SUBJECT: **Adopted Draft Workplan and Budget for 2025-2026**

SUMMARY

The Cities Advisory Committee (“Committee”) will review a draft workplan and budget for 2025-2026, which were adopted by the Commission at its March 3, 2025 meeting. Both drafts largely represent the status quo with respect to continuing existing project activities and funding levels with targeted enhancements. The workplan identifies 30 special projects in priority order and headlined by forwarding active municipal service reviews on wholesale water service providers, healthcare districts, and local agencies within the Carlsbad-Encinitas region. New additions include commencing a municipal service review on the San Diego Unified Port District and establishing a pilot grant program to help fund special LAFCO projects. The budget draws on the workplan and totals \$3.164 million in matching expenses and revenues and reflects an overall increase of 8.6% or \$0.251 million. The budgeted increase in revenues to match expenses mostly involves raising local agency apportionments by 7.6% or \$0.156 million with the balance covered by drawing from additional reserves. The item is for Committee review and feedback with the opportunity to forward specific recommendations for consideration by the Commission in taking up final approvals in May.

BACKGROUND

San Diego LAFCO is responsible under State law to adopt a draft budget by May 1st and a final budget by June 15th. A mandatory review by all local funding agencies is required between the two adoption periods. State law also specifies the proposed and final budgets must be

equal to the budget adopted for the previous fiscal year unless LAFCO formally finds any reduced costs will allow the membership to meet its regulatory and planning duties.¹

DISCUSSION

This agenda item is for the Committee to review and provide feedback on a draft (a) workplan and (b) budget adopted by the Commission for the upcoming fiscal year. The item is for Committee review and feedback with the opportunity to forward specific recommendations for consideration by the Commission in taking up final approvals in May.

A user-friendly public guide on the proposed workplan and budget is available as Attachment One. Additional discussion on both items follows.

Adopted Draft Workplan

The workplan builds on the existing fiscal year workplan and refined by ongoing feedback by the Commission as well as referencing the rolling five-year study schedule. These considerations produce a workplan reset with 30 special projects organized among six priority categories ranging from highest to low. Priority placements in the workplan generally follows a queuing order with active and new projects largely divided between the top-half and bottom-half, respectively. Twenty additional projects are also listed as bullpen and represent otherwise merited activities the Commission may choose to consider now and/or telegraph towards future workplans. A full listing of all projects is provided as Attachment Two.

Adopted Draft Budget

The budget has been developed in conjunction with funding the referenced workplan and sets total matching expenses and revenues at \$3.164 million. These matching amounts are divided between operating and non-operating units and represents a total increase of 8.6% – or \$0.251 million – over the current fiscal year. A full listing is provided as Attachment Three.

ANALYSIS

San Diego LAFCO's adopted draft workplan and budget for 2025-2026 largely reflects the status quo in continuing existing and telegraphed projects as well as funding levels with limited and targeted enhancements as detailed above. The status quo is reflected in the workplan by continuing the Commission's practice to set a full and otherwise proactive workplan with 30 special projects over the 12-month period with an emphasis on advancing LAFCO's municipal service review program. The status quo is similarly reflected in the budget by maintaining staff at 8.0 fulltime positions while keeping with practice in providing a cost-of-living adjustment based on the most recent inflation marker as well as relatively modest merit advancements for eligible employees. Funding additional consultant usage also underlies the change to the budget and merits attention given the contribution in raising

overall expenses. Staff believes the increase in consultant usage is merited given the need for technical expertise in advancing several active and pending municipal service reviews that involve relatively unique functions – like healthcare and transportation. Staff also believes this funding enhancement concurrently serves as a long-term savings by avoiding costs associated with expanding staffing levels that would otherwise be prompted to meet the Commission’s statutory tasks in regularly preparing municipal service reviews and other studies to inform its regulatory duties. Cost-savings in other non-labor accounts help to reduce the overall expense increase and lowers the corresponding impact to local agencies by drawing on additional reserves without falling under prescribed policy thresholds.

RECOMMENDATION

Consider the adopted workplan and budget and provide feedback to staff as well as any formal recommendations and/or requests to the Commission.

ALTERNATIVES FOR ACTION

The following alternatives are available to the Committee:

Alternative One (recommended):

Take no action other than providing feedback to LAFCO staff.

Alternative Two:

Provide specific recommendations and/or requests directly to the Commission.

PROCEDURES FOR CONSIDERATION

This item has been placed on the agenda under the business calendar with the potential to take actions as described above. The following procedures are suggested.

- 1) Receive verbal report from staff unless waived.
- 2) Consider the Committee’s preferences.

On behalf of the Executive Officer,

Priscilla Mumpower
Assistant Executive Officer
