Item 6b

Sphere of Influence Update | San Diego County Sanitation District

Item presented for action as a follow up to the preceding municipal service review on the San Diego County Sanitation District. Executive Officer Keene Simonds provided a brief overview of the item and the statutory purpose to update San Diego County Sanitation District's sphere of influence to demark the area the Commission independently believes represents the agency's appropriate near-term service area and eligible for future annexation. Mr. Simonds recommended the Commission proceed now with an abbreviated update to affirm San Diego County Sanitation District's existing sphere without any changes while also identifying certain areas – including Mt. Helix – that warrant more discussion for possible inclusion as part of the next five-year update. Mr. Simonds added the recommendation to proceed now with the update to affirm the current sphere would be accomplished by adopting the draft resolution in the agenda packet making the required determinations under statute.

Chair MacKenzie opened the public hearing and asked the Commission if there were any questions for staff.

Commissioner Willis asked when the San Diego County Sanitation District last sphere was updated and the timetable to revisit. The Executive Officer responded the sphere was last updated in 2011 and it is staff's expectation to return with a more comprehensive update sometime in the next 60-month period pending formal Commission direction through the adoption of the annual workplan.

Commissioner Desmond asked for clarification on the existence of several non-jurisdictional areas that are completely surrounded by the San Diego County Sanitation District and the reasons why they been excluded from the sphere to date. The Executive Officer responded all of the non-jurisdictional "islands" are remnants of several predecessor agencies and their former spheres that were consolidated into the San Diego County Sanitation District in 2011. The Executive Officer added the exact reasoning as to why these island areas have been historically excluded from the spheres is uncertain, but staff assumes there was some initial check-in performed by LAFCO within the communities and it was determined at the time these areas should remain on septic systems.

Commissioner Jacob commented many of the referenced islands are in East County and there are long-standing concerns in the communities about development encroachment aided by the extension of wastewater service. Commissioner Jacob added LAFCO should be sensitive to these community concerns when returning to the topic in the future as part of the Executive Officer's suggestion of a more comprehensive update.

General discussion followed.

Item 6c

“Pauma Valley Fire Joint-Reorganization” |

Concurrent Divestiture of Fire Protection and Emergency Medical Service by Mootamai, Pauma, Yuima Municipal Water Districts and Latent Power Area Expansion of Fire Protection and Emergency Medical Services for County Service Area No. 135

Item presented for action with presentation provided by Analyst Linda Zambito related to the joint-proposal filed by four subject agencies to transfer fire protection and emergency medical service responsibilities involving approximately 18,565 acres in unincorporated Pauma Valley to the County of San Diego. Ms. Zambito noted the requested transfer involves LAFCO approval to divest existing fire protection and emergency medical powers from the Mootamai, Pauma, and Yuima Municipal Water Districts and concurrent expansion of County Service Area No. 135’s activated fire protection and emergency medical powers for the affected territory. Ms. Zambito summarized the staff analysis of the proposal and recommendation to proceed with an approval with modifications to add certain adjacent lands totaling 18.6 acres to better align the transfer to existing parcel lines. Ms. Zambito added a conforming sphere of influence amendment and standard terms are part of the recommended approval.

Chair MacKenzie opened the public hearing and asked for clarification regarding the map provided in the staff report. Ms. Zambito provided clarification as requested with additional details provided by Chief Policy Analyst Robert Barry.

Chair MacKenzie proceeded to invite other questions from the Commission.

PUBLIC HEARING ITEMS CONTINUED...

Item 6c Continued...

Commissioner Desmond asked for clarification on whether any monies are being exchanged between the three MWDs and the Fire Authority through CSA No. 135 as part of the transfer of fire protection and emergency medical service responsibilities. Staff responded that a benefit assessment specific to fire protection within the affected territory would transfer over to CSA No. 135; no property taxes would be exchanged.

Commissioner Desmond separately asked for clarification on the number of subsidies the County Fire Authority has been providing the three MWDs to help support fire protection services within their jurisdictional boundaries. At the invitation of Chair MacKenzie, County Fire Chief Tony Mecham responded at the podium and stated the annual subsidy provided to the MWDs has ranged between \$100,000 and \$140,000. Chief Mecham added this subsidy is coming to an end and the reorganization proposal has been timed accordingly.

General discussion followed from the Commission.

Chair MacKenzie proceeded to invite any members of the audience to address the Commission on this topic. Comments were received by the following individual.

- Warren Lyall with the Pauma Valley MWD thanked the Commission for taking the item up and reiterated the District's support for the staff recommendation.

Chair MacKenzie noted the item has been cancelled and will be rescheduled.

Item 6e

“Lomas de Oro Court Change of Organization” | Detachment from Leucadia WD

Item presented for action with presentation provided by Analyst Alex Vidal. Mr. Vidal noted the proposal has been submitted by two interested landowners requesting LAFCO approval to detach 1.6 acres of incorporated territory in the City of Encinitas from the Leucadia Wastewater District. Mr. Vidal added the purpose of the proposal is to facilitate connections of the two parcels that comprise the affected territory to the City of Encinitas’ public wastewater system in conjunction with a planned public works improvement to increase collection capacity. Mr. Vidal summarized the staff analysis of the proposal and recommendation to proceed with an approval with a modification to expand the detachment to include 0.1 acres of adjacent public right-of-way along with a conforming sphere amendment. Standard terms also part of the recommendation.

Chair MacKenzie asked whether staff had done any outreach to the neighboring landowners to assess interest in expanding the proposal to include additional properties that may also benefit in connecting to the City of Encinitas’ wastewater system. The Executive Officer responded LAFCO staff had not performed any outreach, but noted the City circulated a survey to assess landowner interest to connect to the wastewater system and the two landowners included in the proposal were the lone affirmative responses.

Chair MacKenzie asked the Commission for any questions.

With no questions, Chair MacKenzie proceeded to open the hearing and invited audience members to address the Commission.

With no audience comment, Chair MacKenzie closed the hearing and asked for a motion.

Standard terms also part of the recommendation.

Mr. Barry added the purpose of the proposal is to facilitate the development of a single-family residence. Mr. Barry summarized the staff analysis of the proposal and recommendation to proceed with an approval with a modification to add approximately 0.07 acres of adjacent public right-of-way. Conforming amendments and standard terms also part of the recommendation.

PUBLIC HEARING ITEMS CONTINUED...

Item 6g Continued...

Commissioner Jacob asked for clarification on the outreach performed by staff in processing the proposal. Mr. Barry responded that along with all subject and affected agencies notices were provided to County Planning and the Valle do Oro Community Planning Group. 7. BUSINESS ITEMS

Item 7a

Draft Municipal Service Review on the Escondido Region: Part One

Item is presented for information with a presentation provided by Analyst Alex Vidal on the draft report prepared as part of the scheduled municipal service review on the Escondido region. Mr. Vidal noted the draft before the Commission is Part One of the scheduled review and is specific to assessing the municipal services provided in the region by Deer Springs Fire Protection District and Rincon del Diablo Municipal Water District and Part Two covers the City of Escondido and will be presented in the future. Mr. Vidal summarized the draft on Part One and its key conclusions and recommendations and welcomed Commission feedback ahead of proceeding with a formal public review period with the intention of returning for formal action in October.

Chair MacKenzie asked the Commission if there were any questions for staff.

Commissioner Desmond asked for clarification regarding the exclusion of a sizeable portion of the Deer Springs FPD jurisdictional boundary from its sphere of influence. Staff responded LAFCO previously excluded the lower one-fifth of the District from the sphere in step with having separately placed the subject lands in the City of Escondido's sphere. Staff added the LAFCO expectation underlying these past decisions may warrant revisiting as part of the subsequent update process given the City of Escondido has not developed to the north as originally anticipated.

Commissioner Lump thanked staff for working with Rincon del Diablo MWD on the draft report and as a member of the District believes the document is generally fair with one notable exception. Commissioner Lump specified the draft's conclusions and related recommendations for LAFCO to perform a governance study to assess possible reorganization options given the overlapping boundaries and services between Rincon del Diablo MWD and the City of Escondido is fair but the specific reference of possibility transitioning Rincon into a subsidiary should be removed. Commissioner Lump added that the subsidiary route is one of many possible options that could be explored and its specification in the document is unwarranted at this time.

BUSINESS ITEMS CONTINUED...

Item 7a Continued...

Commissioner Jacob agreed with Commissioner Lump and added staff should proceed with independence and objectivity in proceeding with a governance study.

Commissioner Vanderlaan thanked staff for the draft and suggested it would be appropriate for LAFCO to continue to identify opportunities for additional fire consolidations – functional or political – to protect San Diego County.

Chair MacKenzie invited any members of the audience to address the Commission. Comments were received by the following individual.

- General Manager Greg Thomas with Rincon del Diablo MWD thanked staff for the report and opportunity to participate in the preparation of most of the document apart from the determinations. Mr. Thomas added Rincon disagrees with some of the determinations and will provide a letter accordingly. Mr. Thomas also reiterated Commissioner Lump's statement that Rincon is open to participating in a governance study so long as no specific outcomes are presupposed.

General discussion followed from the Commission. No action.
