Subject: RE: LAFCO Letter
Date: Wednesday, June 2, 2021 3:06:00 PM

Hi Mark,

This email confirms receipt of your email and accompanying letter last Friday to LAFCO Consultant Adam Wilson.

It appears the bulk of the letter serves as a response to a response between the County Water Authority and Fallbrook-Rainbow. These responses are now captured for the record and will be proportionally considered as LAFCO proceeds with the work of the Ad Hoc Committee.

The rest of this email addresses the other portion of your letter and detailed in paragraphs two and three. Within these two paragraphs the County Water Authority takes issue with Fallbrook-Rainbow having a one-on-one meeting with Dr. Hanemann and Adam Wilson. You proceed to conclude the meeting as inappropriate and request the contents of the discussion be publicly disclosed. I disagree. The meeting was appropriate and followed the Ad Hoc Committee's most recent deliberations on May 10th and the explicit offer therein by Mr. Wilson and Dr. Hanemann to meet with any of the subject agencies to discuss the Dr.'s preliminary analysis on water supply reliability. This meeting is available online for viewing and the referenced discussion and invitation for offline meetings start at 1:17:32.

Please advise if I have misunderstood your letter and/or concerns specific to LAFCO's handling of the Ad Hoc Committee and allowance therein for one-on-one meetings. Otherwise, I will assume this topic has been sufficiently addressed.

Thank you, Keene.
