**SUMMARY**

The San Diego County Local Agency Formation Commission (LAFCO) will receive a report on the most recent meeting of its Special Districts Advisory Committee held on April 17<sup>th</sup>. The report is in the form of draft minutes and is being presented for information only.

**BACKGROUND**

**Special Districts Advisory Committee**

The Special Districts Advisory Committee (SDAC) was established in 1971 to help inform and advise the Commission on related topics. SDAC's role has actively evolved from its initial focus on just jurisdictional changes affecting special districts to now expand into LAFCO's planning duties, highlighted by the Commission's municipal service review program. The Committee includes 15 elected members drawn from the 58 eligible independent special districts in San Diego County. The current Chair and Vice Chair are Kim Thorner (Olivenhain Municipal Water District) and Jack Beebe (Fallbrook Public Utility District), respectively.

**5. BUSINESS ITEMS**

**a) Adopted Draft Workplan and Budget for 2026-2027 (discussion + possible action)**

The Committee reviewed a draft workplan and budget for 2026-2027, which were tentatively adopted by the Commission at its March 2, 2026 meeting. Both items continue current priorities and funding levels with targeted enhancements. The draft workplan largely rolls forward the existing special project commitments from this fiscal year that are expected to remain active past July 1<sup>st</sup>, anchored by continuing high-priority municipal service reviews involving wholesale water service providers, healthcare districts, and SANDAG. The total budget – combining operating and non-operating units – is proposed to decrease overall by (8.2%) to \$2.904 million in balanced expenses and revenues, largely attributable to the winddown of grant activities. The operating budget is set to increase

3.4% – or \$90,379 – primarily driven by the addition of a ninth full-time position (Analyst I) and a preapproved cost-of-living adjustment, with costs partially offset through reduced consultant usage. Agency apportionments, however, are proposed to increase 18.7% – or \$407,580 – over the current fiscal year, exceeding the growth in operating expenses and entirely attributable to eliminating reserves as offsetting revenues. The item was for Committee review and feedback with the opportunity to forward specific recommendations for consideration ahead of final Commission action in May.

Staff presentation provided by Local Government Analyst I Burila.

Chair Thorner invited public comments from the following registered speaker:

- Kurt Worden, Lower Sweetwater Fire Protection District

Chair Thorner thanked Mr. Worden for his comment and asked staff to address the comment. Executive Officer Simonds responded to the comment.

Chair Thorner proceeded to invite questions and/or comments from the Committee.

While no formal recommendation was made, the Committee agreed to communicate the following consensus items to the Commission:

- With respect to the proposed addition of a ninth staff member, the Committee expressed support but also noted interest in the Commission continuing to make resources available to retain consultants for technical expertise as needed.
- With respect to the potential workplan directive to pursue legislation to add a ninth voting member to the Commission, the Committee is generally supportive, with a preference that the seat be designated for an additional public member.

\*\*

On motion by Jack Bebee (Fallbrook PUD) and seconded by James Gordon (Deer Springs FPD), the Committee unanimously recommended the Commission continue discussion and consideration of adding a ninth public member to the Commission.

### **b) Draft Municipal Service Review on Carlsbad-Encinitas Region (Part I): City of Carlsbad and Carlsbad Municipal Water District (discussion)**

The Committee received a draft municipal service review covering two agencies within the Carlsbad subregion: the City of Carlsbad and Carlsbad Municipal Water District (MWD). The draft report represents Part I of a broader regional municipal service review encompassing the Carlsbad-Encinitas region and is being advanced as part of the Commission's adopted workplan. The draft report evaluates the availability, need, and adequacy of key public services supporting the subregion's growth and development and includes determinations required by statute to inform future LAFCO actions, including sphere of

influence updates and potential boundary changes. At its April 6, 2026 meeting, the Commission reviewed the draft report, provided feedback to staff, and agreed the scope and content met expectations at this stage, authorizing staff to proceed with initiating a 45-day public review and comment period. The item was presented for discussion with an opportunity for the Committee to provide feedback as well as formal comments and recommendations. Given the Committee's composition, the presentation focused on the Carlsbad MWD.

Staff presentation provided by Local Government Analyst II Peters.

Chair Thorner proceeded to invite questions and/or comments from the Committee.
