function assumed by Fairbanks Ranch Community Services District, 1987

The county-dependent Fairbanks Ranch Sanitation District (SD) was formed in 1980 to provide wastewater services within approximately 1,237 acres in the unincorporated community of Fairbanks Ranch. The 1987 Fairbanks Ranch Community Services District Reorganization dissolved the SD and concurrently formed the Fairbanks Ranch Community Services District (CSD). The CSD assumed responsibility for providing wastewater services and was also authorized to provide street lighting maintenance, roadside landscape maintenance, and water reclamation services. The CSD boundary was identical to the dissolved SD boundary.

**Fallbrook Fire Protection District**
Dissolved; Reorganized under North County FPD, 1987

The Fallbrook Fire Protection District (FPD) was formed in 1961 to provide structural fire protection and emergency medical services within approximately 58 square miles in the unincorporated community of Fallbrook. The 1987 Fallbrook FPD and CSA No. 7 (Rainbow Valley) Reorganization dissolved the FPD and CSA and concurrently formed the North County FPD as successor agency (see Index V: CSA No. 7 (Rainbow Valley).

**Fallbrook Sanitary District**
Dissolved; Function assumed by Fallbrook Public Utility District, 1994

The Fallbrook Sanitary District (SD) was formed in 1946 to provide wastewater collection and treatment services within the downtown area of the unincorporated community of Fallbrook. The 4,500-acre district was completely within the boundary of the Fallbrook Public Utility District (PUD) and in 1994, the PUD proposed that: (1) the PUD be authorized to provide wastewater services; and (2) the Sanitation District be dissolved and the PUD be named successor agency. LAFCO approved the proposals; however, an election among Sanitation District voters concerning the dissolution of the SD was required because the SD Board opposed the dissolution. Dissolution was approved by voters.

**Greater Mt. Empire Resource Conservation District**
Consolidated with Resource Conservation District of Central San Diego County, 1995

The Greater Mt. Empire Resource Conservation District (RCD) was formed in 1941 to assist property owners and local interest groups in implementing sound conservation practices. The District’s service area encompassed approximately 970 square miles including the Cities of El Cajon, Chula Vista, and Santee and
unincorporated territory extending to the boundary of Imperial County. The District consolidated with the RCD of Central San Diego County in 1995. The successor agency operates as the RCD of Greater San Diego County (see Index V: RCD of Central San Diego County).

**Grossmont-Mt. Helix Fire Protection District**  
Consolidated with Spring Valley FPD, 1988

The Grossmont-Mt. Helix Fire Protection District (FPD) was responsible for structural fire protection and emergency medical services within the unincorporated east-county Grossmont and Mt-Helix areas. District services were provided by a contract with CAL Fire (then CDF). In 1988, the Grossmont-Mt. Helix and Spring Valley FPDs consolidated to form the San Miguel Consolidated FPD (see Index V: Spring Valley FPD).

**Helix Irrigation District**  
Renamed Helix Water District, 1956

The Helix Water District was formed in 1913 as the La Mesa, Lemon Grove, and Spring Valley Irrigation District. After expanding its service area and absorbing additional public and private operations, the District began operating as the Helix Water District in 1956 [see Section I: Helix (Irrigation) Water District].

**Julian County Sanitation District**  
Dissolved; Function assumed by San Diego County Sanitation District, 2011

The Julian County Sanitation District (SD) was formed in 1945 to provide public governance for a wastewater collection and treatment system that had been established in 1936. The current Julian Water Pollution Control Facility (JWPCF), which consists of two aerated basins, a secondary sedimentation basin, and two emergency storage ponds, became operational in 1981. In 2011, the Alpine, Julian, Lakeside, and Pine County SDs were dissolved and the service area of each district was annexed to the Spring Valley County SD. The Spring Valley SD was subsequently renamed the San Diego County Sanitation District (see Index W: San Diego County SD).

**Lakeside County Sanitation District**  
Dissolved; Function assumed by San Diego County Sanitation District, 2011

The Lakeside County Sanitation District (SD) was formed in 1955 to provide wastewater collection services within approximately 18 square miles of the unincorporated east county community of Lakeside. The County of San Diego is a member of the San Diego METRO Wastewater JPA and wastewater flows originating with the SD were transported to the City of San Diego Pt. Loma facility for treatment and disposal in the ocean outfall. In 2011, the Alpine, Julian, Lakeside, and Pine County SDs were dissolved and the service area of each district was annexed to the Spring Valley County SD. The Spring Valley SD was subsequently renamed the San Diego County Sanitation District (see Index W: San Diego County SD).

**Lakeside Irrigation District**  
Renamed Lakeside Water District, 1979

The Lakeside Water District was formed as an Irrigation District in 1924 to provide water service within approximately 10 square miles that
include the unincorporated communities of Lakeside, Eucalyptus Hills, Moreno Valley, Muth Valley, and Wintergardens. The Irrigation District began operating as the Lakeside Water district in 1979 [see Section I: Lakeside (Irrigation) District].

**LEMON GROVE FIRE PROTECTION DISTRICT**
Dissolved; Function assumed by City of Lemon Grove, 1977

Lemon Grove Fire Protection District (FPD) was formed in 1949 to provide structural fire protection services to the unincorporated community of Lemon Grove. The FPD was dissolved as a component of the 1977 incorporation of the City of Lemon Grove; the City assumed responsibility for providing fire protection services.

**LEUCADIA COUNTY WATER DISTRICT**
Renamed Leucadia Wastewater District, 2003

The Leucadia Wastewater District was formed as a County Water District in 1959 to provide wastewater services within the unincorporated community of Leucadia and surrounding unincorporated areas. Over time all district territory was included within the boundary of either the City of Encinitas or the City of Carlsbad and the District was renamed the Leucadia Wastewater District in 2003 (see Section I: Leucadia (County Water) Wastewater District.

**MONTGOMERY FIRE PROTECTION DISTRICT**
Dissolved; Function assumed by City of Chula Vista, 1985

The Montgomery Fire Protection District (FPD) was originally formed to provide structural fire protection and emergency medical services within five square miles of unincorporated territory adjacent to the City of Chula Vista. The 1985 Montgomery Reorganization annexed 2,200 unincorporated acres—including the territory of the FPD—to the City of Chula Vista and dissolved the FPD. Responsibility for fire protection services was assumed by the City.

**MONTGOMERY SANITATION DISTRICT**
Dissolved; Function assumed by City of Chula Vista, 1985

The county-dependent Montgomery Sanitation District (SD) was formed in 1965 to provide wastewater collection services to approximately 2,300 acres of unincorporated territory adjacent to the City of Chula Vista. Wastewater treatment and disposal was accomplished through a contract with the City of San Diego Metropolitan Sewer System. The 1985 Montgomery Reorganization annexed 2,200 unincorporated acres—including the territory of the SD—to the City of Chula Vista and dissolved the Montgomery Sanitation District. Responsibility for service was assumed by the City.

**MT. WOODSON RANCH SANITATION DISTRICT**
Dissolved; Function assumed by Ramona Municipal Water District, 1993

The county-dependent Mt. Woodson Ranch Sanitation District was formed in 1988 to provide wastewater services within 380 acres in the unincorporated community of Ramona. The district service area was restricted to the Mt. Woodson specific plan area and was completely
within the boundary of the Ramona Municipal Water District (MWD). The MWD was authorized to provide wastewater services within limited areas—but not near the Mt. Woodson development. The 1993 Ramona Municipal Water District/Mt. Woodson Ranch Sanitation District Reorganization dissolved the Mt. Woodson Ranch SD; and authorized the Ramona MWD to provide wastewater services within the territory of the former SD.

**NEPTUNE AVENUE GEOLOGIC HAZARD ABATEMENT DISTRICT**
Dissolved, 1997

The Neptune Avenue Geologic Hazard Abatement District (GHAD) was formed in 1994 by the City of Encinitas to protect coastal bluff property from erosion and other geologic hazards. The City proposed to fund GHAD program costs through special assessments; however, property owners, who did not support the formation of an assessment district, chose to privately fund erosion controls. In 1997, the District Board of Directors/City Council proposed to dissolve the GHAD because the District was inactive. Although the City had been authorized to form the GHAD without LAFCO approval, State law required LAFCO to approve the dissolution.

**ORCHARD WATER DISTRICT**
Dissolved; Function assumed by City of Poway, 1980

The Orchard Water District was formed in 1954 to provide water service to approximately 325 homes in unincorporated territory that was included in the 1980 incorporation of the City of Poway. As a component of incorporation, the Orchard Water District was dissolved and the City of Poway assumed responsibility for district services.

**OTAY MUNICIPAL WATER DISTRICT**
Renamed Otay Water District, 1981

The Otay Water District was formed as a Municipal Water District in 1956. The District distributes potable water over approximately 125 square miles within portions of the Cities of Chula Vista and San Diego and the unincorporated communities of Spring Valley, Otay Mesa, Jamul-Dulzura, Sweetwater, and East Otay Mesa. District wastewater services are available within approximately 6.8 square miles of unincorporated territory. The District was renamed The Otay Water District in 1981 [see Section I: Otay (Municipal) Water District]

**PALM CITY SANITATION DISTRICT**
Dissolved, 1987

The Palm City Sanitation District (SD) was formed in 1952 to provide wastewater service within a portion of the City of San Diego and adjacent unincorporated territory to the south of the City. The 1956 incorporation of the City of Imperial Beach included the unincorporated portion of the SD and split the District between two cities. The District was dissolved in 1987 because the wastewater system was not operational and the SD had not collected revenue within the previous three years. Palm City Sanitation District assets were allocated between the City of San Diego and the City of Imperial Beach based on assessed value.
**INDEX V**

**CONSOLIDATED, DISSOLVED, OR MERGED SPECIAL DISTRICTS**

**PALOMAR-POMERADO HEALTH CARE DISTRICT**  
RENAMED PALOMAR-POMERADO HEALTH, 2001

Palomar-Pomerado Health was formed in 1948 as the Northern San Diego County Hospital District. The Hospital District transitioned from a Hospital District to a Health Care District in 1994, when Health and Safety Codes were amended to change Local Hospital District Law to Local Health Care District Law. The District has variously operated as the Palomar-Pomerado Hospital District; Palomar Health Systems; and beginning in 2001 as Palomar-Pomerado Health [see Section I: Palomar-Pomerado (Health Care District) Health].

**PALOMAR RESOURCE CONSERVATION DISTRICT**  
Consolidated with Ramona-Julian RCD, 1990

Palomar Resource Conservation District (RCD) was formed in 1941 to assist property owners and local groups within approximately 442 square miles of unincorporated territory to implement sound conservation practices. The RCD consolidated with the Ramona-Julian RCD in 1990 and emerged as the Palomar Ramona-Julian RCD (see Index W: Ramona-Julian RCD).

**PINE VALLEY COUNTY SANITATION DISTRICT**  
Dissolved; Function assumed by San Diego County Sanitation District, 2011

The Pine Valley County Sanitation District (SD) was formed as a county-dependent district in 1968 to provide wastewater collection and treatment services to approximately 28 acres of the unincorporated east county community of Pine Valley. The Pine Valley Wastewater Pollution Control Facility (WPCF) has treatment capacity of 0.04 million gallons per day. In 2011, the Alpine, Julian, Lakeside, and Pine County SDs were dissolved and the service area of each district was annexed to the Spring Valley County SD. The Spring Valley SD was subsequently renamed the San Diego County Sanitation District (see Index W: San Diego County SD).

**PINE VALLEY FIRE PROTECTION DISTRICT**  
OPERATES AS PINE VALLEY FIRE DEPARTMENT

The Pine Valley Fire Department was formed as a Fire Protection District in 1962 to provide structural fire protection and emergency medical services within the unincorporated east county communities of Pine Valley and Guatay. The District, which operates as the Pine Valley Fire Department covers approximately 75 square miles and includes significant National Forest Service areas.

**POMERADO COUNTY WATER DISTRICT**  
DISSOLVED; FUNCTION ASSUMED BY CITY OF POWAY, 1980

Pomerado County Water District was formed in 1957 to provide wastewater services in the unincorporated community of Poway. The District was dissolved as a component of the 1980 incorporation of the City of Poway and the City assumed responsibility for district services.

**POWAY MUNICIPAL WATER DISTRICT**  
Dissolved; Function assumed by City of Poway, 1981

The Poway Municipal Water District (MWD) was formed in 1954 to provide retail water service and structural fire protection and emergency medical services within approximately 36 square miles of unincorporated territory. The
MWD was dissolved as a component of the 1980 incorporation of the City of Poway and the city assumed responsibility for district services.

**RAMONA FIRE PROTECTION DISTRICT**
Dissolved; Function assumed by Ramona Municipal Water District, 1981

The Ramona Fire Protection District (FPD) was formed in 1946 to provide structural fire protection and emergency medical services over approximately 22 square miles of the unincorporated community of Ramona. The FPD, which had grown to include 32 square miles, was dissolved in 1981 and the Ramona Municipal Water District was concurrently authorized to provide fire protection services as a latent power. The Ramona MWD was also authorized to provide fire protection services within the MWD’s entire 75-square mile service area.

**RAMONA IRRIGATION DISTRICT**
Dissolved; Function assumed by Ramona Municipal Water District, 1956

The Ramona Irrigation District was replaced in 1956 by the Ramona Municipal Water District. The Ramona MWD is authorized to provide water and fire protection services district wide; wastewater and park and recreation services are provided in delimited areas (see Section I: Ramona Municipal Water District).

**RAMONA SANITATION DISTRICT**
Dissolved; Function assumed by the Ramona Municipal Water District, 1980

The Ramona Sanitation District (SD) was formed in 1946 to provide wastewater treatment services within approximately 2000 acres in the unincorporated community of Ramona. The county-dependent SD was located entirely within the boundary of the Ramona Municipal Water District (MWD). The SD was dissolved in 1980 and the Ramona Municipal Water District was concurrently authorized to provide wastewater services as a latent power. The authority to provide wastewater service was restricted to the area of the former SD.

**RAMONA-JULIAN RESOURCE CONSERVATION DISTRICT**
Consolidated with Palomar RCD, 1990

The Ramona-Julian Resource Conservation District (RCD) was formed in 1941 to assist property owners and local groups within approximately 1,474 square miles of unincorporated territory to implement sound conservation practices. The RCD consolidated with the Palomar RCD in 1990 and emerged as the Palomar-Ramona-Julian RCD (see Index V: Palomar RCD).

**RANCHO CIELO SANITATION DISTRICT**
Dissolved; Function assumed by Olivenhain Municipal Water District, 1998

The Rancho Cielo Sanitation District (SD) was formed in 1983 to provide wastewater services within 1,700 acres of unincorporated territory west of Lake Hodges and east of the City of Encinitas. The county-dependent Rancho Cielo SD and 4S Ranch SD were both located within the boundary of the Olivenhain Municipal Water District (MWD). Both Sanitation Districts were dissolved in 1998 and the Olivenhain MWD was concurrently authorized to provide wastewater services as a latent power. Wastewater service is restricted to two areas that repli-
cated the boundaries of the former sanitation districts (see Index V: 4S Ranch SD).

Rancho Santa Fe Fire Protection District
Dissolved, 1990

The Rancho Santa Fe Fire Protection District (FPD) was formed in 1946 to provide structural fire protection and emergency medical services to approximately 37 square miles in the unincorporated community of Rancho Santa Fe, Fairbanks Ranch, Whispering Palms, and Village Park. The 1987 Rancho Santa Fe Fire Protection District/CSA No. 89 (Del Dios) Reorganization: (1) dissolved the Rancho Santa Fe FPD and CSA No. 89 (Del Dios); and (2) concurrently formed a successor FPD, which included all territory of the two dissolved district. The successor FPD retained the name Rancho Santa Fe FPD [see Index V: CSA No. 89 (Del Dios)].

Rancho Santa Fe Sanitation District
Dissolved; Function assumed by Rancho Santa Fe Community Services District, 1981

The Rancho Santa Fe Sanitation District (SD) was formed in 1939 to provide wastewater treatment services in the unincorporated community of Rancho Santa Fe. The 1981 Rancho Santa Fe Reorganization dissolved the SD and concurrently formed the Rancho Santa Fe Community Services District (CSD) as successor agency. The Reorganization was confirmed by district voters and became effective December 1981.

Resource Conservation District of Central San Diego County
Consolidated with Greater Mountain Empire Resource Conservation District, 1995

The Resource Conservation District (RCD) of Central San Diego County was created by the 1980 consolidation of the Palomar and Ramona-Julian RCDs. RCD consolidated with the Greater Mountain Empire RCD in 1995 to form the Resource Conservation District of Greater San Diego County (see Index V: Greater Mountain Empire RCD).

Rio San Diego Municipal Water District
RENAMED PADRE DAM MUNICIPAL WATER DISTRICT, 1976

The Rio San Diego Municipal Water District was formed in 1955. In conjunction with the 1976 dissolution of the Santee County Water District, responsibility for the dissolved district’s services were transferred to the Rio San Diego MWD and the District was renamed the Padre Dam Municipal Water District.

Riverview Water District
Dissolved; Function assumed by the Lakeside Water District, 2006

The Riverview Water District (WD) was formed in 1954 to provide public ownership and operation of the Riverview Farms Mutual Water Company, which had operated in the unincorporated community of Lakeside since 1916. In 2006, the Upper San Diego Reorganization dissolved the Riverview WD and transferred the dissolved district’s responsibility to the Lakeside Water District. All Lakeside WD territory was also detached from its water wholesaler—the Padre Dam MWD—and the Lakeside WD began receiving water directly from the San Diego County Water Authority.
SAN LUIS REY WATER CONSERVATION DISTRICT
Dissolved; Function assumed by the Pauma MWD, 1976

The San Luis Rey Water Conservation District (WCD) was formed in 1950 to conserve and protect the water supply an unincorporated area that was excluded from the San Diego County Flood Control District. The WCD included approximately 19.5 square miles along the San Luis Rey River from the City of Oceanside to the unincorporated community of Pauma Valley. The WCD boundary overlapped the Pauma Municipal Water District (MWD) and San Luis Rey MWD boundaries. The WCD was dissolved in 1976 because of inactivity since 1967; service responsibility was transferred to the Pauma MWD.

SAN MARCOS COUNTY WATER DISTRICT
Renamed Vallecitos Water District, 1989

The Vallecitos Water District was formed as a County Water District in 1955 to provide water and wastewater services to an area in northern San Diego County. The district boundary includes the City of San Marcos, limited territory within the Cities of Carlsbad, Escondido, and Vista, and the unincorporated communities of Lake San Marcos and Twin Oaks. The District was renamed the Vallecitos Water District in 1989 [see Section I: Vallecitos (County) Water District].

SANTA FE MOUNTAINS COMMUNITY SERVICES DISTRICT
Dissolved; Function assumed by CSA No. 89 (Del Dios), 1977

The Santa Fe Mountains Community Services District (CSD) was formed in 1964 to provide road construction and maintenance services to 3,600 acres in the unincorporated community of Del Dios. The CSD had an estimated population of 39. The District was dissolved in 1977 for non-use of corporate powers.

Santee County Water District
Dissolved; Function assumed by Padre Dam Municipal Water District, 1976

The Santee County Water District (CWD) was formed in 1956 to provide water and wastewater services within the unincorporated community of Santee. In 1976, the CWD was dissolved and service responsibility transferred to the Rio San Diego Municipal Water District. The Rio San Diego MWD was renamed the Padre Dam MWD in 1977.

Santee Fire Protection District
Merged with the City of Santee, 1985

The Santee Fire Protection District (FPD) was formed in 1956 to provide structural fire protection and emergency medical services within the unincorporated community of Santee. As a component of the 1981 incorporation, the FPD became a subsidiary district of the City of Santee. Unincorporated territory, which was not included in the new city, was detached from the FPD and formed into County Service Area No. 115 (Pepper Drive). CSA No. 115 contracts with the City of Santee for fire protection services.

Solana Beach Fire Protection District
Merged with City of Solana Beach, 1987

The Solana Beach Fire Protection District (FPD) was formed in 1948 to provide structural
fire protection and emergency medical services to the unincorporated community of Solana Beach. As a component of the 1986 incorporation, the FPD became a subsidiary district to the City of Solana Beach. The subsidiary FPD included approximately 119 acres of territory that was outside the city boundary. The 1987 Solana Beach Reorganization and Solana Fire Protection District Merger detached all unincorporated territory from the subsidiary District and merged the Solana Beach FPD with the City. The territory detached from the FPD was reorganized with other cities or FPDs.

SOLANA BEACH SANITATION DISTRICT
Merged with the City of Solana Beach, 1990
Solana Beach Sanitation District (SD) was formed in 1946 to provide wastewater services to the unincorporated community of Solana Beach and a small area within the City of Del Mar. The District was retained when the City of Solana Beach incorporated in 1986 because the SD boundary included territory in the City of Del Mar. In 1990, the City of Del Mar area was detached from the SD and the SD merged with the City of Solana Beach. The City of Del Mar contracts with the City of Solana Beach to provide wastewater services to the parcels detached from the former Solana Beach SD.

SPRING VALLEY COUNTY SANITATION DISTRICT
Renamed San Diego County Sanitation District, 2011
The Spring Valley County Sanitation District was formed as a county-dependent district in 1952. The District provided wastewater services within approximately 20 square miles of the unincorporated east-county community of Spring Valley. In 2010, a reorganization: (1) dissolved the Alpine, Julian, Lakeside, and Pine Valley County Sanitation Districts; (2) annexed the former districts’ territory to the Spring Valley County Sanitation District; and (3) also annexed territory within the East Otay Mesa, Harmony Grove, and Winter Gardens County Sewer Maintenance Districts to the Spring Valley Sanitation District. The Spring Valley Sanitation District was renamed the San Diego County Sanitation District.

SPRING VALLEY FIRE PROTECTION DISTRICT
Consolidated with Grossmont Mt. Helix FPD, 1988
The Spring Valley Fire Protection District (FPD) was responsible for structural fire protection and emergency medical services within approximately 17 square miles in the unincorporated community of Spring Valley. In 1988, Spring Valley FPD and the adjacent Grossmont-Mt. Helix FPD consolidated to form the San Miguel Consolidated FPD (see Index V: Grossmont-Mt. Helix FPD).

SPRING VALLEY RECREATION AND PARK DISTRICT
Dissolved; Function assumed by CSA No. 128 (San Miguel), 1992
The county-dependent Spring Valley Recreation and Park District was formed in 1963; the District’s primary function was to provide recreation programs at public schools in the unincorporated community of Spring Valley. The 1992 San Miguel Reorganization: (1) dissolved the Recreation and Park District; and (2) formed County Service Area (CSA) No. 128 (San Mi-
as successor agency. The CSA boundary was larger than the Recreation and Park District, covering approximately 2,500 acres and including 13 schools and three local parks.

**Tia Juana Valley Water District**  
Dissolved, 2004

The Tia Juana Valley County Water District (CWD) was formed in 1946 to protect groundwater resources within an unincorporated area adjacent to the U.S. and Mexico International border. The CWD was not authorized to distribute water for any use. When the City of San Diego annexed the unincorporated community of San Ysidro in 1950; and when the City of Imperial Beach incorporated in 1956, Tia Juana Valley WD territory was not detached from either city. The 2004 *Dissolution of the Tia Juana Valley County WD*, which was proposed by district voters, dissolved the WD and named the City of San Diego as successor agency for the purpose of winding up the affairs of the dissolved district.

**Tri-Cities Municipal Water District**  
Dissolved, 2000

The Tri-Cities Municipal Water District (MWD) was established in 1959 to bring imported water to southeastern Orange County. The MWD was located primarily in Orange County; however, 5.3 square miles within San Diego County were annexed to the District in 1975. The area in San Diego contained a portion of Camp Pendleton, the San Onofre Nuclear Generating Station site, and the San Onofre State Beach. The District purchased wholesale water from the Metropolitan Water District of Southern California for resale to local agencies. The Tri-Cities MWD was dissolved in 2000 in conjunction with a consolidation with the South Coast MWD in Orange County.

**Valley Center Community Services District**  
Operates as Valley Center Parks and Recreation District

The Valley Center parks and Recreation District was formed in 1966 as a Community Services District; however, the District has always operated as the Valley Center Parks and Recreation District [see Section I: Valley Center (Community Services) Parks and Recreation District].

**Vista Sanitation District**  
Dissolved; Function assumed by City of Vista, 1983

The Vista Sanitation District (SD) provided wastewater services in an unincorporated community, which was included in the incorporation of the City of Vista in 1963. The SD became a subsidiary of the City of Vista as a component of the incorporation and merged with the City in 1983.

**Whispering Palms Sanitation District**  
Dissolved; Function assumed by Whispering Palms Community Services District, 1987

The Whispering Palms Sanitation District (SD) was formed in 1968 to provide wastewater col-
lection and treatment services within approximately 280 acres in an unincorporated community in the San Dieguito River basin. The 1987 *Whispering Palms Reorganization*: (1) dissolved the Whispering Palms SD; (2) dissolved County Service Area (CSA) No. 1 (Whispering Palms), which had provided landscaping services and street lighting within the area; and (3) formed the Whispering Palms Community Services District (CSD) to assume responsibility for services provided by the former districts [see Index V: CSA No. 1 (Whispering Palms)].
